origins of the US Navy's 2007 Maritime Strategy the formation of the US government's Pivot to Asia strategy and the most  
recent revisions to this strategy that focus more specifically on China Besides examining the details of this strategy  
formulation the book explores the internal and external repercussions on the US Navy of the Pivot to Asia It discusses the Fat  
Leonard scandal which involved bribery and corruption in contracts for the maintenance of the US fleets in the region and  
considers the sharp decrease in training and readiness of the Pacific fleet to support the pivot which in turn led to serious  
maritime collisions It also assesses the impact of the pivot on other countries in the region engaging in the debate as to  
whether the pivot was necessary in order to convince the countries of the region that the United States had not lost its  
staying power or whether the pivot managed to make tensions in the Asia Pacific worse even while allowing the strategic  
situation in the Middle East and Europe to worsen as a result of neglect      *Army-Navy-Air Force Register and Defense*
