We Average Unbeautiful Watchers Noah Cohan, 2019-07-01 Sports fandom often more than religious political or regional affiliation determines how millions of Americans define themselves In *We Average Unbeautiful Watchers* Noah Cohan examines contemporary sports culture to show how mass mediated athletics are in fact richly textured narrative entertainments rather than merely competitive displays While it may seem that sports narratives are written by athletes and journalists Cohan demonstrates that fans are not passive consumers but rather function as readers and writers who appropriate those narratives and generate their own stories in building their sense of identity Critically reading stories of sports fans self definition across genres from the novel and the memoir to the film and the blog post *We Average Unbeautiful Watchers* recovers sports games as sites where fan authors theorize interpretation historicity and narrative itself Fan stories demonstrate how unscripted sporting entertainments function as identity building narratives which in turn enhances our understanding of the way we incorporate a broad range of texts into our own life stories Building on the work of sports historians theorists of fan behavior and critics of American literature Cohan shows that humanistic methods are urgently needed for developing nuanced critical conversations about athletics Sports take shape as stories and it is scholars in the humanities who can best identify how they do so and why that matters for American culture more broadly

Snuff Neil Jackson, Shaun Kimber, Johnny Walker, Thomas Joseph Watson, 2016-01-28 The phenomenon of so called snuff movies films that allegedly document real acts of murder specifically designed to entertain and sexually arouse the spectator represents a fascinating socio cultural paradox At once unproven yet accepted by many as emblematic of the very worst extremes of pornography and horror moral detractors have argued that the mere idea of snuff constitutes the logical and terminal extension of generic forms that are dependent primarily upon the excitement stimulation and ultimately corruption of the senses *Snuff Real Death* and *Screen Media* brings together scholars from film and media studies to assess the longevity of one of screen media's most enduring cultural myths Thorough provocative and well argued the contributions to this volume address areas ranging from exploitation movies the video industry trends in contemporary horror cinema pornography and Web 2.0

Soccernomics Simon Kuper, 2014-04-22 INTERNATIONAL BESTSELLER Named one of the Best Books of the Year by Guardian Slate Financial Times Independent UK and Bloomberg News *Soccernomics* pioneers a new way of looking at soccer through meticulous empirical analysis and incisive witty commentary The San Francisco Chronicle describes it as the most intelligent book ever written about soccer This World Cup edition features new material including a provocative examination of how soccer clubs might actually start

making profits why that's undesirable and how soccer's never had it so good *A Fan's Life* Paul Campos, Paul F. Campos, 2022-09-05 Sports fandom is defined by obsession, irrationality and a love of rabbit holes. But in 2020 most professional sports had few games and no fans present. This led lawyer and University of Michigan superfan Paul Campos to ponder the ways that fandom is conditioned by social circumstance and collective psychology. In limning the structural unhappiness of a fan's life, he found deep and resonant political and personal meanings to loving a sports team; some obvious, others revealed only over time. Campos's own lifelong obsessions help him index fandom-related manias and provides an entry point to grasping their history, nature and surprisingly broad import.

Anime's Knowledge Cultures Jinying Li, 2024-03-12 Unlocking the technosocial implications of global geek cultures. Why has anime, a low-tech medium from last century, suddenly become the cultural new cool in the information age? Through the lens of anime and its transnational fandom, Jinying Li explores the meanings and logics of geekdom as one of the most significant sociocultural groups of our time. In *Anime's Knowledge Cultures*, Li shifts the center of global geography in knowledge culture from the computer boys in Silicon Valley to the anime fandom in East Asia. Drawing from film studies, animation studies, media theories, fan studies and area studies, she provides broad cultural and theoretical explanations of anime's appeal to a new body of tech-savvy knowledge workers and consumers commonly known as geeks, otaku or zhai. Examining the forms, techniques and aesthetics of anime as well as the organization practices and sensibilities of its fandom, *Anime's Knowledge Cultures* is at once a theorization of anime as a media environment as well as a historical and cultural study of transnational geekdom as a knowledge culture. Li analyzes anime culture beyond the national and subcultural frameworks of Japan or Japanese otaku; instead, theorizing anime's transnational transmedial network as the epitome of the postindustrial knowledge culture of global geekdom. By interrogating the connection between the anime boom and global geekdom, Li reshapes how we understand the meanings and significance of anime culture in relation to changing social and technological environments.

Fandom as Methodology Catherine Grant, Kate Random Love, 2019-12-03 An illustrated exploration of fandom that combines academic essays with artist pages and experimental texts. *Fandom as Methodology* examines fandom as a set of practices for approaching and writing about art. The collection includes experimental texts, autobiography, fiction and new academic perspectives on fandom in and as art. Key to the idea of fandom as methodology is a focus on the potential for fandom in art to create oppositional spaces, communities and practices, particularly from queer perspectives, but also through transnational feminist and artist-of-color fandoms. The book provides a range of examples of artists and writers working in this vein as well as academic essays that explore the ways in which fandom can be theorized as a methodology for art practice and art history. *Fandom as Methodology* proposes that many artists and art writers already draw on affective strategies found in fandom. With the current focus in many areas of art history, art writing and performance studies around affective engagement with artworks and imaginative potentials, fandom is a key methodology that has yet to be explored.

Interwoven into the academic essays are lavishly designed artist pages in which artists offer an introduction to their use of fandom as methodology Contributors Taylor J Acosta Catherine Grant Dominic Johnson Kate Random Love Maud Lavin Owen G Parry Alice Butler Soojin Lee Jenny Lin Judy Batalion Ika Willis Artists featured in the artist pages Jeremy Deller Ego Ahaïwe Sowinski Anna Bunting Branch Maria Fusco Cathy Lomax Kamau Amu Patton Holly Pester Dawn Mellor Michelle Williams Gamaker The Women of Colour Index Reading Group Liv Wynter Zhiyuan Yang *Engineering Review*, 1908
