Science Meets the UFO Enigma Desmond Bragg, Paul Joslin, 2000 Thousands of well documented reports of strange and baffling events without known causes grouped under the amorphous heading UFOs are sufficient in the authors view to suggest that they merit serious scientific study It is their opinion that a scientific study seriously undertaken would reveal cause effect relationship for some possibly all of the phenomena that constitute the UFO enigma The accumulated evidence for the UFO enigma consists of reports from many parts of the world These reports contain at least nineteen categories of human experiences ranging from simple observations of strange lights to accounts of abductions by strange unknown beings Most reports are from ordinary persons unable to identify a natural cause for what they have observed or experienced Many of these are sufficiently well documented to form

the basis for scientific studies The core of the UFO enigma is found in the thousands of challenging reports from highly intelligent knowledgeable persons with sufficient scientific expertise and experience to enable them to make clear distinctions between events with and without known causes These latter reports form the basis of this book's assertion that the UFO enigma can and should be studied scientifically This book is the author's attempt to provide an overview of the UFO enigma as a scientific problem and to suggest sources of information and methods for attempting to solve it

UFO Stephen Gildust, 2025-06-10 As a ufologist I find the times we live in incredibly exciting Many recent events point to UFOs and their presence here on Earth Yes I am a firm believer in the existence of UFOs and I am entirely convinced that these phenomena are happening right now on Earth as well as having occurred far back in time There are simply too many stories sightings autopsies and other unexplained events throughout history to dismiss them However I had my own personal experience In the early 1970s during a field trip with my entire school class we witnessed a UFO up close A classic flying saucer slowly and safely hovered a few meters above the treetops We witnessed this phenomenon about 100 meters away in the open field watching for about 10-15 seconds The speed of the aircraft was probably similar to how quickly you or I would run the same 600 feet distance It was a spring morning with normal weather This experience ignited my interest in UFOs and after that I became fully convinced of the existence of this phenomenon That said I am also critical of various TV series books

and other media that sensationalize these topics Not everything thats labeled as an alien encounter or UFO sighting is what it seems There are often many possible explanations for these phenomena But what would happen globally if all governments went public and said that UFOs and aliens exist Mass hysteria would probably break out immediately and the stock markets and the economy would collapse with people taking to the streets armed with guns Or do you think it would play out differently I wish you good luck as you dive into this book and hope it gives you something to ponder Bonus material over 120 observations through history
