Fast Forward Maths Pupils:

Motivating Mathematics: Engaging Teachers And Engaged Students David Graham Wells, 2015-10-15 Motivating Mathematics demonstrates that pupils can be motivated by being given the Big Picture including a clearer picture of the nature of maths and by linking topics to the sciences rather than teaching each topic in isolation The author emphasises the many virtues of problem solving strongly emphasised in secondary education specifications especially the role of perception and the ability of pupils to create their own proofs and to appreciate cool ideas and arguments David Wells draws on his extensive experience of teaching primary and secondary pupils and his understanding not just of how students think about mathematics but of how they feel about a subject which so often seems merely a collection of facts and rules to be mastered This book will be of immediate practical use to teachers and students at all levels Anyone involved in mathematics education will benefit from reading this inspiring book whether classroom teacher trainer teacher in training or professional development or even parent The book will also be of interest to policy makers and others with an investment in the future of mathematics education

Transform Your Math Class Using Asset-Based Teaching for Grades 6-12 Michael D. Steele, Joleigh Honey, 2024-07-19 Foster a love of mathematics by creating a more inclusive and empowering learning environment through asset based teaching An asset based perspective on math education means starting with what students already know instead of focusing on what's missing This approach elevates student thinking and reasoning skills In this way educators acknowledge that all students bring prior experiences strengths talents and resources to the learning process and can contribute meaningfully in an authentic learning environment Transform Your Math Class Using Asset Based Teaching for Grades 6 12 provides insight into asset based perspectives in mathematics education to create an environment where all students feel valued and capable of being doers of mathematics In the book Michael Steele and Joleigh Honey highlight the importance of using language instructional routines and systemic structure that positively impact student engagement their math identity and ultimately their outcomes Providing a wealth of knowledge and practical strategies that can be used to transform math classrooms into inclusive supportive and empowering learning environments this book Introduces an asset based perspective that focuses on students strengths assets and potential to learn mathematics Includes a variety of frameworks and tools that teachers can use to build and grow their sense of asset based perspectives Offers strategies for promoting a growth mindset in mathematics encouraging productive struggle in math and promoting equitable math instruction Supports teachers in reflecting on their decisions self awareness and self management Includes a companion online study guide to support teachers individually or as part of a professional learning community Adopting asset based perspectives is about movement over time not about flipping a switch This book paves the path for an asset based journey that ultimately helps to transform our math classrooms and advance all students learning and development

GCSE Maths for Neurodivergent Learners Judy Hornigold, Rose Jewell, 2022-08-18 We all have to take GCSE maths but that doesn't

mean we all find it easy If you have been struggling with maths and find working with numbers particularly tough this is the go to GCSE maths study guide to help you ace your exams This is the first GCSE maths study guide covering number proportion and algebra that uses engaging multisensory methods of learning for students with specific learning differences It offers unique insight into why you may find maths extra challenging and gives practical advice on how you can adapt your studying processes to suit the way that you learn best With a range of study strategies and fun activities the guide covers topics from fractions multiplication and division to algebra quadratics and percentages With everything tailored to suit young people who think and learn differently this GCSE maths study guide has all you need to improve your maths skills and maybe even learn to love maths

Fast Forward Maths Hilary Koll, Steve Mills, 2000 Fast Forward Maths is an intensive programme of activities specifically designed to boost the numeracy skills of level 3 attainers up to level 4 targeting areas of common weakness The emphasis is on having fun while learning and the short activity strands which run through each unit involve purposeful games and challenges
