Face And Hand Reading:

Face and Hand Reading Theresa Cheung, 2012-01-05 I've always hated my nose. The way it looks and the fact that it's so big. When I was little I did drawings of smiling faces with no noses. My parents and teachers would always remind me to draw the nose but I never did. The way I see my nose has changed since I started face reading. If only I'd known sooner that having a long nose is pretty cool. Sarah 12. You can learn the most amazing things by simply using your face and hands and a little help from this book. You see faces everyday but do you really look at them? Face reading helps you to analyse every feature, line and shape and work out what they say about your personality, relationships and future destiny. Hand reading or palmistry is another brilliant way to find out all about you and your friends and family. By looking at your whole hand, fingers and thumbs and lines on your palms you'll see just how useful and informative hand reading can be in your everyday life. Face and Hand Reading shows you how you can change your life by discovering just how incredible and unique you are. It is part of our stunning new Mind Body Spirit series for teenage girls. Amazing You. **Face and Palm Reading** Mari Silva, 2021

Face & Hand Reading Theresa Cheung, 2004 Provides instructions for how to read faces, hands and palms for insight into personalities and the future. *Practical Face Reading and Palmistry* 傅佩榮 Peter So, 2012-07-01 This is how a Chinese proverb goes: It takes a long way to tell how strong a horse is; it takes a long time to know a person well. Yet the Chinese also developed a set of rules to know a person simply by observation: read first his face and palm, then his gesture and demeanour for his intelligence and his luck. If you're interested in knowing a person by just looking, this book is an indispensable read. Is she/he the perfect wife or husband? Is he pretending to be rich but is actually a less privileged working class? Is he a sex fiend or a shameless con man? They are giving it away on their face and with their gestures. What is your boss thinking? How do you tell if a subordinate is loyal? Which of the workers is the most competent? Simply take a look and you'd know. Read both the face and the palm to tell his/her love luck and if his/her marriage is good or bad. A mole, a zit, the voice, the hair and the way a person walks are all essential clues to tell his/her luck. This book comes with remedies to dissipate your bad luck and boost your good luck: Dye your hair, Grow a beard, Or even wear a pair of spectacles for better luck. This book is great fun to read, encompassing a broad base of knowledge in face and palm reading. It also puts theories in contexts so that you'd get to know those around you in everyday situations. This book lets you take a peep at a person's heart by reading his/her tiniest feature or trait. Not to be missed. *The Art and Science of Hand Reading* Ellen Goldberg, Dorian Bergen, 2016-02-06 A comprehensive guide to the inner psychology revealed by the hand. Details how to interpret the entire hand, the shape of the palm and fingers, mounts, lines, fingerprints, flexibility, nails and skin texture. Reveals the personality archetypes, strengths and weaknesses connected with each of the seven mounts and how the rest of the hand modifies these traits. Explains how lines change and the decisive influence of the person's own mind in healing defects found on the lines. Palmistry is a science and a universal language. The hand tells a story about your talents, relationships, health and how you feel about yourself. It reveals

periods of ease or challenge in your life and it speaks about your weaknesses and the traits you need to develop As you change so do your hands reflecting the progress you have made In this comprehensive guide to hand reading based on Ellen Goldberg s 40 years of teaching palmistry and the Western Mystery tradition the authors make the powerful insights of the hand accessible in an inviting and user friendly manner The book presents the character traits and personality archetypes associated with each of the seven mounts of the palm and shows how to determine which are most influential in the nature of the individual The mount archetypes reveal the lifestyle love sex and marriage preferences the best career choices and the unique strengths and weaknesses for each person The book also examines other factors that enhance the qualities revealed by the mount types including the flexibility of the hand texture of the skin and the shapes of the fingers fingertips and nails The meaning of each major and minor line is described in detail as well as the influence the person s own mind has in healing defects and obstacles found on their lines The authors also provide accurate timing guides for each line making it possible to locate specific events and to see how your lines change over time Presenting the hand as a guide to self fulfillment The Art and Science of Hand Reading incorporates correspondences to other mystical sciences such as astrology Kabbalah the Hermetic teachings and archetypal psychology It also includes practical examples and more than 600 illustrations to show how to integrate the meanings of each part of the hand to form a complete picture of your inner psychology and your ever changing destiny
