Fancy Dress:

Feminist Subjects, Multi-media Penny Florence, Dee Reynolds, 1995 Examines a range of media from paintings and family photography through to opera film and TV to novels and poetry and challenges the traditional boundaries between the creative and the critical **Local Records** John Sykes (of Newcastle-upon-Tyne.), 1833 At the Mercy of Their Clothes Celia Marshik, 2016-11-29 In much of modern fiction it is the clothes that make the character Garments embody personal and national histories They convey wealth status aspiration and morality or a lack thereof They suggest where characters have been and where they might be headed as well as whether or not they are aware of their fate At the Mercy of Their Clothes explores the agency of fashion in modern literature its reflection of new relations between people and things and its embodiment of a rapidly changing society confronted by war and cultural and economic upheaval In some cases people need garments to realize themselves In other cases the clothes control the person who wears them Celia Marshik's study combines close readings of modernist and middlebrow works a history of Britain in the early twentieth century and the insights of thing theory She focuses on four distinct categories of modern clothing the evening gown the mackintosh the fancy dress costume and secondhand attire In their use of these clothes we see authors negotiate shifting gender roles weigh the value of individuality during national conflict work through mortality and depict changing class structures Marshik's dynamic comparisons put Ulysses in conversation with Rebecca Punch cartoons articles in Vogue and letters from consumers illuminating opinions about specific garments and a widespread anxiety that people were no more than what they wore Throughout her readings Marshik emphasizes the persistent animation of clothing and objectification of individuals in early twentieth century literature and society She argues that while artists and intellectuals celebrated the ability of modern individuals to remake themselves a range of literary works and popular publications points to a lingering anxiety about how political social and economic conditions continued to constrain the individual **Local Records** John Sykes, 1833
