## **Hobbes Et La Pensée Politique Moderne:**

*Hobbes et la pensée politique moderne* Yves Charles Zarka, 1995      **Sovereignty and Liberty** Amnon Lev, 2014-03-21  
The attitude we take to power is almost invariably one of distrust never more so than when it claims to be sovereign And yet we have always been drawn to sovereignty Out of fear or fascination we accepted that it was a condition of our liberty that to assert ourselves as free we would have to work not against but through sovereign power This book retraces the history of the implication of sovereignty and liberty an implication that has shaped the way we live together as individuals and as political beings Shedding new light on the work of key political and constitutional thinkers including Marsilius of Padua Hobbes Hegel Kelsen and Schmitt it identifies the conceptual operations that created sovereignty and shows how subjection to an absolute and undivided power came to be a source of meaning At the heart of the analysis is the idea that sovereignty made reference to and relied upon a form of faith which aligned man's political existence on law Offering new and often controversial insights into the grounds of our attachment to sovereign power and into the crisis that is currently affecting its institutions this book will appeal to students and scholars of law politics history of philosophy and the social sciences      The Theological-Political Origins of the Modern State Bernard Bourdin, 2010 In this work Bernard Bourdin clearly sets forth the political thought and theology of James I as an early intellectual foundation for the modern state      S. A. Lloyd, 2013-08-31  
This volume demonstrates the enduring relevance of the philosophy of Thomas Hobbes for the political and social problems we face today      *Visions of Politics* Quentin Skinner, 2002-09-16 The third of three volumes of essays by Quentin Skinner one of the world's leading intellectual historians This collection includes some of his most important essays on Thomas Hobbes each of which has been carefully revised for publication in this form In a series of writings spanning the past four decades Professor Skinner examines with his customary perspicuity the evolution and character of Hobbes's political thought An indispensable work in its own right this volume also serves as a demonstration of those methodological theories propounded in Volume I and as an appositional commentary on the Renaissance values of civic virtue treated in Volume II All of Professor Skinner's work is characterised by philosophical power limpid clarity and elegance of exposition these essays many of which are now recognised classics provide a fascinating and convenient digest of the development of his thought Professor Skinner has been awarded the Balzan Prize Life Time Achievement Award for Political Thought History and Theory Full details of this award can be found at [http://www.balzan.it/News\\_eng.aspx?ID=2474](http://www.balzan.it/News_eng.aspx?ID=2474)      **Lessons from a Materialist Thinker** Samantha Frost, 2008 Carefully elaborating Hobbes materialist ontology Samantha Frost challenges both our implicit Cartesian assumptions about the self the commonplace Hobbes that so readily figures in our political imagination      **The Cambridge Companion to Hobbes's Leviathan** Patricia Springborg, 2007-07-23 This Companion makes a new departure in Hobbes scholarship addressing a philosopher whose impact was as great on Continental European theories of state and legal systems as it was at home This volume is a systematic attempt to incorporate work from both the Anglophone and Continental

traditions bringing together newly commissioned work by scholars from ten different countries in a topic by topic sequence of essays that follows the structure of Leviathan re examining the relationship among Hobbes s physics metaphysics politics psychology and religion Collectively they showcase important revisionist scholarship that re examines both the context for Leviathan and its reception demonstrating the degree to which Hobbes was indebted to the long tradition of European humanist thought This Cambridge Companion shows that Hobbes s legacy was never lost and that he belongs to a tradition of reflection on political theory and governance that is still alive both in Europe and in the diaspora **Hobbes's On the**

**Citizen** Robin Douglass,Johan Olsthoorn,2020 The first book length study in English of Thomas Hobbes s On the Citizen containing twelve original essays by leading Hobbes scholars **The Cambridge Platonists in Philosophical Context**

G.A. Rogers,J.-M. Vienne,Y.C. Zarka,2013-03-14 The Cambridge Platonists were defenders of tolerance in the political as well as the moral sphere they held that practical j u d g e m e n t came down in the last instance to individual conscience and they laid the foundations of our modern conceptions of conscience and liberty But at the same time they ma intained the existence of eternal truths and of a Good in itself identical with Truth and Being refusing to admit that freedom of conscience i m p l i e d moral relativism They were critics of dogmatism and of the sectarian notion of enthusiasm as a source of illumination on the grounds that both were disruptive of social harmony they pleaded the cause of reason in the hope that it could become the foundation of all human knowledge Yet for all that they ma intained that a certain sort of mystical illumination lay at the heart of all true thought and that human reason had validity only in virtue of i t s divine origin They debated with Des cartes and took a keen interest in his mech ism and his dualism they brought the atomistic theories of Democritus back into repute and they sought to provide a detailed account of the causality link ing all phenomena *Rhetoric, Modality, Modernity*

