Greene's Thrillers and the 1930s Brian Diemert,1996 In Graham Greene's Thrillers and the 1930s Brian Diemert examines the first and most prolific phase of Graham Greene's career demonstrating the close relationship between Greene's fiction and the political economic social and literary contexts of the period Situating Greene alongside other young writers who responded to the worsening political climate of the 1930s by promoting social and political reform Diemert argues that Greene believed literature could not be divorced from its social and political milieu and saw popular forms of writing as the best way to inform a wide audience Diemert traces Greene's adaptation of nineteenth century romance thrillers and classical detective stories into modern political thrillers as a means of presenting serious concerns in an engaging fashion He argues that Greene's popular thrillers were in part a reaction to the high modernism of writers such as James Joyce Gertrude Stein and Virginia Woolf whose esoteric experiments with language were disengaged from immediate social concerns and inaccessible to a large segment of the reading public Blood on the Stage, 1950-1975 Amnon Kabatchnik,2011-04-14

twelve distinguished historians offer original and playful readings of American icons and artifacts that cut across rather than stop at the nation's borders to model new interpretive approaches to studying United States history. These leading practitioners of the transnational turn pause to consider such famous icons as John Singleton Copley's painting *Watson and the Shark*, Alfred Eisenstaedt's photograph *V J Day 1945 Times Square* and Alfred Kinsey's reports on sexual behavior as well as more surprising but revealing artifacts like Josephine Baker's banana skirt and William Howard Taft's underpants. Together they present a road map to the varying scales, angles and methods of transnational analysis that shed light on American politics, empire, gender and the operation of power in everyday life.
