Places Janice M. Irvine,2022-07-25 Marginal People in Deviant Places revisits twentieth century ethnographic studies of deviance arguing that ethnographies that focus on marginal subcultures ranging from Los Angeles hoboes to men who have sex with other men in St Louis bathrooms to taxi dancers in Chicago to elderly Jews in Venice California produce new ways of thinking about social difference more broadly in the United States Irvine demonstrates how the social scientists who told the stories of these marginalized groups offered an early challenge to then dominant narratives of scientific racism and then offers a social history of certain American outsiders and a prehistory of the academic fields of ethnic studies and sexuality studies Through the stories Irvine recounts in this book she identifies an American paradox represented in a simultaneous desire for and rejection of outsiders and describes the rise of an outsider capitalism that integrates difference into American society by marketing it Place plays a crucial role in this work as Irvine examines its role in shaping ethnographies about outsiders and therefore understandings of social difference Irvine has visited the sites of each of the ethnographies about which she writes collecting photos videos and archival materials that will help readers understand the importance of place in the generation of particular ethnographic stories The open access online edition of this book is richly illustrated to help convey the deep sense of emplacement of the ethnographies discussed in this book and includes a series of interviews with sociologists about how they conduct their work and understand their forebears **Drift** Jeff Ferrell,2018-03-16 This book

was written late in the North American night with the rumbling thuds and booming train horns of the nearby rail yard echoing through my windows reminding me of the train hoppers and gutter punks out there rolling through the darkness In Drift Jeff Ferrell shows how dislocation and disorientation can become phenomena in their own right Examining the history of drifting Ferrell situates the contemporary global phenomenon of drift within today s economic social and cultural dynamics He also highlights a distinctly North American form of drift that of the train hopping hobo by tracing the hobo s political history and by sharing his own immersion in the world of contemporary train hoppers Along the way Ferrell sheds light on the ephemeral intensity of drifting communities and explores the contested politics of drift the legal and political strategies designed to control drifters in the interest of economic development the irony by which these strategies spawn further social and spatial exclusion and the ways in which drifters and those who embrace drift create their own slippery strategies of

resistance With an eye toward the truth Ferrell keenly argues that the lessons of drift can provide us with new models for knowing and engaging with the world around us *The Homeless Transient in the Great Depression* Joan M.

Crouse,1986-11-21 Years before the Dust Bowl exodus raised America s conscience to the plight of its migratory citizenry an estimated one to two million homeless unemployed Americans were traversing the country searching for permanent community Often mistaken for bums tramps hoboes or migratory laborers these transients were a new breed of educated highly employable men and women uprooted from their middle and working class homes by an unprecedented economic crisis *The Homeless Transient in the Great Depression* investigates this population and the problems they faced in an America caught between a poor law past and a social welfare future The story of the transient is told from the perspective of the federal state and local governments and from the viewpoint of the social worker the community and the transient In narrowing the focus of the study from the national to the state level Joan Crouse offers a close and sensitive examination of each The choice of New York as a focal point provides an important balance to previous literature on migrancy by shifting attention from the Southwest to the Northeast and from a preoccupation with rejection on the federal level to the concerted effort of the state to deal with the non resident poor in a humane yet fiscally responsible manner **Representing**

Homelessness Owen Clayton,2021-11-04 *Representing Homelessness* analyses the representation and self representation of homelessness The volume features research from the Arts Humanities Sciences and the Social Sciences as well as writings by people with lived experience of homelessness
