Miss Abracadabra Tom Ross, 2025-01-14 In lyrical unconstrained prose debut author Tom Ross tells a story of intergenerational change and conflict in a Black American family in the pre Civil Rights era Lorraine Rain Franklin whose family made their way north as part of the Great Migration and have settled in the Finger Lakes region of upstate New York is lost She stumbles through a series of questionable romantic encounters and assumed identities and eventually into an unplanned pregnancy struggling both to define herself in and against a fallen world and to achieve autonomy from her mother's repressive anxieties Rain's misadventures are a parable of what it means to confront however imperfectly the contradictions of a Black community defining itself in midcentury America For twenty five years Tom Ross has been amassing the semi autobiographical history of the extended Franklin family *Miss Abracadabra* is the culmination and first extended publication from this astonishing storytelling project which through multiple viewpoints fractures and reconfigures historical experience into infinite narrative possibilities

Word Knowledge and Word Usage Vito Pirrelli, Ingo Plag, Wolfgang U. Dressler, 2020-04-20 Word storage and processing define a multi factorial domain of scientific inquiry whose thorough investigation goes well beyond the boundaries of traditional disciplinary taxonomies to require synergic integration of a wide range of methods techniques and empirical and experimental findings The present book intends to approach a few central

issues concerning the organization structure and functioning of the Mental Lexicon by asking domain experts to look at common central topics from complementary standpoints and discuss the advantages of developing converging perspectives. The book will explore the connections between computational and algorithmic models of the mental lexicon, word frequency distributions and information theoretical measures of word families, statistical correlations across psycholinguistic and cognitive evidence, principles of machine learning and integrative brain models of word storage and processing. Main goal of the book will be to map out the landscape of future research in this area to foster the development of interdisciplinary curricula and help single domain specialists understand and address issues and questions as they are raised in other disciplines.
