HOBBS AND THE PARADOXES OF POLITICAL ORIGINS

Hobbes And The Paradoxes Of Political Origins

R. Prokhovnik

Hobbes And The Paradoxes Of Political Origins:

Hobbes and the Paradoxes of Political Origins M. Kramer, 1997-06-30 This book expounds an analytical method that focuses on paradoxes a method originally associated with deconstructive philosophy but bearing little resemblance to the interpretive techniques that have come to be designated as deconstruction in literary studies The book then applies its paradox focused method as it undertakes a sustained investigation of Thomas Hobbes's political philosophy Hobbes's theory of the advent and purpose of government turns out to reveal the impossibility of the very developments which it portrays as indispensable

Routledge Philosophy GuideBook to Hobbes and Leviathan Glen Newey, 2008-01-07 Hobbes is one of the most important figures in the history of ideas and political thought and his book *Leviathan* is widely recognized as one of the greatest works of political philosophy In this GuideBook Glen Newey offers a balanced guide to this key text that explores both its historical and philosophical aspects The author introduces the relevance of Hobbes's ideas to modern political thought the major interpretations of *Leviathan* Hobbes's life and the background of *Leviathan* The Routledge Philosophy GuideBook to Hobbes and *Leviathan* is the ideal introduction for students who wish to understand more about this important philosopher and this classic work of philosophy

The Routledge Guidebook to Hobbes' Leviathan Glen Newey, 2014-04-24 Hobbes is widely regarded as one of the most important figures in the history of ideas and political thought and his seminal text *Leviathan* is widely recognised as one of the greatest works of political philosophy ever written The Routledge Guidebook to Hobbes *Leviathan* introduces the major themes in Hobbes's great book and acts as a companion for reading this key work examining The context of Hobbes's work and the background to his writing Each separate part of the text in relation to its goals meanings and impact The reception the book received when first seen by the world The relevance of Hobbes's work to modern philosophy its legacy and influence With further reading included throughout this text follows Hobbes's original work closely making it essential reading for all students of philosophy and politics and all those wishing to get to grips with this classic work

Origin Stories in Political Thought Joanne Harriet Wright, 2004-01-01 Origin stories are a recurring motif in the history of political thought Presented as narratives that describe the beginnings of politics and power these stories are among the most provocative and politically contentious means by which Western society organizes and represents its experience Indeed as scripts of citizenship origin stories seek to manufacture consent to a preconceived and hierarchical political vision Joanne H Wright's *Origin Stories in Political Thought* examines Plato's *Timaeus* Hobbes's story of the state of nature and the social contract and early Second Wave feminist stories about the beginnings of patriarchal social relations Using a historically sensitive feminist methodology Wright documents and deconstructs the tradition of telling origin stories in the larger history of political thought Although individual tales have been assessed in current scholarship the motif of the origin story itself has until now escaped systematic analysis With meticulous research and convincing conclusions *Origin Stories in Political Thought* makes a groundbreaking and valuable contribution to both feminist and political studies

Hobbes and the Democratic Imaginary Christopher Holman, 2022-10-01 At a time when nearly all political actors and observers despite the nature of their normative commitments morally appeal to the language of democracy the particular signification of the term has become obscured Hobbes and the Democratic Imaginary argues that critical engagement with various elements of the work of Hobbes a notorious critic of democracy can deepen our understanding of the problems stakes and ethics of democratic life Firstly Hobbes s descriptive anatomy of democratic sovereignty reveals what is essential to the institution of this form of government in the face of the conceptual confusion that characterizes the contemporary deployment of democratic terminology Secondly Hobbes s critique of the mechanics of democracy points toward certain fundamental political risks that are internal to its mode of operation And thirdly contrary to Hobbes s own intentions Christopher Holman shows how the selective redeployment of certain Hobbesian categories could help construct a normative ground in which democracy is the ethical choice in relation to other sovereign forms **After the Globe, Before the World** RBJ Walker, 2010-04-05 A sustained critique of the primary traditions of both political theory and international relations theory this book provides an analysis of the relationship between claims about sovereignty and the spatiotemporal articulation of boundaries borders and limits *Race and Racism in Modern Philosophy* Andrew Valls, 2005 An innovative substantial intervention in critical race theory this book brings together an impressive roster of thinkers to trace the question of race in modern philosophical inquiry and explore its influence on contemporary philosophy **Subverting the Leviathan** James R. Martel, 2007 In *Leviathan* Thomas Hobbes s landmark work on political philosophy James Martel argues that although Hobbes pays lip service to the superior interpretive authority of the sovereign he consistently subverts this authority throughout the book by returning it to the reader Martel demonstrates that Hobbes s radical method of reading not only undermines his own authority in the text but by extension the authority of the sovereign as well To make his point Martel looks closely at Hobbes s understanding of religious and rhetorical representation In *Leviathan* idolatry is not just a matter of worshipping images but also a consequence of bad reading Hobbes speaks of the error of separated essences in which a sign takes precedence over the idea or object it represents and warns that when the sign is given such agency it becomes a disembodied fantasy leading to a kingdom of darkness To combat such idolatry Hobbes offers a method of reading in which one resists the rhetorical manipulation of figures and tropes and recognizes the codes and structures of language for what they are the only way to convey a fundamental inability to ever know the thing itself Making the leap to politics Martel suggests that following Hobbes s argument the sovereign can also be seen as idolatrous a separated essence a figure who supplants the people it purportedly represents and that learning to be better readers enables us to challenge if not defeat the authority of the sovereign The Government of the Peoples F. Cheneval, 2011-10-24 An exploration of the idea of government of peoples who freely accept liberal democracy and try to realize democracy in their common institutions the author proposes an integrated original position consisting in a hypothetical agreement of liberal democratic peoples and

