Counterpoints Philippe Junod, 2017-09-15 Multimedia experiments are everywhere in contemporary art but the collaboration and conflict associated with multimedia is not a new phenomenon From opera to the symphonic poem to paintings inspired by music many attempts have been made to pair sounds with pictures and to combine the arts of time and space Counterpoints explores this artistic evolution from ancient times to the present day The book s main focus is music and its relationship with painting sculpture and architecture Philippe Junod draws on theoretical and practical examples to show how different art movements throughout history have embraced or rejected creative combinations He explains how the Renaissance neoclassicism and certain brands of modernism tried to claim the purity of each mode of expression while other movements such as romanticism symbolism and surrealism called for a fusion of the arts Counterpoints is a unique cultural history one that provides a critical understanding of a popular but previously unheralded art form

Nell Walden, Der Sturm, and the Collaborative Cultures of Modern Art Jessica Sjöholm Skrubbe, 2021-12-30 Based on hitherto overlooked archival material this book reveals Nell Walden s significant impact on the Sturm organisation through a feminist reading of supportive labour that highlights the centrality of collaborative work within the modern art world This book introduces Walden as an ardent collector of modern and indigenous art and critically contextualises her own art production in relation to expressionist concepts of art and to gendered ideas on abstraction and decoration Visual analyses highlight how she collaborated with professional and experimental women photographers during the Weimar era and how the circulation of these photographs served as a means to intervene in the public sphere of culture in interwar Germany Finally the book provides an analysis of Walden s continuing work for Der Sturm after her voluntary exile from Germany to Switzerland in 1933 and highlights the importance of women s supportive labour for the canonisation and

institutionalisation of modern art in museums and archives The book will be of interest to scholars working in art history visual studies and gender studies **Memory and the Gothic Aesthetic in Film** Joana Jacob Ramalho,2024-11-29 This open access book defines the cinematic Gothic as an aesthetics of memory and exile Guided by three intersecting concepts memory travelling and touch it suggests that the cross border movements of exiles migr s and professional travellers had a crucial impact on the emergence development and dissemination of the Gothic This approach expands the canon to overlooked films filmmakers and national traditions Drawing on film memory and gothic studies the book urges the reader to think across other disciplines including phenomenology neurology cognitive neuroscience and disability studies From hands to pianos accordions gloves amnesia and wounded bodies the volume proposes a reappraisal of the Gothic by redrawing its scope retracing its origins and refocusing attention on surfaces as sites of socio political meaning **Music and Modernism, c. 1849-1950** Charlotte de Mille,2011-01-18 Music and Modernism is a collection of essays which re evaluates the significant connections between the disciplines of music fine art and architecture in the period covering the emergence and flowering of modernism c 1849 1950 Combining established scholars in the field with those at the start of their careers this book presents an exceptional cross section of European and American modernism through a series of detailed case studies Avoiding a simplistic engagement with cross or inter disciplinarity the focus of attention centres on themes that became key to modernist artists and critics association perception representation subjectivity writing and language Accordingly this book re thinks modernism itself in the light of both the fine arts and music to advocate a multiplicity of modernisms from which it is necessary for scholars to construct their own narratives **Imperial Culture in Germany, 1871-1918** Matthew Jefferies,2020-10-01 It has often ben suggested that artists and writers in Germany s imperial era shunned social engagement preferring instead apolitical introspection However as Matthew Jefferies reveals whether one looks at the painters poets and architects who helped to create an official imperial identity after 1871 the cultural critics and reformers of the later 19th century or the new generation of cultural producers that emerged in the years around 1900 the social political and cultural were never far apart In this attractively illustrated book Jefferies provides a lively introduction to the principal movements in German high culture between 1871 and 1918 in the context of imperial society and politics He not only demonstrates that Germany s Imperial culture was every bit as fascinating as the much better known Weimar culture of the 1920s but argues that much of what came later has origins in the imperial period Filling a significant gap in the current historiography this study will appeal to all those with an interest in the rich and diverse culture of Imperial Germany

Marking Modern Movement Susan Funkenstein, 2020-10-26 Imagine yourself in Weimar Germany you are visually inundated with depictions of dance Perusing a women s magazine you find photograph after photograph of leggy revue starlets clad in sequins and feathers coquettishly smiling at you When you attend an art exhibition you encounter Otto Dix s six foot tall triptych Metropolis featuring Charleston dancers in the latest luxurious fashions or Emil Nolde s watercolors of Mary Wigman with their luminous blues and purples evoking her choreographies mystery and expressivity

