Stern, David Fishman, Jacob Tilove, 2013-12-03 Paradise Planned is the definitive history of the development of the garden suburb a phenomenon that originated in England in the late eighteenth century was quickly adopted in the United States and northern Europe and

gradually proliferated throughout the world. These bucolic settings offered an ideal lifestyle typically outside the city but accessible by streetcar, train, and automobile. Today the principles of the garden city movement are once again in play as retrofitting the suburbs has become a central issue in planning. Strategies are emerging that reflect the goals of garden suburbs in creating metropolitan communities that embrace both the intensity of the city and the tranquility of nature.

Paradise Planned is the comprehensive encyclopedic record of this movement, a vital contribution to architectural and planning history and an essential recourse for guiding the repair of the American townscape.

Chronicles of Old Los Angeles James Roman, 2015-03-01. There's more to Los Angeles than lights, camera, action. From the city's early devilish days populated by missionaries, robber barons, oil wells, and orange groves, *Chronicles of Old Los Angeles* explains how the Wild West became the Left Coast. Learn how Alta California became the 31st state and how ethnic waves built Los Angeles from Native Americans to Spaniards, Latinos, and Asians, followed by gangsters, surfers, architects, and the Hollywood pioneers who brought fame to the City of the Angels. Then discover the city yourself with six guided walking/driving tours of LA's historic neighborhoods, profusely illustrated with color photographs and period maps.

The Story of Hollywood Gregory Paul Williams, 2005. Before the film industry arrived, Hollywood was filled with quaint bungalows, millionaires' estates, and churches dedicated to teetotalism. Movies shattered Hollywood's tranquillity and brought wealth, fame, and glamorous movie stars. The giants of the movie industry invented klieg lighted movie premieres and the Academy Awards in Hollywood. Go beyond the star-studded surface to the district's days of union busting, gangsters, and scandal, foreshadowing Hollywood's seedy decline. The book concludes with Hollywood's redevelopment that continues today. The book features the famous faces and places that made the town legendary, offering a unique perspective on celebrity nightlife and the behind-the-scenes stories of day-to-day life. Lavishly illustrated with over 800 vintage images from the author's private collection, *The Story of Hollywood* brings new insights to readers with a passion for Hollywood and its place in the history of film, radio, and television.

Inventing Paradise Paul Haddad, 2024-06-18. *Inventing Paradise: The Power Brokers Who Created the Dream of Los Angeles* traces the improbable rise of Los Angeles through the prism of six visionaries who had outsized influence on the city's growth: Phineas Banning, Harrison Gray Otis, Henry Huntington, Harry Chandler, William Mulholland, and Moses Sherman. In the late 1870s, Los Angeles was a violent, dusty 29 square mile pueblo with a few thousand souls, largely unchanged since its founding in 1781. By 1930, its size had swelled to within 96% of its current 468 square miles, housing a staggering 1.2 million people. In just 50 years, L.A. had joined the ranks of other world-class cities. In the tradition of Mike Davis's classic work *City of Quartz*, Paul Haddad's *Freewaytopia* and *10,000 Steps a Day in L.A.* debunks many myths about the City of Angels with a wildly entertaining narrative that sheds new light on the fascinating birth of modern Los Angeles. Power came from a select few whose triumphs, scandals, and correspondence are well documented in *Inventing Paradise*, along with other little-known facts about L.A. history, including how Los Angeles Times chief Harry Chandler pushed eugenics and endorsed white spots. Henry Huntington's and

Moses Sherman's trolley systems and the extortion type practices that led to their expansion When Los Angeles was so desperate for water it hired a miracle worker who promised rain How L A's power elite peddled the lie that the Owens River used to flow into Los Angeles and rightfully belonged to the city When Los Angeles annexed a city in which monkeys cast votes How Venice California was not the first Venice California William Mulholland's game changing construction of the Los Angeles Aqueduct which raised the city's population ceiling from 250 000 to 2.5 million Haddad also covers the heavy costs that came with creating paradise in such a short period of time including car dependency environmental problems and deep seated inequities between wealthy white Angelenos and people of color due to racist policies All have left an imprint on present day Los Angeles Los Angeles is known as a city that should not exist and yet it does Through Inventing Paradise Haddad shows readers that Los Angeles is not a paradise found but a paradise that was willed into existence owing to the collective vision of these six Gilded Era born tycoons
