Department of State, 1940 **The Russian Revolution and Civil War 1917-1921** Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now

historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature. *The Russian Revolution and Civil War 1917-1921* offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921, starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921, and covers all the key events of the intervening years. As such, it identifies these crucial years as something more than simply the creation of a communist state.

*Journal of the American Asiatic Association*, 1908      **Publishing in Tsarist Russia** Yukiko Tatsumi, Taro

Tsurumi, 2020-02-20. According to Benedict Anderson, the rapid expansion of print media during the late 1700s popularised national history and standardised national languages, thus helping create nation states and national identities at the expense of the old empires. *Publishing in Tsarist Russia* challenges this theory and, by examining the history of Russian publishing through a transnational lens, reveals how the popular press played an important and complex Imperial role while providing a soft infrastructure which the subjects could access to change Imperial order. As this volume convincingly argues, this is because the Russian language at this time was a lingua franca, it crossed borders and boundaries, reaching speakers of varying nationalities. Russian publications then were able to effectively operate within the structure of Imperialism, but as a public space, they went beyond the control of the Tsar and ethnic Russians. This exciting international team of scholars provides a much-needed fresh take on the history of Russian publishing and contributes significantly to our understanding of print media, language, and empire from the 18th to 20th centuries. *Publishing in Tsarist Russia* is therefore a vital resource for scholars of Russian history, comparative nationalism, and publishing studies.      [Russia in Flames](#) Laura

Engelstein, 2017-09-01. October 1917 heralded as the culmination of the Russian Revolution remains a defining moment in world history. Even a hundred years after the events that led to the emergence of the world's first self-proclaimed socialist state, debate continues over whether, as historian E. H. Carr put it decades ago, these earth-shaking days were a landmark in the emancipation of mankind from past oppression or a crime and a disaster. Some things are clear: After the implosion of the three-hundred-year-old Romanov dynasty as a result of the First World War, Russia was in crisis; one interim government replaced another in the vacuum left by imperial collapse. In this monumental and sweeping new account, Laura Engelstein delves into the seven years of chaos surrounding 1917: the war, the revolutionary upheaval, and the civil strife it provoked. These were years of breakdown and brutal violence on all sides, punctuated by the decisive turning points of February and October. As Engelstein proves definitively, the struggle for power engaged not only civil society and party leaders but the broad masses of the population and every corner of the far-reaching empire, well beyond Moscow and Petrograd. Yet, in addition to the bloodshed, they unleashed the revolution and civil war, revealed democratic yearnings, even if ideas of what constituted democracy differed dramatically. Into that vacuum left by the Romanov collapse, rushed long-suppressed hopes and dreams about social justice and equality. But any possible experiment in self-rule was cut short by the October Revolution.

Under the banner of true democracy and against all odds the Bolshevik triumph resulted in the ruthless repression of all opposition The Bolsheviks managed to harness the social breakdown caused by the war and institutionalize violence as a method of state building creating a new society and a new form of power Russia in Flames offers a compelling narrative of heroic effort and brutal disappointment revealing that what happened during these seven years was both a landmark in the emancipation of Russia from past oppression and a world shattering disaster As regimes fall and rise as civil wars erupt as state violence targets civilian populations it is a story that remains profoundly and enduringly relevant *Global Biomass Burning* Joel S. Levine,1991 This comprehensive volume is the first to consider biomass burning as a global phenomenon and to assess its impact on the atmosphere on climate and on the biosphere itself *Cartographies of Tsardom* Valerie Ann Kivelson,2006 By studying 17th century maps Kivelson sheds light on Muscovite Russia the relationship of state and society the growth of an empire the rise of serfdom and the place of Orthodox Christianity in society OCLC [Soviet Russia](#) ,1920
