agency individuality and subjectivity *Loners* Dr Sula Wolff, Sula Wolff, 2020-07-24 Some children seem different detached disinterested in the games of other children They prefer their hobbies to friends of their own age and if forced into community activities as they often are at school can become aggressive and difficult In *Loners* Sula Wolff describes a childhood personality syndrome that has frequently been neglected Often using children's own words their lives and problems become real as she unwraps their stories from first referral to adulthood Some have become talented and successful adults whilst others are less fortunate in later years Carefully documented and meticulously researched this study makes compelling reading Women's Experience of Modernity, 1875-1945 Ann L. Ardis, Leslie W. Lewis, 2003-05-22 A collection of essays on women's history and literary production at the turn of the twentieth century that centers the feminine phenomena Analyzing such cultural practices as selling and shopping political and social activism urban field work and rural labor radical discourses on feminine sexuality and literary and artistic experimentation this volume contributes to the rich vein of current feminist scholarship on the gender of modernism and challenges the assumption that modernism rose naturally or inevitably to the forefront of the cultural landscape at the turn of the twentieth century During this period women's experience was a rallying cry for feminists a unifying cause that allowed women to work together to effect social change and make claims for women's rights However it also proved to be a source of great divisiveness among women for claims about its universality quickly unraveled to reveal the classism racism and Eurocentrism of various feminist activities and organizations The essays in this volume examine both literary and non literary writings of Jane Addams Djuna Barnes Toru Dutt Radclyffe Hall H D Pauline Hopkins Emma Dunham Kelley Amy Levy Alice Meynell Bram Stoker Ida B Wells Rebecca West and others Instead of focusing exclusively or even centrally on modernism and literature these essays address a broad array of textual materials from political pamphlets to gynecology textbooks as they investigate women's responses to the rise of commodity capitalism middle class women's entrance into the labor force the welfare state's invasion of the working class home and the intensified eroticization of racial and class differences Remarkable Oregon Women Jennifer Chambers, 2015-11-30 Without the efforts of inspiring brave women of the past the progressive and individualistic Oregon we know today might not exist From native tribes and Oregon Trail pioneers to Victorian suffragists and unlikely politicians strong female leaders give profound meaning to the state motto *alis volat propriis* she flies with her own wings Writer and activist Julia Ruuttila fought for the rights of the citizens of Vanport the largely African American town lost to a disastrous flood in 1948 Others broke stereotypes to serve their communities like women who helped build ships during World War II and the nation's first female police officer Portland's own Lola Baldwin Similarly Laura Stockton Starcher unseated her husband as mayor of Umatilla Author Jennifer Chambers tells these and many more stories of progressive radical women who fought for change within their state **The Arizona Quarterly**, 1995 **Bunk** Kevin Young, 2017-11-14 Traces the history of the hoax as a distinct American phenomenon exploring the roles of stereotype suspicion and racism as factors that have

Guide to Books in Print ,2001 Past Tenses Carolyn Steedman,1992 *Linguistics at School* Kristin Denham,Anne
Lobeck,2010-01-07 Linguistics is a subject that has remained largely confined to the academy rather than being integrated
into school curricula This is unfortunate but not surprising as although some teacher education programs include courses on
linguistics it is not comprehensively integrated into teacher education so it is largely absent from the curriculum This volume
brings together a team of leaders in the field of linguistics and education to provide an overview of the current state of
research and practice It demonstrates changes which can be made to teaching such as revising teacher s preparation
developing and implementing practical applications of linguistics in both primary and secondary classrooms partnering
linguists with classroom teachers and working to improve state and national education standards The contributors emphasize
the importance of collaboration between professional linguists and educators in order to meet a common goal to raise
awareness of the workings of language Catalog of Copyright Entries. Third Series Library of Congress. Copyright
