Italian Panel Paint Early Renaissance:

Italian Panel Painting of the Early Renaissance in the Collection of the Los Angeles Museum of Art Los Angeles County Museum of Art, Susan L. Caroselli, Joseph Fronek, 1994 Published in conjunction with a 1994-95 exhibition at the Los Angeles County Museum of Art Historical and technical introductions precede extensive discussion of two altarpieces of the early Renaissance and a catalogue of the Museum's collection Elegantly designed and produced with color and bandw reproductions 9x12 Annotation copyright by Book News Inc Portland OR *Italian Panel Painting of the Early Renaissance*, 1994* Painted Palaces: The Rise of Secular Art in Early Renaissance Italy, 2009 Even many Renaissance specialists believe that little secular painting survives before the late fifteenth century and its appearance becomes a further argument for the secularizing of art This book asks how history changes when a longer record of secular art is explored It is the first study in any language of the decoration of Italian palaces and homes between 1300 and the mid Quattrocento and it argues that early secular painting was crucial to the development of modern ideas of art Of the cycles discussed some have been studied and published but most are essentially unknown A first aim is to enrich our understanding of the early Renaissance by introducing a whole corpus of secular painting that has been too long overlooked Yet Painted palaces is not a study of iconography In examining the prehistory of painted rooms like Mantegna's Camera Picta the larger goal is to rethink the history of early Renaissance art **Art and the Augustinian Order in Early Renaissance Italy** Anne Dunlop, 2016-12-05 The rise of the mendicant orders in the later Middle Ages coincided with rapid and dramatic shifts in the visual arts The mendicants were prolific patrons relying on artworks to instruct and impress their diverse lay congregations Churches and chapels were built and new images and iconographies developed to propagate mendicant cults But how should the two phenomena be related How much were these orders actively responsible for artistic change and how much did they simply benefit from it To explore these questions Art and the Augustinian Order in Early Renaissance Italy looks at art in the formative period of the Augustinian Hermits an order with a particularly difficult relation to art As a first detailed study of visual culture in the Augustinian order this book will be a basic resource making available previously inaccessible material discussing both well known and more neglected artworks and engaging with fundamental methodological questions for pre modern art and church history from the creation of religious iconographies to the role of gender in art Italian Panel Painting of the Early Renaissance, 1996 **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture **Masterworks of European Painting in the California Palace of the Legion of Honor** Steven A.

Nash, Lynn Federle Orr, California Palace of the Legion of Honor, Marion C. Stewart, 1999 This beautiful volume presents colorplates and essays covering 100 masterpieces of European art from one of America's finest collections housed in the California Palace of the Legion of Honor *Early Italian art, from the thirteenth to the fifteenth century. To accompany a collection of five hundred reproductions (Series B, the University prints)* Harry Huntington Powers, Mary Montague Powers, Louise M. Powe, 1907

Nuns and Reform Art in Early Modern Venice Benjamin Paul, 2017-07-05 Decorated by Giovanni Buonconsiglio Jacopo Tintoretto Palma il Giovane Sebastiano Ricci and Giambattista Tiepolo the church of the former Benedictine female monastery Santi Cosma e Damiano occupies an outstanding position in Venice The author of this study argues that from its foundation in 1481 to its dissolution in 1805 Santi Cosma e Damiano was a reform convent and that its nuns employed art and architecture as a means to actively express their specific religious concerns While on the one hand focusing on the basis of extensive archival research on the reconstruction of the history and construction of the convent this study's larger concern is with the religious reform movement its ideas concerning art and architecture and with the convent as a space for female self realization in early modern Venice

Italian Painting Before 1400 David Bomford, Jill Dunkerton, Dillian Gordon, Ashok Roy, Jo Kirby, 1989 In Italy between 1270 and 1370 the whole tradition of European painting underwent a radical and enduring change of direction This attractive and unusual study of Italian painted panels of the Early Renaissance examines the materials with which this transformation was effected and demonstrates how modern technology has increased our understanding of medieval panel painting The authors survey the primarily religious function of these works and the professional context in which the artists worked They provide explanations of the construction of panels and the preparation of wood for painting and of the preparation and application of gold leaf The substantial sections on pigments and color represent original research done at the Gallery that has enabled the writers to provide the first comprehensive survey of how paints were prepared mixed and applied

The Art and Science of the Church Screen in Medieval Europe Spike Bucklow, Richard Marks, Lucy Wrapson, 2017 Fresh examinations of one of the most important church furnishings of the middle ages The churches of medieval Europe contained richly carved and painted screens placed between the altar and the congregation they survive in particularly high numbers in England despite being partly dismantled during the Reformation While these screens divided lay from priestly jurisdiction it has also been argued that they served to unify architectural space This volume brings together the latest scholarship on the subject exploring in detail numerous aspects of the construction and painting of screens it aims in particular to unite perspectives from science and art history Examples are drawn from a wide geographical range from Scandinavia to Italy Spike Bucklow is Director of Research at the Hamilton Kerr Institute University of Cambridge Richard Marks is Emeritus Professor of the History of Art at the University of York and currently a member of the History of Art Department University of Cambridge Lucy Wrapson is Assistant to the Director at the Hamilton Kerr Institute University of Cambridge Contributors Paul Binski Spike Bucklow Donal Cooper David Griffith

examines especially the effect of bringing relics and images together and considers how the impressions of variety and abundance created by the multiplication of materials give birth to meaning and encourage certain kinds of action or thought

Votive Panels and Popular Piety in Early Modern Italy Fredrika H. Jacobs, 2013-10-07 In the late fifteenth century votive panel paintings or tavolette votive began to accumulate around reliquary shrines and miracle working images throughout Italy Although often dismissed as popular art of little aesthetic consequence more than 1 500 panels from the fifteenth and sixteenth centuries are extant a testimony to their ubiquity and importance in religious practice Humble in both their materiality and style they represent donors in prayer and supplicants petitioning a saint at a dramatic moment of crisis In this book Fredrika H Jacobs traces the origins and development of the use of votive panels in this period She examines the form context and functional value of votive panels and considers how they created meaning for the person who dedicated them as well as how they accrued meaning in relationship to other images and objects within a sacred space activated by practices of cultic culture

in Early Republican Florence George Bent, 2017-01-16 Street corners guild halls government offices and confraternity centers contained paintings that made the city of Florence a visual jewel at precisely the time of its emergence as an international cultural leader This book considers the paintings that were made specifically for consideration by lay viewers as well as the way they could have been interpreted by audiences who approached them with specific perspectives Their belief in the power of images their understanding of the persuasiveness of pictures and their acceptance of the utterly vital role that art could play as a propagator of civic corporate and individual identity made lay viewers keenly aware of the paintings in their midst Those pictures affirmed the piety of the people for whom they were made in an age of social and political upheaval as the city experimented with an imperfect form of republicanism that often failed to adhere to its declared aspirations