Nancy S. Struever,2009-11-15 Since antiquity philosophy and rhetoric have traditionally been cast as rivals with the former often lauded as a search for logical truth and the latter usually disparaged as empty speech But in this erudite intellectual history Nancy S Struever stakes out a claim for rhetoric as the more productive form of inquiry Struever views rhetoric through the lens of modality arguing that rhetoric s guiding interest in what is possible as opposed to philosophy s concern with what is necessary makes it an ideal tool for understanding politics Innovative readings of Hobbes and Vico allow her to reexamine rhetoric s role in the history of modernity and to make fascinating connections between thinkers from the classical early modern and modern periods From there she turns to Walter Benjamin reclaiming him as an exemplar of modernist rhetoric and a central figure in the long history of the form Persuasive and perceptive Rhetoric Modality Modernity is a novel rewriting of the history of rhetoric and a heady examination of the motives issues and flaws of contemporary inquiry

*Philosophical Foundations of International Criminal Law* Morten Bergsmo,Emiliano J. Buis,2018-11-30 This first edition of Philosophical Foundations of International Criminal Law Correlating Thinkers contains 20 chapters about renowned thinkers from Plato to Foucault As the first volume in the series Philosophical Foundations of International Criminal Law the book

identifies leading philosophers and thinkers in the history of philosophy or ideas whose writings bear on the foundations of the discipline of international criminal law and then correlates their writings with international criminal law **Roberto Esposito** Peter Langford, 2015-05-15 Roberto Esposito *Law Community and the Political* provides a critical legal introduction to this increasingly influential Italian theorist's work by focusing on Esposito's reconceptualisation of the relationship between law community and the political. The analysis concentrates primarily on Esposito's Categories of the Impolitical: *Communitas*, *Immunitas* and *Biopolis*, which it is argued are animated by an abiding concern with the position of critique in relation to the tradition of modern and contemporary legal and political philosophy. Esposito's fundamental rethinking of these notions breaks with the existing framework of political and legal philosophy through the critique of its underlying presuppositions. And in the process Esposito rethinks the very form of critique. As the first monograph-length study of Esposito in English, *Roberto Esposito: Law Community and the Political* will be of considerable interest to those working in the areas of contemporary legal and political thought and philosophy.

**To Be Unfree** Christian Dahl, Tue Andersen Nexø, 2014-09-15 *To Be Unfree* is a collection of essays investigating how political unfreedom has been and can be articulated within the republican tradition of political thought. The book combines a theoretical discussion of how freedom and its opposites have been conceptualized in the republican tradition with a broader perspective on this tradition's impact on the representation of unfreedom in Western literature and cultural history. It thus complicates our understanding of what it means to be unfree and unveils a series of distinctions which also shape our modern notions of freedom.

**Rousseau Between Nature and Culture** Anne Deneys-Tunney, Yves Charles Zarka, 2016-03-07 Rousseau has been seen as the inventor of the concept of nature in this collective volume. Philosophers and literary specialists from France and the United States examine how Rousseau's philosophy can be reinterpreted from the point of view of a constant dialectical debate between nature and culture. In this, Rousseau is our true contemporary.

*La représentation et ses crises* Jean Pierre Cotten, André Tosel, 2001 *Cosmopolitanism, Migration and Universal Human Rights* Mogens Chrom Jacobsen, Emnet Berhanu Gebre, Drago Župarić-Ilić, 2020-09-01 This book describes the potential and challenges of cosmopolitanism from a philosophical and historical point of view. Through the prism of cosmopolitanism, this book considers how the recent surge in migration is affecting our current reality while also taking stock of the contemporary potential of cosmopolitan ideas. It considers and compares the significance of religion and culture for the wider societal acceptance or rejection of refugees. Moreover, the book examines the European Court of Human Rights jurisprudence on immigration policies, non-refoulement, humanitarian law and gender. It presents empirically based research of a quantitative, qualitative and comparative nature regarding the determinants of attitudes towards cosmopolitanism and more generally concerning public opinion on migration issues and reflects on conceptions of and attitudes towards citizenship while also imagining new forms of citizenship. This book serves as a comprehensive overview and resource for migration scholars from the social sciences and the humanities as

well as students and other stakeholders in the fields of migration and human rights 1995 Massimo Mastrogregori, 2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors Printed Voices Jean-François Vallée, Dorothea B. **The Sources of Secularism** Anna Tomaszewska, Hasse Hämäläinen, 2017-10-05 This book examines the importance of the Enlightenment for understanding the secular outlook of contemporary Western societies. It shows the new ways of thinking about religion that emerged during the 17th and 18th centuries and have had a great impact on how we address problems related to religion in the public sphere today. Based on the assumption that political concepts are rooted in historical realities, this collection combines the perspective of political philosophy with the perspective of the history of ideas. Does secularism imply that individuals are not free to manifest their beliefs in public? Is secularization the same as rejecting faith in the absolute? Can there be a universal rational core in every religion? Does freedom of expression always go hand in hand with freedom of conscience? Is secularism an invention of the predominantly Christian West which cannot be applied in other contexts, specifically that of Muslim cultures? Answers to these and related questions are sought not only in current theories and debates in political philosophy but also in the writings of Immanuel Kant, Benedict Spinoza, Thomas Hobbes, Anthony Collins, Adriaan Koerbagh, Abbé Claude Yvon, Giovanni Paolo Marana and others.
