Marshall,2017-04-04 It's good to take stock from time to time but at forty or fifty something you can find that you're dissatisfied and bored The temptation is to take a wrecking ball to your life but that risks alienating your partner and your children without necessarily ending up any happier

Just gritting your teeth doesn't work either anyway you've already tried that. Fortunately there's another way to become fulfilled and lead the life that's right for you rather than what your parents, society or anybody else thinks. If you're fed up with life questioning whether you should stay married or thinking you might be better off with someone else, marital therapist Andrew G. Marshall has a radical idea to help you move from the first half to the second of your life without messing everything up. It's not a midlife crisis; it's an opportunity. He explains in part one: The three central questions you need to answer and why everybody else is distracting themselves and avoiding facing them. How to put what's happening now into the context of your whole life journey. How to avoid the tempting short cuts that cause more heartache in the long term. Why if you pass this midlife test everything is up from here. Why you're not in the wrong. If it's your partner who has turned grumpy, critical and blames you for everything, you will be feeling alone and full of despair. Don't worry in part two of this compassionate book Andrew G. Marshall explains: A whole new vocabulary for discussing the midlife crisis without putting your partner's back up. What's really going on in your partner's head. What causes depression and how to help. Five killer replies to the blocks that stop you talking properly about your marriage. Why you're not in the wrong. Together you will learn three new skills that will either change your marriage into the connected, fulfilling and loving relationship of which you've always dreamed or help you separate amicably and be great coparents together. **Homer Underby** Elgon

Williams, 2023-12-17. Why is the black van still following Will and Sandra? Something is wrong in Normal. The perfect summer of being eight years old continues in a way that even two precocious kids with vivid imaginations could never have envisioned. The day before the first game of the Little League season, Will's papaw reveals a family secret that not only explains the odd things that Will has been experiencing but also changes his immediate plans. While poking around in the abandoned old house down the street looking for a half-fairy, half-human named Homer Underby, Will and Sandra are surprised by an old lady who appears to live there. As they try to help her out, it becomes clear that she's troubled. But when they attempt to assist her, they uncover an unsolved mystery that happened twenty years before. As the amateur sleuths investigate strange men grab Sandra. While trying to get away, Will falls backward and through a hole in the floor, landing in what he believes is the basement. With a badly sprained ankle, Will limps toward what he hopes will be the way out of the darkness, only to learn he is no longer anywhere near Normal. Somehow Will has wound up in the distant future on a subtropical island off the coast of Antarctica where Brent, the last man on Earth, lives. While the most important thing for Will is getting back home to help Sandra escape from her captors, he must trust the reluctant hermit who knows a lot more about Sandra's abduction than Will is comfortable with. Homer Underby continues The Thuperman Trilogy as two budding superheroes must depend on each other to find answers.
