Hold The Enlightenment:

Hold the Enlightenment Tim Cahill, 2011-09-07 In *Hold the Enlightenment* America's favorite and funniest adventure writer returns with his most entertaining collection of essays yet as he travels the globe and faces down challenges that are animal topographical and human *Hold the Enlightenment* takes Tim Cahill to sites as far flung as Saharan salt mines the Congolese jungle and Hanford Washington home of the largest toxic waste dump in the Western hemisphere With his trademark wit and insight Cahill describes stalking the legendary Caspian tiger in the mountains bordering Iraq slogging through a pitch black Australian eucalyptus forest to find the nocturnal platypus diving with great white sharks in South Africa staving off enlightenment at a yoga retreat in Jamaica and much much more In these essays vivid and masterly storytelling combine with outrageously sly humor and jolts of real emotion to show one of the most popular journalists of our time at the absolute peak of his game *Enlightenment's Wake* John Gray, 2007-07-03 John Gray argues that all the intellectual traditions of modernity are applications of the Enlightenment project which has proved to be self undermining This effect was due to the project's extension of rational self criticism and demystification to its own foundational commitments which ultimately dissolved them From this position Gray argues that both the desire of fundamentalist liberalism to salvage the Enlightenment and the traditionalist or reactionary desire to reverse it are doomed to failure The central problem of contemporary political thought and practice the author contends is that of securing peaceful co existence for incommensurable world views in an intellectual and cultural context that is at once post rational and post traditional While it is crucial to resist the re enchantment of the world by new forms of fundamentalism neither the Left nor the Right in any of their traditional forms are able according to Gray to offer a viable alternative **Eschatological Discipleship** Trevin Wax, 2018-04-01 Discipleship is eschatological in nature because the church that makes and receives disciples is eschatological in nature Often eschatology is thought to refer only to last things doctrines However eschatology in its broader sense encompasses the Christian view of time and the future of the world informing both one's evangelism and ecclesiology Failing to relate the eschatological dimension to discipleship leaves one with an incomplete worldview imbalanced discipleship and eventually a tragic inability to model the Christian way of life By answering questions like What time is it and Where is history going Trevin Wax helps Christians view the past present and future biblically and shapes their understanding of following Jesus *The Enlightenment's Most Dangerous Woman* Andrew Janiak, 2024 *The Enlightenment's Most Dangerous Woman* milie du Ch telet and *The Making of Modern Philosophy* introduces the work and legacy of philosopher milie Du Ch telet As the Enlightenment gained momentum throughout Europe Ch telet broke through the many barriers facing women at the time and published a major philosophical treatise in French Due to her proclamation that a true philosopher must remain an independent thinker rather than a disciple of some supposedly great man like Isaac Newton or Ren Descartes Ch telet posed a threat to an emerging consensus in the Enlightenment *The Enlightenment's Most Dangerous*

On Desire William B. Irvine, 2005-11-01 A married person falls deeply in love with someone else A man of average income feels he cannot be truly happy unless he owns an expensive luxury car A dieter has an irresistible craving for ice cream Desires often come to us unbidden and unwanted and they can have a dramatic impact sometimes changing the course of our lives In On Desire William B Irvine takes us on a wide ranging tour of our impulses wants and needs showing us where these feelings come from and how we can try to rein them in Spicing his account with engaging observations by writers like Seneca Tolstoy and Freud Irvine considers the teachings of Buddhists Hindus the Amish Shakers and Catholic saints as well as those of ancient Greek and Roman and modern European philosophers Irvine also looks at what modern science can tell us about desire such as what happens in the brain when we desire something and how animals evolved particular desires and he advances a new theory about how desire itself evolved Irvine also suggests that at the same time that we gained the ability to desire we were programmed to find some things more desirable than others Irvine concludes that the best way to attain lasting happiness is not to change the world around us or our place in it but to change ourselves If we can convince ourselves to want what we already have we can dramatically enhance our happiness Brimming with wisdom and practical advice On Desire offers a thoughtful approach to controlling unwanted passions and attaining a more meaningful life

The Goose Is Out Osho, 2012-04-10 There is a famous Zen story about a disciple Riko who once asked his master Nansen to explain to him the old Zen koan of the goose in the bottle Namely if a man puts a gosling into a bottle and feeds the gosling through the bottle s neck until it grows and becomes a goose and then there is simply no more room inside the bottle how can the man get it out without killing the goose or breaking the bottle In response Nansen shouts RIKO and gives a great clap with his hands Startled Riko replies Yes master And Nansen says See The goose is out In this Zen flavored series of responses to questions the contemporary mystic Osho cuts through the mad complexity of the contemporary human mind and its self created problems with humor compassion and even an occasional shout and clap of his hands The goose in the questioner s bottle may be a philosophical problem or an existential dilemma a relationship drama or an emotional crisis in each case Osho s unique and transformational response sets the goose free allowing us to rediscover the simple and innocent clarity each of us brings with us when we

On Desire William Braxton Irvine, 2006 Irvine looks at what modern science can tell about desire what happens in the brain when one desires something and how animals evolved particular desires He suggests that people who can convince themselves to want what they already have dramatically enhance their happiness

A Life Lived and Laid Down for Friends Don Erickson, 2019-08-06 A Life Lived and Laid Down for Friends reflects on the iconoclastic life and ministry of Jesus of Nazareth From the riches in the rags story of the nativity to his compassion moved sacrifice to save his disciples this book reflects on Jesus as first and foremost a spiritual teacher who embodied compassion Pastor and author Don Erickson shows how the humility embodied by society's most vulnerable was for Jesus the benchmark for inclusion in God's kingdom The book also looks at Jesus' approach to religious pluralism a reality he experienced in ancient Palestine under Roman rule It was an approach that evidenced Jesus pointing to expressions of compassion rather than to mere faith In addition the book examines the story of Jesus' crucifixion and resurrection offering a view that both asserts the centrality of the passion and bases it in historical context that avoids universalizing the story away The crucifixion itself is shown to be a portrait of embodied representative compassion that is salvific in its reach Inspired by the powerful teachings of liberation theology as well as a Buddhist influenced approach to the Gospels A Life Lived and Laid Down for Friends gives a fresh poignant portrait of Jesus that defies Trump America's resistance to Jesus' radically compassionate life and teaching

Conservatism Yoram Hazony, 2022-05-17 The idea that American conservatism is identical to classical liberalism widely held since the 1960s is seriously mistaken The award winning political theorist Yoram Hazony argues that the best hope for Western democracy is a return to the empiricist religious and nationalist traditions of America and Britain the conservative traditions that brought greatness to the English speaking nations and became the model for national freedom for the entire world Conservatism A Rediscovery explains how Anglo American conservatism became a distinctive alternative to divine right monarchy Puritan theocracy and liberal revolution After tracing the tradition from the Wars of the Roses to Burke and across the Atlantic to the American Federalists and Lincoln Hazony describes the rise and fall of Enlightenment liberalism after World War II and the present day debates between neoconservatives and national conservatives over how to respond to liberalism and the woke left Going where no political thinker has gone in decades Hazony provides a fresh theoretical foundation for conservatism Rejecting the liberalism of Hayek Strauss and the fusionists of the 1960s and drawing on decades of personal experience in the conservative movement he argues that a revival of authentic Anglo American conservatism is possible in the twenty first century
