The Express Messenger, 1918 **The Science of Intelligent Achievement** Isaiah Hankel, 2018-02-05 Smart strategies for pragmatic science based growth and sustainable achievement The Science of Intelligent Achievement teaches you the scientific process of finding success through your most valuable assets Selective focus how selective are you with who and what you let into your life Creative ownership how dependent are you on others for your happiness and success Pragmatic growth how consistently and practically are you growing daily First this book will show you how to develop your focus by being very selective with where you spend your mental energy If you've failed to reach an important goal because you were distracted misinformed or overcommitted then you know the role focus and selectivity play in achievement Second you will learn how to stop allowing your happiness and success to be dependent on other people and instead start taking ownership over your life through creative work Finally you will learn the art of changing your life through pragmatic decisions and actions Self improvement is not the result of dramatic changes Instead science has shown that personal and professional change is initiated and sustained by consistent practical changes To grow you must leverage the power of micro decisions personality responsibility and mini habits Your own biology will not let you improve your life in any other way What do you currently value What are working to attain Have you been taught to value your job title or your relationship with some other person above all else Have you been convinced that the most valuable things in life are your paycheck the number of people who say hello to you at the office and the number of people who say I need you at home Or have you become so passive in what you value that you let anyone and anything into your life as long as whatever you let in allows you to stay disconnected from the cold hard truth that when things really go wrong in your life the only person who will be able to fix it and the only person will be responsible for it is you If so welcome to fake success Passivity dependence and the sacrifice of practical thinking and personal responsibility to fuzzy grandiose ideals and temporary feelings these are markers of fake

success Intelligent Achievement on the other hand is not a moving target It s not empty either Instead it s sturdy full and immovable It s not something that s just handed to you It s not something you re nudged to chase or coerced into wanting Intelligent Achievement comes from within you It s a collection of values that are aligned with who you are values you have to protect and nurture These values do not increase your dependence on other people and things Instead they relieve you of dependence This kind of achievement is something that you have a part in building from the ground up you know what s in it you chose it someone else didn t choose it for you Achieving real success means you must focus create and grow daily The Science of Intelligent Achievement will show you how

Express Daniel Lak,2008-09-02 In evocative prose and with street level reporting Daniel Lak argues that India has become a global superpower because of its religion caste politics and poverty and not in spite of it He looks presciently to the future and concludes that the strength that democracy gives it means that India is much better positioned to sustain its newfound status than China whose political system is sure to eventually hinder it As an expert who has covered the region for the BBC

for the last twelve years Lak weaves together his substantive knowledge of Indian politics economics and culture with fascinating stories of everyday people India Express incisively explores the most urgent challenges facing India in the 21st century The governance and development of the most religiously culturally and linguistically diverse population on the planet Crushing poverty with 300 million on less 2 a day despite the rise of the largest middle class the world has ever known Uncertain geopolitics including the parallel rise of China and civil wars in neighboring states and the increasingly unstable nuclear armed Pakistan Corruption at all levels of government while the business sector becomes ever more globalized and attuned to international standards Growing urbanization three of the world s top fifteen cities in terms of population are already Indian and they are growing faster than most others Inequality between different Hindu castes sexes regions and newly minted haves and have nots Success Magazine ,1907 *Business Express: How Solve Problems and Make Decisions* Richard Hall,2017-03-30 If you need to be in the know in no time at all Business Express will get you from beginner to brilliant in the blink of an eye This fast focused and carefully crafted eBook will help you pick up all the essential knowledge you need about the skills that matter most at work all in the shortest possible time Learn just when you need to or well in advance read it at your desk or on the move dip in and out or start from scratch it s all up to you But however you use it you ll quickly feel more confident competent and better equipped to make things happen and keep moving ahead Save time it s quick and easy to read Get smart just the essential knowledge you need Feel good watch your confidence grow Business Express know how in no time *The Chautauquan* ,1894 **Successful Writing** Symmes M.
