### **Living in the shadows of a rich and sick society** Dr. Lloyd G

Fennell,2010-10-19 Living in the Shadows of a Rich and Sick Society is a chilling reality depicting the rising level of violence among teens increased alcohol and drug abuse and the continuous exploitation of children which has become a widespread phenomena that has developed into a scandalous situation in our homes schools communities and that all too often ends up in many grave yards The spiral of youth problems and issues has created challenges for our schools the police the courts and our neighborhoods It is my belief that solutions to most of these problems are no longer a local matter Our government must establish a national new team philosophy and commitment to address the physical social economical psychological and technological problems of our youth in our changing world It is my belief that the social problems of teens youth violence and miss education will continue to become major issues for a very long time unless some immediate and drastic actions are implemented In spite of the advancement of technology and the achievements in education businesses government and faith institution there is no single source within our societies that is more important that is in danger than the foundation of family The day break of a new culture is at hand in which the youth culture must be taken very seriously It is time for a cultural make over Our civilize society can no longer wait for an early afternoon break In a rich republic like ours we can no longer side step our civic responsibilities of knowing that the foundation of the family is in danger The new day is now Tomorrow is not promised Our civilized society can no longer wait for an early afternoon Immediate action is need to address the black sheep attitude of this nation Our young people are restless They have been awakened to the misgivings of their adult counterparts Do as I say but not as I do There is a silent revolution taking place in our youth culture of internet forums to challenge our institutions may be for good or for evil actions However soon they will be no more silent in the outcome The youth population must be taken very serious concerning their aggressive disobedience to parents their uncaring attitudes towards their peers and civic disorder to institutions Government both state and local jurisdictions will need to reassert their methods in developing regional strategies and collective programs that at times will call for a national approach for an effective comprehensive solution to counteract the silent psychopathic nature that are taking hold of our society It is quite evident from my experience of working in schools the community and the correctional institutions that violent behavior by

youth is very serious and extreme and must be corrected immediately In times like these someone must be able to speak about the wrongs of government without fear and limitations The voice of the sick lame and the poor must be represented in all chambers of society As we look around to the greed and corruptions the crimes the abuse and violence we can see a decaying state of affairs crashing down with shattering forces ready to destroy the family and our learning institutions Needless to say most families are not equipped to keep pace with increasing technological changes that are taking place The level of advertisement and marketing techniques have cast a double shadow in which the haves are joining the haves and the have nots Living in the shadows of a rich and sick society is an attempt to look at the five major institutions of civilization with a spiritual vision of hope and institutional reconciliation A vision where the institutions of the family home schools places of worship commerce and government win dream new dreams for equitable action and just resources and services to reverse then ever ending spiral of unrest if we fail to addressing the needs of our future generation Today God is can

**Laboring in the Shadow of Empire** Celeste Vaughan Curington, 2024-09-13 Laboring in the Shadow of Empire Race Gender and Care Work in Portugal examines the everyday lives of an African descendant care service workforce that labors in an ostensibly anti racial Europe and against the backdrop of the Portuguese colonial empire While much of the literature on global care work has focused on Asian and Latine migrant care workers there is comparatively less research that explicitly

examines African care workers and their migration histories to Europe Sociologist Celeste Vaughan Curington focuses on Portugal a European setting with comparatively liberal policies around family settlement and naturalization for migrants In this setting rapid urbanization in the late twentieth century along with a national push to reconcile work and family has shaped the growth of paid home care and cleaning service industries Many researchers focus on informal work settings where immigrant rights are restricted and many workers are undocumented or without permanent residence status Curington instead examines workers who have accessed citizenship or permanent residence status and also explores African women s experiences laboring in care and service industries in the formal market revealing how deeply colonial and intersectional logics of a racialized and international division of reproductive labor in Portugal render these women hyper invisible and hyper visible as appropriate workers in Lisbon
