## **Fashioning Authority The Development Of Elizabethan Novelistic Discourse:**

Fashioning Authority Constance Caroline Relihan, 1994 Various factors in late 16th century England contributed to an environment more hospitable to prose fiction than had existed previously among them changes in educational opportunities socioeconomic structures literacy rates and access to European literature Such cultural alterations inevitably produced changes in modes of literary production Furthermore access to the bookstall to a new class of readers altered the structures and subjects writers employed Within this tumultuous context the writers of fictional prose narrative negotiated for themselves and their audience a precarious definition of their identity within the Elizabethan literary world In *Fashioning Authority* Constance C Relihan examines the influence of Elizabethan prose fiction on early modern literary culture emphasizing the role of the nonaristocratic reader in the reception of literature the importance of the marketplace in the production and reception of prose texts and the growth of prose as the dominant mode of narrative presentation Combining cultural analysis with a concern for narrative structure Relihan explores six strategies by which the writers and readers of Elizabethan fiction struggled to achieve artistic authority incorporating poetry into prose texts using translated material separating authorial from narrative voice introducing a sense of place depicting females and representing non European cultures Relihan argues that Elizabethan fiction's unique position on the borders of literate and literary English culture that is its position as what M M Bakhtin calls novelistic discourse allows it to constitute a rich field for examining the ideological rifts of the period Taking her primary examples from Barnabe Riche's *Farewell to Militarie Profession* 1581 but also considering texts by a variety of authors such as Sidney Deloney Lyly Gascoigne Lodge Breton Greene Harmon Nashe and Painter Relihan demonstrates that regardless of their specific structural and thematic differences the various modes of Elizabethan fiction all share a common origin in the upheavals of English culture during the later half of the 16th century By examining novelistic discourse as a category *Fashioning Authority* strengthens our understanding of the nature and history of English fiction even as it broadens our sense of Elizabethan culture The result is an exploration of how Elizabethan novelistic discourse established the cultural place of its newly literate readers and its generically marginal authors creating literary comfort in narrative prose for those who failed to find it in verse

*Selected Essays on George Gascoigne* Gillian Austen, 2022-08-30 This collection of essays situates George Gascoigne in context as the pre eminent writer of the early part of Queen Elizabeth's reign His ceaseless experimentation was hugely influential on those later Elizabethans including Spenser Sidney and Shakespeare who represent the great flowering of the English literary renaissance Gascoigne rarely returned to a genre writing prose fiction blank verse plays sonnets narrative verse courtly entertainments satire and many other literary forms and the later Elizabethans were fully aware of his significance These essays are organised into three main sections influences upon Gascoigne such as Skelton Gascoigne's influence on others including Spenser and finally a reassessment of his critical neglect and the story behind his marginalised status in the English literary canon As only the

second multi authored essay collection on Gascoigne this book makes a valuable contribution to our understanding of this important and often misunderstood writer      **Knights in Arms** Goran Stanivukovic,2016-01-01 Knights in Arms moves beyond the best known examples of the genre such as Philip Sidney sArcadia to consider the broad range of texts which featured the Eastern Mediterranean in this era      **Remapping the Mediterranean World in Early Modern English Writings** G. Stanivukovic,2007-01-08 The essays in this volume explore the Mediterranean both as a physical and cultural space and as a conceptual notion that challenges the boundaries between East and West It emphasizes the Ottoman Mediterranean by exploring a variety of literary and non literary texts produced between the Sixteenth and Eighteenth centuries      Reading Popular Romance in Early Modern England Lori Humphrey Newcomb,2002 This volume examines the proliferation of popular romances their vilification by elite writers and the ultimate opposition of popular and literary fiction Using Robert Greene s Pandosto 1585 an Elizabethan prose romance that inspired Shakespeare s late play The Winter s Tale as a case study Newcomb demonstrates that versions of the two texts repeatedly converge resisting simple high low division Because Shakespeare s works are considered timeless literary achievements critics have distanced his plays from their romance sources a separation that until now has gone largely unquestioned Newcomb challenges this assumption providing a fascinating account of an early best seller s incarnations over 250 years of literary history      **Early Modern Prose Fiction** Naomi Conn Liebler,2006-12-05 Emphasizing the significance of early modern prose fiction as a hybrid genre that absorbed cultural ideological and historical strands of the age this fascinating study brings together an outstanding cast of critics including Sheila T Cavanaugh Stephen Guy Bray Mary Ellen Lamb Joan Pong Linton Steve Mentz Constance C Relihan Goran V Stanivukovic with an afterword from Arthur Kinney Each of the essays in this collection considers the reciprocal relation of early modern prose fiction to class distinctions examining factors such as the impact of prose fiction on the social political and economic fabric of early modern England the way in which a growing emphasis on literacy allowed for increased class mobility and newly flexible notions of class how the popularity of reading and the subsequent demand for books led to the production and marketing of books as an industry complications for critics of prose fiction as it began to be considered an inferior and trivial art form Early modern prose fiction had a huge impact on the social and economic fabric of the time creating a new culture of reading and writing for pleasure which became accessible to those previously excluded from such activities resulting in a significant challenge to existing class structures      **A Companion to English Renaissance Literature and Culture** Michael Hattaway,2008-04-15 This is a one volume up to date collection of more than fifty wide ranging essays which will inspire and guide students of the Renaissance and provide course leaders with a substantial and helpful frame of reference Provides new perspectives on established texts Orientates the new student while providing advanced students with current and new directions Pioneered by leading scholars Occupies a unique niche in Renaissance studies Illustrated with 12 single page black and white prints      The History of British Women's Writing, 1610-1690 M.