potentially mobile citizens *Mysteries of State in the Renaissance* Colm Gillis, 2014-08-28 Government decisions shape our lives but how much do we know about the foundations of modern political thought Theorists in the Renaissance constructed the ideological world we inhabit They claimed to have mastered natural secrets whilst also promising perpetual flawless and scientifically demonstrable rule Selective applications of artistic themes religious symbols imperialistic concepts and spells cast by intellectual magic helped advance sovereign rule By mid 17th century these speculations were spinning an elaborate web of control If we wish to understand myths of our current age the intellectual mystique enshrouding origins of the modern State must first be revealed **Behemoth Teaches Leviathan** Geoffrey M. Vaughan, 2007-03-01 Did Hobbes's political philosophy have practical intentions There exists no Hobbist school of thought no new political order was inspired by Hobbesian precepts Yet in *Behemoth Teaches Leviathan* Geoffrey M Vaughan revisits *Behemoth* to reveal hitherto unexplored pedagogic purpose to Hobbes's political philosophy The work demonstrates Hobbes's firm commitment to government and his attempts to create a system of political education to underpin his commitment to sovereignty Vaughan explores Hobbes's political education in detail and in an epilogue considers the resurgence of political education in contemporary liberal theory He discovers that contemporary political education has far more in common with Hobbes's system than it does with early liberalism *The Philosophical Foundations of Environmental Law* Sean Coyle, Karen Morrow, 2004-04 Legal regulation of the environment is often construed as a collection of legislated responses to the problems of modern living Treated as such environmental law refers not to a body of distinctive juristic ideas such as one might find in contract law or tort but to a body of black letter rules out of which a distinct jurisprudence might grow This book challenges the accepted view by arguing that environmental law must be seen not as a mere instrument of social policy but as a historical product of surprising antiquity and considerable sophistication Environmental law it is argued is underpinned by a series of tenets concerning the relationship of human beings to the natural world through the acquisition and use of property By tracing these ideas to their roots in the political philosophy of the seventeenth century and their reception into the early law of nuisance this book seeks to overturn the perception that environmental law's philosophical significance is confined to questions about the extent to which a state should pursue collective well being and public health through deliberate manipulation and restriction of private property rights Through a close re-examination of both early and modern statutes and cases this book concludes that far from being intelligible in exclusively instrumental terms environmental law must be understood as the product of sustained reflection upon fundamental moral questions concerning the relationship between property rights and nature *The Enlightenment* Paul Hyland, Olga Gomez, Francesca Greensides, 2003 This outstanding sourcebook brings together the work of major Enlightenment thinkers to illustrate the full importance and achievements of this great period of change **Spinoza and Republicanism** R. Prokhovnik, 2004-03-31 Dutch republicanism represents a crucially important context within which to discuss Spinoza's political theory and his

conception of politics Spinoza and Republicanism provides an important account of his key political concepts as well as a fresh and stimulating perspective on the links between Spinoza's two political works and contemporaneous debate and traditions By identifying the distinctiveness of Dutch republicanism and Spinoza's contribution to it Raia Prokhovnik also throws new light on recent discussions of republicanism and its history

