Literature And Psychoanalysis The Question Of Reading Otherwise:

Literature and psychoanalysis : the question of reading: otherwise Shoshana Felman, 1982 **Literature and psychoanalysis** Shoshana Felman, 1978 *Discourse in Psychoanalysis and Literature (Routledge Revivals)* Shlomith Rimmon-Kenan, 2014-11-13 The essays in this collection first published in 1987 represent a collective attempt to listen with the third ear to the underhand ways the unspoken has of speaking and to speak of these ways By focusing on discourse the volume is distinguished from traditional literature by its emphasis on rhetorical structures and textual strategies and the investment of these structures with desire power and other aspects of subjectivity rather than the personality of the artist or the creative process However in this book the human dimension is not lost By claiming that the structures in question are not merely linguistic semiotic or narratological although they are all of these the human dimension is returned not in the raw as in traditional approaches but through the traces it leaves in the text as activated by its reading This book is ideal for students of literature and psychoanalytical theory *A Psychoanalytic Perspective on Reading Literature* Merav Roth, 2019-08-14 What are the unconscious processes involved in reading literature How does literature influence our psychological development and existential challenges A Psychoanalytic Perspective on Reading Literature offers a unique glimpse into the unconscious psychic processes and development involved in reading The author listens to the free associations of various literary characters in numerous scenarios where the characters are themselves reading literature thus revealing the mysterious ways in which reading literature helps us and contributes to our development The book offers an introduction both to classic literature Poe Proust Sartre Sempr n Pessoa Agnon and more and to the major psychoanalytic concepts that can be used in reading it all described and widely explained before being used as tools for interpreting the literary illustrations The book thus offers a rich lexical psychoanalytic source alongside its main aim in analysing the reader s psychological mechanisms and development Psychoanalytic interpretation of those literary readers opens three main avenues to the reader s experience the transference relations toward the literary characters the literary work as means to transcend beyond the reader s self identity and existential boundaries and mobilization of internal dialectic tensions towards new integration and psychic equilibrium An Epilogue concludes by emphasising the transformational power embedded in reading literature The fascinating dialogue between literature and psychoanalysis illuminates hitherto concealed aspects of each discipline and contributes to new insights in both fields A Psychoanalytic Perspective on Reading Literature will be of great interest not only to psychoanalytic psychotherapists and literature scholars but also to a wider readership beyond these areas of study *Literature, Psychoanalysis and the New Sciences of Mind* Leonard Jackson, 2014-09-11 At a time when psychoanalysis is attacked by biologists psychologists and literary critics alike this book offers a radical defence Literature Psychoanalysis and the New Sciences of Mind gives a clear introduction to the theories of Freud and Jung the strange linguistic rewriting of Freud by Jacques Lacan It explores the extraordinary variety of ways in which these writings have been

applied to literature and literary theory But for the first time they are put in the context of recent biological theories of mind and sexuality *Psychoanalysis and Cinema* E. Ann Kaplan, 2013-02-01 These fifteen carefully chosen essays by well known scholars demonstrate the vitality and variety of psychoanalytic film criticism as well as the crucial role feminist theory has played in its development Among the films discussed are *Duel in the Sun* *The Best Years of Our Lives* *Three Faces of Eve* *Tender is the Night* *Pandora's Box* *Secrets of the Soul* and the works of Jacques Tourneur director of *The Cat People* and other features *Literature and Psychoanalysis: Open Questions* Elissa Marder, 2017-10-26 In 1977 Shoshana Felman opened up the question of how literature and psychoanalysis speak to each other's most intimate concerns with her landmark volume of Yale French Studies entitled *Literature and Psychoanalysis: The Question of Reading Otherwise* That relationship she proposed needed to be reinvented and transformed into a real dialogue between two different bodies of language and two different modes of knowledge Over the forty years that have elapsed since the publication of Felman's 1977 volume the encounter between literature and psychoanalysis has participated in the emergence of several new fields of critical inquiry such as trauma testimony affect theory neuro psychoanalysis and performance studies and has been a privileged space for reflections on mourning singularity translation transference and translatability the death drive repetition violence cruelty virtual reality the clinic and sexuality In a world that has become enamored with modes of knowledge production that respond to ever increasing demands for quantifiable verification the science of the brain or for programmatic applicability literature and psychoanalysis continue to offer an intractable resistance Inspired both directly and indirectly by Felman's 1977 volume and working from the premise that this intractability is itself a source of potential transformation the essays in this issue of *Paragraph* look to literature and psychoanalysis to invent new forms for the future **Yale's French Studies**, 1977 The Novel Dorothy J. Hale, 2005-11-04 *The Novel: An Anthology of Criticism and Theory 1900-2000* is a collection of the most influential writings on the theory of the novel from the twentieth century Traces the rise of novel theory and the extension of its influence into other disciplines especially social cultural and political theory Broad in scope including sections on formalism the Chicago School structuralism and narratology deconstruction psychoanalysis Marxism social discourse gender post colonialism and more Includes whole essays or chapters wherever possible Headnotes introduce and link each piece enabling readers to draw connections between different schools of thought Encourages students to approach theoretical texts with confidence applying the same skills they bring to literary texts Includes a volume introduction a selected bibliography an index of topics and short author biographies to support study Subject to Reading Eugene Henry de Klerk, 2009-10-02 The book explores what it means for a human organism to be a subject and responds to what it sees as the contemporary ablation of subjectivity in favour of an impoverished biopolitics a concept borrowed from Foucault It is preoccupied with questions of ethics and education arguing that Lacanian psychoanalysis like Freirean literacy constitutes first and foremost an education in responsible subjecthood It identifies such an education as a very necessary intervention in