Invited to the Bauhaus you participate in the Metallic Festival and witness the school's transformation into a humorous shiny technological total work of art you costume yourself by strapping a metal plate to your head admire your reflection in the tin balls hanging from the ceiling and dance the Bauhaus signature step in which you vigorously hop and stomp late into the night Yet behind the razzle dazzle of these depictions and experiences was one far more complex involving issues of gender and the body during a tumultuous period in history Germany's first democracy 1918-1933 Rather than mere titillation the images copiously illustrated and analyzed in *Marking Modern Movement* illuminate how visual artists and dancers befriended one another and collaborated together In many ways because of these bonds artists and dancers forged a new path in which images revealed artists' deep understanding of dance their dynamic engagement with popular culture and out of that a possibility of representing women dancers as cultural authorities to be respected Through six case studies *Marking Modern Movement* explores how and why these complex dynamics occurred in ways specific to their historical moment Extensively illustrated and with color plates *Marking Modern Movement* is a clearly written book accessible to general readers and undergraduates Coming at a time of a growing number of major art museums showcasing large scale exhibitions on images of dance the audience exists for a substantial general public interest in this topic Conversing across German studies art history dance studies gender studies and popular culture studies *Marking Modern Movement* is intended to engage readers coming from a wide range of perspectives and interests

Modernism and the Spirit of the City Iain Boyd Whyte, 2013-01-11 *Modernism and the Spirit of the City* offers a new reading of the architectural modernism that emerged and flourished in Europe in the first half of the twentieth century Rejecting the fashionable postmodernist arguments of the 1980s and 90s which damned modernist architecture as banal and monotonous this collection of essays by eminent scholars investigates the complex cultural social and religious imperatives that lay below the smooth white surfaces of new architecture

Shell Shock Cinema Anton Kaes, 2009-08-24 How war trauma haunted the films of Weimar Germany *Shell Shock Cinema* explores how the classical German cinema of the Weimar Republic was haunted by the horrors of World War I and the devastating effects of the nation's defeat In this exciting new book Anton Kaes argues that masterworks such as *The Cabinet of Dr Caligari* *Nosferatu* *The Nibelungen* and *Metropolis* even though they do not depict battle scenes or soldiers in combat engaged the war and registered its tragic aftermath These films reveal a wounded nation in post-traumatic shock reeling from a devastating defeat that it never officially acknowledged let alone accepted Kaes uses the term shell shock coined during World War I to describe soldiers suffering from nervous breakdowns as a metaphor for the psychological wounds that found expression in Weimar cinema Directors like Robert Wiene F W Murnau and Fritz Lang portrayed paranoia panic and fear of invasion in films peopled with serial killers mad scientists and troubled young men Combining original close textual analysis with extensive archival research Kaes shows how this post-traumatic cinema of shell shock transformed extreme psychological states into visual expression how it pushed the limits of cinematic representation with its fragmented story

lines distorted perspectives and stark lighting and how it helped create a modernist film language that anticipated film noir and remains incredibly influential today A compelling contribution to the cultural history of trauma Shell Shock Cinema exposes how German film gave expression to the loss and acute grief that lay behind Weimar's sleek facade

Visions of the City David Pinder, 2013-11-12 Visions of the City is a dramatic history of utopian urbanism in the twentieth century It explores radical demands for new spaces and ways of living and considers their effects on planning architecture and struggles to shape urban landscapes The author critically examines influential utopian approaches to urbanism in western Europe associated with such figures as Ebenezer Howard and Le Corbusier uncovering the political interests desires and anxieties that lay behind their ideal cities He also investigates avant garde perspectives from the time that challenged these conceptions of cities especially from within surrealism At the heart of this richly illustrated book is an encounter with the explosive ideas of the situationists Tracing the subversive practices of this avant garde group and its associates from their explorations of Paris during the 1950s to their alternative visions based on nomadic life and play David Pinder convincingly explains the significance of their revolutionary attempts to transform urban spaces and everyday life He addresses in particular Constant's New Babylon finding within his proposals a still powerful provocation to imagine cities otherwise The book not only recovers vital moments from past hopes and dreams of modern urbanism It also contests current claims about the end of utopia arguing that reconsidering earlier projects can play a critical role in developing utopian perspectives today Through the study of utopian visions it aims to rekindle elements of utopianism

itself A superb critical exploration of the underside of utopian thought over the last hundred years and its continuing relevance in the here and now for thinking about possible urban worlds The treatment of the Situationists and their milieu is a revelation David Harvey Distinguished Professor of Anthropology City University of New York Graduate School

Queering Buñuel Julian Daniel Gutierrez-Albill,2008-05-30 As the father of cinematic Surrealism extensive critical attention has been devoted to Luis Bunuel s cinema Much has been written about his first Surrealist films of the 1920s and 1930s and the French art movies of the 1960s and 1970s However here for the first time is a queer re reading of Bunuel s Spanish language films allowing us to view Bunuel s cinema through a lens of queer spectatorship Focusing on the films Bunuel produced in Mexico and Spain during the 1950s and 1960s Julian Daniel Gutierrez Albilla argues not that Bunuel s films have a homosexual subplot but that there are multiple forms of identity subjectivity and sexuality present in these films *Queering Bunuel* brings together the fields of film studies feminist and queer theory Hispanic studies psychoanalysis and art theory Gutierrez Albilla succeeds in reconceptualizing Bunuel s Mexican and Spanish films beyond geographical historical and disciplinary boundaries questioning not just how we see Bunuel but also how we see cinema
