Transpositions Rosi Braidotti, 2006-03-27 This book offers an account of ethical and political subjectivity in contemporary culture It makes a case for a non unitary or nomadic conception of the subject in opposition to the claims of ideologies such as conservatism liberal individualism and techno capitalism Braidotti takes a stand against moral universalism while offering a vigorous defence of nomadic ethics against the charges of relativism and nihilism She calls for a new form of ethical accountability that takes Life as the subject not the object of enquiry The nomadic ethical subject negotiates successfully the complex tension between the multiplicity of political forces on the one hand and the sustained commitment to emancipatory politics on the other **The Economy of Icons** Ernest Sternberg, 1999-09-30 Though many

still think that we live in an information economy Ernest Sternberg asserts that the driving force in 21st century capitalism is not information but image Through studies of food processing real estate development tourism movies and labor performances he examines how businesses endow products with evocative meaning It has become common wisdom that we live in a postindustrial information society in which data and calculation underlie wealth But now that information is as routinely produced as industrial or agricultural goods businesses are discovering that they best achieve competitive advantage by producing what consumers most dearly seek personal meaning The 21st century economy produces just that not merely information but evocative images not just commodities but meaning laden icons As Sternberg shows foods now appeal through their sensuality and nostalgia houses and stores draw customers through their exoticism people sell their labor through the deliberate performance of the self for the market and tourist destinations offer up carefully crafted thematic experiences Whereas farms factories and information processors once stood at the core of the economy now movie studios do producing the product valued above all meaningful content from which downstream firms acquire the themes that animate desire Now that meaning pervades production Sternberg argues modes of inquiry once reserved for the humanities make sense in the study of the economy Drawing on art history and aesthetics he introduces iconography as a mode of cultural analysis adapted to the study of commercial production Through comparative studies of diverse economic sectors ranging from food processing to tourism Sternberg carries out an iconographic analysis of the new economy This is a provocative study for scholars students and professionals dealing with marketing and consumer research culture and media studies socio economics and economic geography

ideology gave certain men greater freedom and spending power than ever before Edwards investigates how these men clearly distinguished by age class and sexual orientation were seduced by advertisers with sexualised images of suited city gents and body beautiful boys in Levis and how the resultant process of consumption was facilitated through developments in the practice of shopping itself such as easy access to credit He examines the influence of the advertisers message in creating a hierarchy of masculinity in which some men are valorised and others are denigrated Starting with a historical review of men s fashion and a discussion of its importance and meanings Edwards goes on to analyse the contemporary marketing of menswear and masculinity in advertising and in the media and considers the politics of fashion for men in terms of gender class race and sexuality *The Young Woman's Journal* ,1929 **Titian Remade** Maria H. Loh,2007 This insightful volumes the use of imitation and the modern cult of originality through a consideration of the disparate fates of two Venetian painters the canonised master Titian and his artistic heir the little known Padovanino **Ideas and Methods Exchange** ,195? **Men Desiring Men** Susan E. Gustafson,2002 Gustafson goes beyond the medical psychoanalytical and legal discourses that Foucault viewed as the initiators of modern sexual identities to explore the literature and discourse of male male desire a century earlier within the tradition of German Classicism Reading such authors as Goethe Winckelman and Moritz she finds a self conscious formulation of same sex desire leading to a sense of identity and community **BOOK JACKET** *Tagore and Yeats* ,2022-04-25 The Yeats Tagore friendship and the eventual curious fallout between the two remain a mystery the focus of this volume is a postcolonial reading of the two writers friendship the critical reception of Tagore in 1912 England and Tagore s erasure from Western literary discourse The essays in this volume take a decolonial turn to critically analyze the two writers in the discourse of power that is a part of their larger story The nuances that appear in the pages of this illuminating book explore the meaning of the politics of friendship and the sense of intercultural relationship marred by colonialism The volume re envisions what the postcolonial can mean be and do We can learn from the two major figures and their work and create a new vision of that problematic preposition post br Professor Mieke Bal ASCA Amsterdam School of Cultural Analysis This volume offers a magnificent illustration of how to retell the story of a cross cultural literary relationship from a decolonial perspective Ghosh and Redwine s edited collection exemplifies the need of the hour to reassess the value of literary traditions institutions and relationships while illuminating the politics of colonialism and racism that compromises them Deepika Bahri Professor of English Emory University Author of *Postcolonial Biology* **After A Fashion** Joanne Finkelstein,2013-02-01 Fashion is more than supermodels in odd clothes pouting and pirouetting on Parisian catwalks Commentators and theorists have variously seen fashion as a social economic or aesthetic force or sometimes as all three at once Fashion helps to form our individual identities and lets us stand out from the crowd Fashion appears to be novel At the same time it preserves the status quo it makes us think that change is occurring when the opposite is closer to the truth *After a Fashion* investigates the different sides of this hybrid phenomenon Joanne Finkelstein considers fashion in its various

guises as body decoration and costume as a language and form of irrational play as an expression of sexuality and part of the urban experience Drawing on economics art psychology commerce history and the everyday she traces and analyses the multiple influences that in the name of fashion affect the ways we think and act **The Leader's Code** Ken
