**The Exhibitor as Producer** Richard Abel, 2024-12-28 This open access book seeks answers to a series of questions about the little studied subject of prologues or theatrical presentations in American movie theaters from the late 1910s to the mid 1920s How did prologues emerge out of prior practices Who were the exhibitors most involved What characteristics would come to define prologues How widespread did they become not only in metropolitan palace cinemas but also in movie theaters in mid sized cities and even small towns If they generally created an atmosphere that complimented or harmonized with the feature films could they also be what at the time was called contrastive Who were the performers in these theatrical presentations Were prologues ever described in ads and audience responses as a program s main attraction and to what effect The book comprises five chapters and up to a hundred photographs of prologue stage settings Moreover supplementing each chapter is one or more relevant trade press documents Overall the chapters construct a set of practices and typologies that came to define the theatrical presentations that typically preceded the feature films They also advance this argument the variety format of combined stage and screen performance in movie theaters has a longer and unexpectedly revealing history than usually assumed In short an exhibitor would have a certain degree of creativity in his her programming which in turn could strongly impact an audience s movie going experience Fashion Communication in the Digital Age Nadzeya Kalbaska, Teresa Sádaba, Francesca Cominelli, Lorenzo Cantoni, 2019-06-03 This book represents a major milestone in the endeavour to understand how communication is impacting on the fashion industry and on societal fashion related practices and values in the digital age It presents the proceedings of FACTUM 19 the first in a series of fashion communication conferences that highlights important theoretical and empirical work in the field Beyond documenting the latest scientific insights the book is intended to foster the sharing of methodological approaches expand the dialogue between communications studies and fashion related disciplines help establish an international and interdisciplinary network of scholars and offer encouragement and fresh ideas to junior researchers It is of high value to academics and students in the fields of fashion communication fashion marketing visual studies in fashion digital transformation of the fashion industry and the cultural heritage dimension of fashion In addition it is a key resource for professionals seeking sound research on fashion communication and marketing *Library of Congress Subject Headings* Library of Congress, Library of Congress. Some of the modern developments described in *Motion Control and Geometry* include the geometric control of robot motion and craft orientation how high power precision micromotors are engineered for less invasive surgery and self focusing lens applications what a mobile robot on a surface has in common with one moving in three dimensions and how the motion control problem is simplified by a coupled oscillator s geometric grouping of degrees of freedom and motion time scales The four papers in these proceedings provide a view through the scientific portal of today s motion control geometric research into tomorrow s technology The mathematics needed to carry out this research is that of modern differential geometry and the questions raised in the field of motion control geometry go directly to the research frontier Geometry is a mathematical area too often neglected nowadays in a student s education This publication will help adjust the control initially imposed about 2 300 years ago on one kind of motion that of students entering Plato s Academy where the following caveat was inscribed above the doorway Let no one ignorant of geometry enter here Readers of these chapters will gain an appreciation of modern geometry and how it continues to play a crucial role in the context of motion control in cutting edge science and technology

appears to be altogether differently occupied disingenuous and insubstantial even sophistic in its pretense to peddle surfaces as if they were something deep But is fashion's apparent beguilement more philosophical than it seems And is philosophy's longing for exposed depth concealing fashion in its anti fashion stance Using primarily ancient Greek texts peppered with allusions to their echoes across the history of philosophy and contemporary fashion and pop culture Gwenda Lin Grewal not only examines the rift between fashion and philosophy but also challenges the claim that fashion is modern Indeed fashion's quarrel with philosophy may be at least as ancient as that infamous quarrel between philosophy and poetry alluded to in Plato's Republic And the quest for fashion's origins as if a quest for a neutrally outfitted self stripped of the self awareness that comes with thinking prompts questions about human agency and our immersion in time The touch of reality's fabric bristles in our relationship to our looks not simply through the structure of clothes but in the plot of our wearing them Meanwhile the fashion of our words sharpens our meaning like a cutting silhouette Grewal's own writing is playfully and daringly self conscious aware of its style and the entrapment it arouses from the very first line The reactions provoked by fashion's flair not only among the philosophical set but also among those who would never deck themselves out in the title philosopher show it forth as perhaps philosophy's most important and underestimated doppelgänger

*Slow Motion* Andie Miller, 2010 *Slow Motion* is a collection of non fiction stories essays and interviews about walking The collection has been written over a period of six years and so the book has become something of a documentary project witnessing transformation in South Africa through the eyes of pedestrians across the economic racial and age spectrum The book could be described as documenting recent history Though it inevitably looks at the issue of crime and how we have moved from a race based to a class based society and pedestrians of all colours continue to be marginalised and thought of as second class citizens in an increasingly autocratic society it is essentially an optimistic book It tells the stories of South Africans and visitors who have chosen to reclaim the streets from predators and traffic While the focus is primarily on Johannesburg several of the stories are about Cape Town contrasting the experience of walking in these two cities Other international cities such as Los Angeles Paris London and Mumbai are also visited along the way The style of the book is such that while it can be opened anywhere and each story can be read and enjoyed on its own a bedside table book the stories are interlinked as people's paths inevitably cross There is a bigger story at play as well The band of pedestrians includes writers artists political activists disabled people dogs and their owners Walk for Life members Jews on the Sabbath domestic workers refugees babies learning to walk and even a golfer and a caddy The purpose of the book is both to entertain and inform readers Publisher's website