what appears to be a global double bind between fanatical certainty and capitalist abstraction The book asserts that contrary to most trends concerning the appropriation of psychoanalysis or Freirean techniques for teaching Freirean pedagogy and Lacanian psychoanalysis are not purely toolboxes but profound epistemological and philosophical arguments These arguments also combine to suggest a new socio political conception of theology In addition the book draws on examples from literature and popular culture to explicate certain ideas In this regard the book primarily undertakes a reading of selected works by J M Coetzee

Reading Riddles Brian Tucker, 2010-12-16 Reading Riddles Rhetorics of Obscurity from Romanticism to Freud explores how the riddle becomes a figure for reading and writing in early German Romanticism and how this model then enables Sigmund Freud's approach to the psyche It traces a migration of ideas from literature to psychoanalysis and argues that the relationship between them must be situated at the methodological level Through readings of texts by August Wilhelm Friedrich Schlegel G W F Hegel and Ludwig Tieck Reading Riddles documents how the Romantics expand the field of poetic signification to include obscure distorted signs and how they applied this rhetoric of obscurity to the self The book argues that this model of self and signification plays a central role in the formulation of Freud's psychoanalytic theory If the self is a riddle as many in the nineteenth century claim Freud takes the figure seriously and interprets the mind according to all the structures and techniques of that textual genre

Psychoanalytic Literary Criticism Maud Ellmann, 2014-01-14 This collection of essays provides students of literary critical theory with an introduction to Freudian methods of interpretation and shows how those methods have been transformed by recent developments in French psychoanalysis particularly by the influence of Jacques Lacan It explains how classical Freudian criticism tended to focus on the thematic content of the literary text whereas Lacanian criticism focuses on its linguistic structure redirecting the reader to the words themselves Concepts and methods are defined by tracing the role played by the drama of Oedipus in the development of psychoanalytic theory and criticism The essays cover a wide generic scope and are divided into three parts drama narrative and poetry Each is accompanied by explanatory headnotes giving clear definitions of complex terms

Beckett, Lacan and the Mathematical Writing of the Real Arka Chattopadhyay, 2019-01-01 Beckett Lacan and the Mathematical Writing of the Real proposes writing as a mathematical and logical operation to build a bridge between Lacanian psychoanalysis and Samuel Beckett's prose works Arka Chattopadhyay studies aspects such as the fundamental operational logic of a text use of mathematical forms like geometry and arithmetic the human obsession with counting the moving body as an act of writing and love and sexuality as a challenge to the limits of what can be written through logic and mathematics Chattopadhyay reads Beckett's prose works including How It Is Company Worstward Ho Malone Dies and Enough to highlight this terminal writing which halts endless meanings with the material body of the word and gives Beckett a medium to inscribe what cannot be written otherwise

Identification Papers Diana Fuss, 1995 The notion of identification especially in the discourse of feminist theory has come sharply and dramatically into focus with the recent

interest in such topics as queer performativity cross dressing and racial passing Identification Papers is the first book to track the evolution of identification's emergence in psychoanalytic theory Diana Fuss seeks to understand where this notion of identification has come from and why it has emerged as one of the most difficult problems in contemporary theory and politics Identification Papers situates the recent critical interest in identification in the intellectual tradition that first gave the idea its theoretical relevance psychoanalysis Fuss begins from the assumption that identification has a history and that the term carries with it a host of theoretical problems conceptual difficulties and ideological complications By tracking the evolution of identification in Freud's work over a forty year period Fuss demonstrates how the concept of identification is neither a theoretically neutral notion nor a politically innocent one Identification Papers closely examines the three principal figures gravity ingestion and infection that psychoanalysis invokes to theorize identification Fuss then deconstructs the psychoanalytic theory of identification in order to open up the possibility of more innovative rethinkings of the political Drawing on literature film and Freud's own case histories and engaging with a wide range of disciplines including critical theory philosophy film theory cultural studies psychoanalysis and feminism Identification Papers will be a necessary starting point in any future theoretical project that seeks to mobilize the concept of identification for a feminist politics **The**

Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives Christa Knellwolf, Christopher Norris, 1989 This ninth volume in The Cambridge History of Literary Criticism presents a wide ranging survey of developments in literary criticism and theory during the last century Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual national and socio cultural perspective In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate **Mis-reading the Creative Impulse** Adrianna M. Paliyenko, 1997 Building on work

by Aristotle Jacques Lacan and Harold Bloom Adrianna M Paliyenko's richly textured study revises our previous understanding of Arthur Rimbaud's 1854-1891 indirect artistic influence on Paul Claudel 1868-1955 Paliyenko's analysis answers to critical readings that rely on speculative spiritual affinities and text surface similarities in identifying Claudel as Rimbaud's artistic follower She traces the two writers development of the poetic subject striving to map Claudel's creative corrections or revisions of Rimbaud's work In redirecting discussion of Rimbaud's work she develops a Bloomian paradigm of how creative artists strive for originality by correcting or revising their predecessors **The Body of the Postmodernist**

Narrator Fatima Festić, 2009-03-26 The goal of this book is to elaborate the theoretical framework with regard to reading

postmodern fiction from the perspective of the bodies of their narrators as textual occurrences. It centers on Lacanian psychoanalysis and the intersection between its various political interpretations and feminist theories. The emphasis is on the register of the real on the domain of trauma as it appears in contemporary world literature and history and on attempts at artistic resolution of its consequences. Since postmodernism is widely interpreted as a Western phenomenon, the book tries to show its dependence on much broader spatial, political, cultural, and ideological dimensions, taking as index the darker side of literature such as murder and destruction, dark courses of desire, and the repercussions of their externalization in the reality of life. Focusing on the conditions that link contemporary cultures to the narratives and narrators' bodies, the book exposes the potential of bodies revealed in the act of narrating and the ambiguities of their fictionalizing and subjectivizing aspects, taking the body as the site of repressed knowledge, traumas, resistance, and manipulative desires. The analysis of the fictional works aims to point out a missing link between imagination and the real historical conditions from which imagination derives, as well as the discursive struggle to save the tormented territorialized body from the prismatic world by holding to the absent referent and prevent violence caused by the uncritical pleasure principle. **It Didn't Mean Anything** Alexander N. Howe, 2008-03-17

This critical study of American detective fiction examines the history and development of the detective genre through the lens of psychoanalysis. Applying the ideas of French psychoanalyst Jacques Lacan, the author identifies and categorizes popular works according to the fictional protagonist's hysteria, obsessive neurosis, perversion, or psychosis. The first chapter identifies several instances of hysteria within the fiction of two of the genre's pioneers, Edgar Allan Poe and Arthur Conan Doyle. Chapter Two traces the development of the hard-boiled detective's code of honor through the works of Dashiell Hammett, Raymond Chandler, and Mickey Spillane, identifying the often paradoxical nature of this code and its origins in obsessive neurosis. Chapter Three analyzes the anti-detective fiction of Philip K. Dick in terms of paranoid psychosis, and the final chapter returns to the question of hysteria, taking up the female hard-boiled detectives of author Marcia Muller.

The Theory of Criticism Raman Selden, 2014-09-25 This book is divided into five parts and covers representation, subjectivity, form, structure, and system; history and society; morality, class, and ideology. Each part contains several thematic sections in which extracts from different writers and periods are juxtaposed. The study of literary theory has tended to concentrate on very recent developments. This volume, however, establishes both a sense of the continuities from Plato to the present day as well as the discontinuities. These are presented through comparisons and contrasts across the entire field of critical history. [An Introduction to Literature, Criticism and Theory](#) Andrew Bennett, Nicholas Royle, 2014-07-10 Fresh, original, and compelling, *An Introduction to Literature, Criticism and Theory* is the essential guide to literary studies. Starting at the beginning and concluding with the end, the book covers topics that range from the familiar character narrative, the author to the more unusual secrets, pleasure, ghosts. Eschewing abstract isms, Bennett and Royle successfully illuminate complex ideas by engaging directly with literary works, so that a reading of *Jane Eyre* opens up ways of thinking about racial

difference whilst Chaucer Raymond Chandler and Monty Python are all invoked in a discussion of literary laughter Each chapter ends with a narrative guide to further reading and the book also includes a glossary and bibliography The fourth edition has been revised to incorporate two timely new chapters on animals and the environment A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader s eyes to the exhilarating possibilities of both reading and studying literature
