Hogarth to Cruikshank, 1968 **The Satirical Gaze** Cindy McCreery, 2004 This is the first scholarly study to focus on satirical prints of women in the late eighteenth century This was the golden age of graphic satire thousands of prints were published and they were viewed by nearly all sections of the population These prints both reflected and sought to shape contemporary debate about the role of women in society Cindy McCreery's study examines the beliefs and prejudices of Georgian England which they revealed **Hogarth to Cruikshank** Mary Dorothy George, 1967 [Hogarth to Cruikshank](#) Dorothy M. George, 1967 *The Rise and Fall of Radical Westminster, 1780-1890* M. Baer, 2012-07-25 The Rise and Fall of Radical Westminster 1780 1890 explores a critical chapter in the story of Britain's transition to democracy Utilising the remarkably rich documentation generated by Westminster elections Baer reveals how the most radical political space in the age of oligarchy became the most conservative and tranquil in an age of democracy **The Business of Satirical Prints in Late-Georgian England** James Baker, 2017-04-06 This book explores English single sheet satirical prints published from 1780 1820 the people who made those prints and the businesses that sold them It examines how these objects were made how they were sold and how both the complexity of the production process and the necessity to sell shaped and constrained the satiric content these objects contained It argues that production sale and environment are crucial to understanding late Georgian satirical prints A majority of these prints were after all published in London and were therefore woven into the commercial culture of the Great Wen Because of this city and its culture the activities of the many individuals involved in transforming a single satirical design into a saleable and commercially viable object were underpinned by a nexus of making selling and consumption Neglecting any one part of this nexus does a disservice both to the late Georgian satirical print these most beloved objects of British art and to the story of their late Georgian apotheosis a story that James Baker develops not through the designs these objects contained but rather through those objects and the designs they contained in the making

Eighteenth-Century Satire Paddy Bullard,2019-07-30 Eighteenth century Britain thought of itself as a polite sentimental enlightened place but often its literature belied this self image This was an age of satire and the century s novels poems plays and prints resound with mockery and laughter with cruelty and wit The street level invective of Grub Street pamphleteers is full of satire and the same accents of raillery echo through the high scepticism of the period s philosophers and poets many of whom were part time pamphleteers themselves The novel a genre that emerged during the eighteenth century was from the beginning shot through with satirical colours borrowed from popular romances and scandal sheets This Handbook is a guide to the different kinds of satire written in English during the long eighteenth century It focuses on texts that appeared between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789 Outlier chapters extend the story back to the first decade of the seventeenth century and forward to the second decade of the nineteenth The scope of the volume is not confined by genre however So prevalent was the satirical mode in writing of the age that this book serves as a broad and characteristic survey of its literature The Oxford Handbook of Eighteenth Century Satire reflects developments in historical criticism of eighteenth century writing over the last two decades and provides a forum in which the widening diversity of literary intellectual and socio historical approaches to the period s texts can come together *The Efflorescence of Caricature, 1759-1838* Todd Porterfield,2017-07-05 Searing disputes over caricature have recently sparked flames across the world the culmination not the beginning of the story of one of modernity s definitive artistic practices Modern visual satire erupts during a period marked by reform and revolution by cohering nationalisms and expanding empires and by the emerging discipline of art history This has long been recognized as its Golden Age It is time to look anew In *The Efflorescence of Caricature 1759 1838* an international interdisciplinary and intergenerational team of scholars reconfigures the geography of modern visual satire as the expansive narrative reaches from North America to Europe to China and the Ottoman Empire Caricature s specific visual cultures are also laid bare its iconographic means and material support as well as the diverse milieu of its making the military the art academy diplomacy politics art criticism and popular

Walking the Victorian Streets

Deborah Epstein Nord, 2018-09-05 Literary traditions of urban description in the nineteenth century revolve around the

figure of the stroller a man who navigates and observes the city streets with impunity Whether the stroller appears as fictional character literary persona or the nameless omnipresent narrator of panoramic fiction he casts the woman of the streets in a distinctive role She functions at times as a double for the walker's marginal and alienated self and at others as connector and contaminant carrier of the literal and symbolic diseases of modern urban life In *Walking the Victorian Streets* Deborah Epstein Nord explores the way in which the female figure is used as a marker for social suffering poverty and contagion in texts by De Quincey Lamb Pierce Egan and Dickens What then of the female walker and urban chronicler While the male spectator enjoyed the ability to see without being seen the female stroller struggled to transcend her role as urban spectacle and her association with sexual transgression In novels nonfiction and poetry by Elizabeth Gaskell¹ Flora Tristan Margaret Harkness Amy Levy Maud Pember Reeves Beatrice Webb Helen Bosanquet and others Nord locates the tensions felt by the female spectator conscious of herself as both observer and observed Finally *Walking the Victorian Streets* considers the legacy of urban rambling and the uses of incognito in twentieth century texts by George Orwell and Virginia Woolf

Men's Work L. Zionkowski, 2001-02-02 This book examines how the concept of the poet as a male professional emerged during the Restoration and eighteenth century Analyzing works by writers from Rochester to Johnson Linda Zionkowski argues that the opportunities for publication created by the growth of a commercial market in texts profoundly challenged aristocratic conceptions of authorship and altered the status of professional poets on the hierarchies of class and gender The book proposes that during this period discourse about the poet's social role both revealed and produced a crucial shift in configurations of masculinity the belief that commodifying their mental labor undermined writers cultural authority gave way to a celebration of the market's function as the proving ground for both literary merit and bourgeois manhood

Reading Iconotexts Peter Wagner, 1995 Traditionally texts and images have been discussed together on the assumption that they are sister arts but in *Reading Iconotexts* Peter Wagner pushes beyond the world image opposition in a radical attempt to break down the barriers between literature and art He sets out here the new approach he has identified for dealing with the iconotext a genre in which neither image nor text is free from the other Examples include Swift's *Gulliver's Travels* a number of William Hogarth's best known engravings and a sample of the so called obscene propaganda prints that were published during the French Revolution Throughout the author argues for the importance of seeing text and image as mutually interdependent in the ways they establish meaning It becomes clear in the course of Wagner's exposition that one cannot study prints without taking into account their accompanying inscriptions whilst illustrated books contain two kinds of text one verbal one visual that are invariably at odds with one another Drawing on theories of intertextuality and semiotics as developed by Barthes and Kristeva as well as post structuralist studies by Derrida Foucault and others *Reading Iconotexts* treats pictures as encoded visual discourse and illustrations in books as counter discourse The author's persuasively argued polemic in favour of recognising the iconotext as a viable advance in methodology is an important contribution to current