Space and Self in Early Modern European Cultures David Warren Sabean, Malina Stefanovska, 2012-01-01 The notion of selfhood conjures up images of self sufficiency integrity introspectiveness and autonomy characteristics typically associated with modernity The seventeenth century marks the crucial transition to a new form of bourgeois selfhood although the concept goes back to the pre modern and early modern period A richly interdisciplinary collection Space and Self integrates perspectives from history history of literature and history of art to link the issue of selfhood to the new and vital literature on space As Space and Self shows there have at all times been multiple paths and alternative possibilities for forming identities marking personhood and experiencing life as a concrete singular individual Positioning self and space as specific and evolving constructs a diverse group of contributors explore how persons become embodied in particular places or inscribed in concrete space Space and Self thus sets the terms for current discussion of these topics and provides new approaches to studying their cultural specificity

Modern Jurisprudence Sean Coyle, 2022-06-16 This textbook presents a clear exploration of the historical developments and ideas that give modern thinking its distinctive shape It guides students through the rival standpoints on jurisprudence from the origins of Western jurisprudential thought and the classical tradition to the emergence of modern political thought Chapters on Hart Fuller Rawls Dworkin and Finnis lead the reader systematically through the terrain of modern legal philosophy tracing the issues back to fundamental questions of philosophy and indicating lines of criticism that result in a fresh and original perspective on the subject The third edition includes a new chapter on feminist legal scholarship and non Western approaches Praise for the previous editions An ideal starting place for anyone interested in or studying legal philosophy Its simple but ambitious aim to provide a concise and accessible guide is easily achieved Student Law Journal A decent choice for an introductory course on jurisprudence or for a serious student who wishes to study on his or her own Canadian Law Library

Literature Criticism from 1400 to 1800, 2008 **In the Realm of Legal and Moral Philosophy** M. Kramer, 1998-12-06 In this wide ranging investigation of many prominent issues in contemporary legal political and moral philosophy Matthew Kramer combines penetrating critiques with original theorising as he examines the writings of numerous major theorists including Ronald Dworkin H L A Hart Alan Gewirth Ronald Coase and Richard Posner Among the many topics covered by Kramer's essays are the relative merits of legal positivism and natural law theory the appropriate understanding of justice the role of consequences in moral decision making and the ultimate foundations of moral judgements

Critique of Authenticity Thomas Claviez, Kornelia Imesch, Britta Sweers, 2020-01-10 The volume provides a critical assessment of the concept of authenticity and gauges its role significance and shortcomings in a variety of disciplinary contexts Many of the

contributions communicate with each other and thus acknowledge the enormous significance of this politically morally philosophically and economically charged concept that at the same time harbors dangerous implications and has been critically deconstructed The volume shows that the alleged need or desire for authenticity is alive and kicking but oftentimes comes at a high price connected to a culture of experts authority and exclusionary strategies

Rights, Wrongs and Responsibilities M. Kramer, 2001-10-10 In this wide ranging investigation of many prominent issues in contemporary legal and political philosophy eight distinguished philosophers and legal theorists including Matthew Kramer Hillel Steiner Antony Duff Sandra Marshall Wilfrid Waluchow and Nicholas Bamforth tackle issues such as the rights of animals and foetuses the relationship between law and politics the requirements of justice the demands of practical rationality the role of public policy considerations in legal reasoning the fundamental characteristics of legal and moral entitlements the appropriateness of compensation as a means of rectifying mishaps and misdeeds the extent of individuals responsibility for the consequences of their choices and the culpability of failed attempts to commit crimes Together the eight principal essays in Rights Wrongs and Responsibilities shed philosophical light on public law criminal law and most areas of private law as they explore the bearings of the three key concepts in the volume s title

The Enigmatic Realm of **Hobbes And The Paradoxes Of Political Origins**: Unleashing the Language is Inner Magic

Hobbes And The Paradoxes Of Political Origins Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Hobbes And The Paradoxes Of Political Origins PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals

fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Hobbes And The Paradoxes Of Political Origins PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Hobbes And The Paradoxes Of Political Origins free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Hobbes And The Paradoxes Of Political Origins Books

1. Where can I buy Hobbes And The Paradoxes Of Political Origins books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Hobbes And The Paradoxes Of Political Origins book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
