**Netherlands News** ,1943      *Power and Urban Space in Pre-Modern Holland* Clé Lesger,2024-02-22 Cities and urban societies have many faces In this study the pre modern cities of Holland are presented as arenas where power relations between social classes are expressed in a more or less permanent appropriation of physical space and through discursive strategies The continuity of the power relations in the cities of Holland spanning centuries makes it urgent to look not only at the assumption of urban space as an expression of power relations within society but also at the contribution of this appropriation to the acceptance and continuity of the existing power relations in pre modern Holland Within this broad area extensive attention is paid to the very prominent and enduring appropriation of urban space in the field of housing the less permanent but violent appropriation of urban space during the public execution of scaffold punishments the maintenance of public order by civic militias and appropriation during riots and revolts In addition city descriptions maps and pictures of the pre modern cities of Holland are scrutinised for what they can reveal about the appropriation of urban spaces These themes each have an extensive historiography but they have never been brought together in an interpretative framework that fits in with Pierre Bourdieu s model of society and the work of especially John Allen on power until now      *The Theosophist* ,1909

**Voice of the Netherlands** ,1944      The Review of Reviews William Thomas Stead,1914      *The Lion and the Gadfly* Paul van der Veur,2021-12-28 This political biography reveals the turbulent life of Ernest François Eugène Douwes Dekker son of a Dutch father and a German Javanese mother born on Java in 1879 Vignettes flow in novel like fashion from the battle fields of South Africa and internment camp in Sri Lanka to a career in journalism in Java Radical thoughts then enter Douwes Dekker s mind such as demands for racial equality and national independence These made him write presciently that this road might take him to the executioner s hand or to the victory of revolution In exile from 1913 on his bravado allowed him to enter a doctoral program at the University of Zurich but also to entanglement with Indian revolutionaries operating from Berlin Returning to Java at the end of World War I he once again propagated the virtues of nationalism but soon was forced to relinquish his efforts and start a teaching career Even here constant surveillance and eventual internment in Surinam were his lot Within a decade the Republic of Indonesia had been proclaimed and Douwes Dekker emerged to acclaim as a close friend and political adviser to President Soekarno      The Great War in Belgium and the Netherlands Felicity Rash,Christophe Declercq,2018-07-02 This book addresses the many avenues that are still left unexplored when it comes to our understanding of the First World War in the Low Countries With the ongoing the centenary of the Great War many events have been organized in the United Kingdom to commemorate its military events its socio political consequences and its cultural legacy Of these events very few have paid attention to the fates of Belgium or the Netherlands even though it was the invasion of Belgium in August 1914 that was the catalyst for Great Britain declaring war The occupation of Belgium had long term consequences for its people but much of the military and social history of the Western Front concentrates on

northern France and the Netherlands is largely forgotten as a nation affected by the First World War By opening the field beyond the military and beyond the front this collection explores the interdisciplinary and international nature of the Great War

*Altruistic Personality* Samuel P. Oliner, 1992-04-01 An enlightening and powerful exploration of those who risked their lives to help others during the Holocaust and those who did not and what we must do to ensure that such a tragedy never occurs again Why during the Holocaust did some ordinary people risk their lives and the lives of their families to help others even total strangers while others stood passively by Samuel Oliner a Holocaust survivor who has interviewed more than seven hundred European rescuers and nonrescuers provides some surprising answers in this compelling work Samuel Oliver delves into the profound acts of altruism that emerged during one of history's darkest periods Each interview provides a unique insight into the types of personalities that answer a call to action and those that do not By comparing these rescuers with bystanders he provides a nuanced understanding of what drives people to act with extraordinary compassion or to remain passive in the face of evil Offering both a historical perspective and a roadmap for a more compassionate future *Altruistic Personality* is not just a historical account it is a call to action and a beacon for moral education Relevant when it was first published and even more relevant today Oliver argues that by understanding and fostering the traits of altruism we can prevent future atrocities and bring out the better aspects of humanity

Translated by David McKay *Boundaries and their Meanings in the History of the Netherlands*, 2009-06-17 Traditionally the term boundary applies to the demarcation between a physical place and another physical place most commonly associated with lines on a map As the essays in this volume demonstrate however a boundary can also function in a more broadly conceptual manner A boundary becomes not an imaginary line but a tool for thinking about how to separate any two elements whether ideas events etc into categories by which they become comprehensible and distinct The scholar contributors seek not simply to discern the boundaries but and perhaps more importantly to understand the process of delination and its consequences With its maverick history and grass root political traditions the Netherlands provides an auspicious setting to examine the historical function of boundaries both real and imagined *Netherlands Indies Review*

**Catholics during Holland's Golden Age** Christine Kooi, 2012-04-30 This book examines the social political and religious relationships between Calvinists and Catholics during Holland's Golden Age. Although Holland the largest province of the Dutch Republic was officially Calvinist its population was one of the most religiously heterogeneous in early modern Europe. The Catholic Church was officially disestablished in the 1570s yet by the 1620s Catholicism underwent a revival flourishing in a semi clandestine private sphere. The book focuses on how Reformed Protestants dealt with this revived Catholicism arguing that confessional coexistence between Calvinists and Catholics operated within a number of contiguous and overlapping social political and cultural spaces. The result was a paradox a society that was at once Calvinist and pluralist. Christine Kooi maps the daily interactions between people of different faiths and examines how religious boundaries were negotiated during an era of tumultuous religious change. **Tocqueville and Beyond** Robert M. Schwartz, Robert Alan Schneider, 2003 This collection of essays by French and American historians testifies to the enduring importance of Alexis de Tocqueville's *The Old Regime and the French Revolution* first published in 1856. Highly original in its day and now recognized as a classic *The Old Regime* has since the 1970s stimulated considerable research and improved our understanding of the French Old Regime. Tocqueville and Beyond joins this trend to offer both an appreciation and critique of Tocqueville's remarkable book. From the wide ranging perspectives of privileged nobles men of letters rural life and the evolution of centralization and liberty in France as well as the Dutch Republic these essays attest to the continuing significance of Tocqueville's classic study. **Bruc ealles well** Marc Lodewijckx, 2004 The essays in this book are about the peoples of North West Europe in the first millennium AD. They were written by archaeologists from various countries who either reveal the results of their archaeological fieldwork or place the knowledge they have of their particular region in a wider supraregional context. It is commonly known that archaeologists prefer to devote their time to fieldwork. Considering the limited number of archaeologists and the multitude of opportunities for fieldwork this preference is quite understandable if not even obvious. In addition to this essay writing is a cumbersome and exhausting activity. The warm and enthusiastic response to our request for contributions made it possible to compose an interesting volume. We hope that this publication may encourage many others to remain active in the field of archaeology and that the cooperation among colleagues stimulated by this project may be continued in the future. **Dictionary Of World Literature - Criticism, Forms, Technique** Joseph T Shipley, 2013-04-04 The dictionary of world literature criticism forms technique presents a consideration of critics and criticism of literary schools movements forms and techniques including drama and the theatre in eastern and western lands from the earliest times of literary and critical terms and ideas with other material that may provide background of understanding to all who as creator critic or receptor approach a literary or theatrical work.
