Expressive English:

Expressive English James C. Fernald, 2015-06-16 Excerpt from *Expressive English* It is often held to be a sufficient description or definition of language to speak of it as a medium of communication among intelligent beings Language is that indeed and can never be less than that But that is its lowest office The hen calls her brood by a glad cluck to a fine bit of grain or warns them by a terrifying note of the sweep of a hawk But she has soon gone round the circle of ideas appropriate to her species and the medium of communication has no place in the realm beyond where for her and hers there is nothing to communicate In all human beings however except the most degraded there is a demand for communication of thought and feeling from one to another beyond what language as used by them can yet convey With all mental advance the reach and range and delicacy of thought and feeling evermore outstrip the capacity of words to utter them Language is under a constant impulsion to express ideas and emotions which are still beyond its power It is true that a decaying civilization may shrivel up as it were within a language until it has no use for many words and phrases which were full of meaning to men of a nobler day Such a language is in process of becoming a dead language as the Greek and Latin were becoming in Europe five centuries ago About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

George Crabb,1867 The Emergence of Standard English John H. Fisher,2014-07-11 Language scholars have traditionally agreed that the development of the English language was largely unplanned John H Fisher challenges this view demonstrating that the standardization of writing and pronunciation was and still is made under the control of political and intellectual forces In these essays Fisher chronicles his gradual realization that Standard English was not a popular evolution at all but was the direct result of political decisions made by the Lancastrian administrations of Henry IV and Henry V To achieve standardization and acceptance of the vernacular these kings turned to their Chancery scribes who were responsible for writing and copying legal and royal documents Chaucer a relative of the king began to be labeled by the government as a master of the language and it was Henry V who inspired the fifteenth century tradition of citing Chaucer as the maker of English An even more important link between language development and government practice is the fact that Chaucer himself composed in the English of the Chancery scribes Fisher discusses the development of Chancery practices royal involvement in promoting use of the vernacular Chaucer s use of English Caxton s use of Chancery Standard and the nineteenth century phenomenon of a standard or received pronunciation of English This engaging and clearly written work will change the way scholars understand the development of English and think about the intentional shaping of our language