Unperfect Histories Harriet Archer,2017-10-13 The Mirror for Magistrates the collection of de casibus complaint poems in the voices of medieval rulers and rebels compiled by William Baldwin in the 1550s was central to the development of imaginative literature in the sixteenth and early seventeenth centuries Additions by John Higgins Thomas Blenerhasset and Richard Niccols between 1574 and 1610 extended the Mirror s scope shifted its focus and prolonged its popularity in particular the texts later manifestations profoundly influenced the work of Spenser and Shakespeare Unperfect Histories is the first monograph to consider the text s early modern transmission history as a whole In chapters on Baldwin Higgins Blenerhasset and Niccols s complaint collections it demonstrates that the Mirror is an invaluable witness to how verse history was conceptualized written and read across the period and explores the ways in which it was repeatedly reinterpreted and redeployed in response to changing contemporary concerns The Mirror corpus encompasses topical allegory nationalist polemic and historiographical skepticism as well as the macabre humour and metatextual play which have come to be known as hallmarks of Baldwin s mid Tudor writings What has not been recognised is the complex interaction of these themes and techniques right across the Mirror s history Higgins Blenerhasset and Niccols s contributions are analysed for the first time here both within their own literary and historiographical contexts and in dialogue with Baldwin s early editions This new reading offers a lively account of the texts depth and variety and provides insight into the extent of the Mirror s influence and ubiquity in early modern literary culture The Reformation of Romance Christina

Wald,2014-08-27 This study takes a fresh look at the abundant scenarios of disguise in early modern prose fiction and suggests reading them in the light of the contemporary religio political developments More specifically it argues that Elizabethan narratives adopt aspects of the heated Eucharist debate during the Reformation including officially renounced notions like transubstantiation to negotiate culturally pressing concerns regarding identity change Drawing on the rich field of research on the adaptation of pre Reformation concerns in Anglican England the book traces a cross fertilisation between the Reformation and the literary mode of romance The study brings together topics which are currently being strongly debated in early modern studies the turn to religion a renewed interest in aesthetics and a growing engagement with prose fiction Narratives which are discussed in detail are William Baldwin s Beware the Cat Robert Greene s Pandosto and Menaphon Philip Sidney s Old and New Arcadia and Thomas Lodge s Rosalynd and A Margarite of America George Gascoigne s Steele Glas John Lyly s Euphues An Anatomy of Wit and Euphues and his England Barnabe Riche s Farewell Greene s A Quip for an Upstart Courtier and Thomas Nashe s The Unfortunate Traveller **Autobiography and**

**Romance for Sale in Early Modern England** Steve Mentz,2017-09-29 The major claim made by this study is that early modern English prose fiction self consciously invented a new form of literary culture in which professional writers created books to be printed and sold to anonymous readers It further claims that this period s narrative innovations emerged not solely from changes in early modern culture like print and the book market but also from the rediscovery of a forgotten late classical text from North Africa Heliodorus s Aethiopian History In making these claims Steve Mentz provides a comprehensive historicist and formalist account of prose romance the most important genre of Elizabethan fiction He explores how authors and publishers of prose fiction in late sixteenth century England produced books that combined traditional narrative forms with a dynamic new understanding of the relationship between text and audience Though prose fiction would not dominate English literary culture until the eighteenth century Mentz demonstrates that the form began to invent itself as a distinct literary kind in England nearly two centuries earlier Examining the divergent but interlocking careers of Robert Greene Sir Philip Sidney Thomas Lodge and Thomas Nashe Mentz traces how through differing commitments to print culture and their respective engagements with Heliodoran romance these authors helped make the genre of prose fiction culturally and economically viable in England Mentz explores how the advent of print and the book market changed literary discourse influencing new conceptions of what he calls middlebrow narrative and new habits of reading and writing This study draws together three important strains of current scholarly inquiry the history of the book and print culture the study of popular fiction and the re examination of genre and influence It also connects early modern fiction with longer histories of prose fiction and the rise of the modern novel
