## **In The Shadow Of Swords How Islamic Terrorists Declared War On Australia:**

The Ideological War on Terror Anne Aldis, Graeme Herd, 2006-11-22 This edited book addresses the appropriateness of US and other counter terrorist CT strategies in Europe and Eurasia the Middle East the Asia Pacific region and in Latin America with a view to improving their effectiveness The book has three main objectives to re examine terrorists strategic goals and sources of legitimacy and the nature of their ideological support to analyze current US and regional CT strategies and assess their success in de legitimizing terrorists and undermining their support to provide a strategic synthesis and policy recommendations in light of the research findings This book will be of interest to students of political violence and terrorism security studies and international relations in general      Occupying the "Other" Robin Gerster, Christine de Matos, 2009-01-14 In late 1945 Australia eagerly put up its hand to join the American led military occupation of war devastated Japan the old enemy was still hated yet the Australian involvement was motivated by ideals of democratic reconstruction rather than retribution In the age of Iraq when Australia has again participated in a US occupation of a rogue non Western state humbled in war it is time to consider troubling questions surrounding the nation s engagement in contentious overseas occupations Can Western conceptions of democracy be imposed militarily on other societies To what extent has Australia s willingness to support the United States been an expression of independent policy making or meek acquiescence in the neocolonial imperatives of the global superpower How do occupations differ When does intervention become occupation To what extent are entrenched cultural attitudes to race and religion a factor in decisions to occupy and on how these occupations are perceived at home And how has the Australian media influenced public attitudes to these ventures This collection of essays by leading Australian academics and commentators places Australia s historical role as an occupier on the critical map Now as the country juggles complex national regional and international alliances and obligations this conversation is as compelling as it is belated      **Why Terrorists Quit** Julie Chernov Hwang, 2018-03-15 Why do hard line terrorists decide to leave their organizations and quit the world of terror and destruction This is the question for which Julie Chernov Hwang seeks answers in *Why Terrorists Quit* Over the course of six years Chernov Hwang conducted more than one hundred interviews with current and former leaders and followers of radical Islamist groups in Indonesia Using what she learned from these radicals she examines the reasons they rejected physical force and extremist ideology slowly moving away from or in some cases completely leaving groups such as Jemaah Islamiyah Mujahidin KOMPAK Ring Banten Laskar Jihad and Tanah Runtuh *Why Terrorists Quit* considers the impact of various public initiatives designed to encourage radicals to disengage and follows the lives of five radicals from the various groups seeking to establish trends ideas and reasons for why radicals might eschew violence or quit terrorism Chernov Hwang has with this book provided a clear picture of why Indonesians disengage from jihadist groups what the state can do to help them reintegrate into nonterrorist society and how what happens in Indonesia can be more widely applied beyond the archipelago      *Terrorism and Counter-terrorism*

in Saudi Arabia and Indonesia Sumanto Al Qurtuby, 2022-05-03 This book is a comparative study of terrorism and counterterrorism in Saudi Arabia and Indonesia It explores the history and contemporary developments of terrorism especially Islamist terrorism in these two Sunni Muslim majority countries In doing so it analyzes the strengths and weaknesses of governments policies strategies and models of counterterrorism including terrorist rehabilitation and reintegration programs In addition the book also documents the opinions of Saudis and Indonesians to find societal voices on effective ways of combating violent extremism and discusses Saudi Indonesian cooperation on counterterrorism defense and security issues The book suggests that although particular Islamic texts teachings and discourses might influence radical behaviors and practices of some Muslim individuals and groupings terrorism is beyond ideological religious and doctrinal issues Therefore multiple methods and strategies are needed to combat radicalism and create sustainable peace in society The work will be is beneficial for both academic and non academic communities particularly students of conflict violence peacebuilding and religious studies
