Beyond 1492 James Axtell, 1992 In this provocative and timely collection of essays five published for the first time one of the most important ethnohistorians writing today James Axtell explores the key role of imagination both in our perception of strangers and in the writing of history Coinciding with the 500th anniversary of Columbus s discovery of America this collection covers a wide range of topics dealing with American history Three essays view the invasion of North America from the perspective of the Indians whose land it was The very first meetings he finds were nearly always peaceful Other essays describe native encounters with colonial traders creating the first consumer revolution and Jesuit missionaries in Canada and Mexico Despite the tragedy of many of the encounters Axtell also finds that there was much humor in Indian European negotiations over peace sex and war In the final section he conducts searching analyses of how college textbooks treat the initial century of American history how America s human face changed from all brown in 1492 to predominantly white and black by 1792 and how we handled moral questions during the Quincentenary He concludes with an extensive review of the Quincentenary scholarship books films TV and museum exhibits and suggestions for how we can assimilate what we have learned

Historical Dictionary of Colonial America William A. Pencak, 2011-07-15 The years between 1450 and 1550 marked the end of one era in world history and the beginning of another Most importantly the focus of global commerce and power shifted from the Mediterranean Sea to the Atlantic Ocean largely because of the discovery of the New World The New World was more than a geographic novelty It opened the way for

new human possibilities possibilities that were first fulfilled by the British colonies of North America nearly 100 years after Columbus landed in the Bahamas The Historical Dictionary of Colonial America covers America s history from the first settlements to the end and immediate aftermath of the French and Indian War This is done through a chronology an introductory essay appendixes an extensive bibliography and over 400 cross referenced dictionary entries on the various colonies which were founded and how they became those which declared independence Religious political economic and family life important people warfare and relations between British French Spanish and Dutch colonies are also among the topics covered This book is an excellent access point for students researchers and anyone wanting to know more about Colonial America Mythical Indies and Columbus's Apocalyptic Letter Elizabeth Moore Willingham,2015-08-01 With his Letter of 1493 to the court of Spain Christopher Columbus heralded his first voyage to the present day Americas creating visions that seduced the European imagination and birthing a fascination with those new lands and their inhabitants that continues today Columbus s epistolary announcement travelled from country to country in a late medieval media event and the rest as has been observed is history The Letter has long been the object of speculation concerning its authorship and intention British historian Cecil Jane questions whether Columbus could read and write prior to the first voyage while Demetrio Ramos argues that King Ferdinand and a minister composed the Letter and had it printed in the Spanish folio The Letter has figured in studies of Spanish Imperialism and of Discovery and Colonial period history but it also offers insights into Columbus s passions and motives as he reinvents himself and retails his vision of Peter Martyr s Novus orbis to men and women for whom Columbus was as unknown as the places he claimed to have visited The central feature of the book is its annotated variorum edition of the Spanish Letter together with an annotated English translation and word and name glossaries A list of terms from early print period and manuscript cultures supports those critical discussions In the context of her text based reading the author addresses earlier critical perspectives on the Letter explores foundational questions about its composition publication and aims and proposes a theory of authorship grounded in text linguistics discourse and culture

Based on a True Story Donald F. Stevens,1998-07-01 Combining history with discussions of dramatic cinema Based on a True Story Latin American History at the Movies examines how film has portrayed Latin America from the late fifteenth century to the present The book opens with an introduction on the visual presentation of the past in the movies while the rest of the book consists of essays that explore the best feature films on Latin America from the professional historian s perspective *Columbus's Outpost Among the Taínos* Kathleen A. Deagan,José María Cruxent,2008-10-01 In 1493 Christopher Columbus led a fleet of 17 ships and more than 1200 men to found a royal trading colony in America Columbus had high hopes for his settlement which he named La Isabela after the queen of Spain but just five years later it was in ruins It remains important however as the first site of European settlement in America and the first place of sustained interaction between Europeans and the indigenous Tainos Kathleen Deagan and Jose Maria Cruxent tell the story of this historic

enterprise Drawing on their ten year archaeological investigation of the site of La Isabela along with research into Columbus era documents they contrast Spanish expectations of America with the actual events and living conditions at America's first European town Deagan and Cruxent argue that La Isabela failed not because Columbus was a poor planner but because his vision of America was grounded in European experience and could not be sustained in the face of the realities of American life Explaining that the original Spanish economic and social frameworks for colonization had to be altered in America in response to the American landscape and the non elite Spanish and Taino people who occupied it they shed light on larger questions of American colonialism and the development of Euro American cultural identity *Renaissance Ethnography and the Invention of the Human* Surekha Davies, 2016-06-02 Giants cannibals and other monsters were a regular feature of Renaissance illustrated maps inhabiting the Americas alongside other indigenous peoples In a new approach to views of distant peoples Surekha Davies analyzes this archive alongside prints costume books and geographical writing Using sources from Iberia France the German lands the Low Countries Italy and England Davies argues that mapmakers and viewers saw these maps as careful syntheses that enabled viewers to compare different peoples In an age when scholars missionaries native peoples and colonial officials debated whether New World inhabitants could or should be converted or enslaved maps were uniquely suited for assessing the impact of environment on bodies and temperaments Through innovative interdisciplinary methods connecting the European Renaissance to the Atlantic world Davies uses new sources and questions to explore science as a visual pursuit revealing how debates about the relationship between humans and monstrous peoples challenged colonial expansion *"The" Journal of Christopher Columbus (during His First Voyage 1492-93)* Cristoforo Colombo, 1893 *Expedition of Hernando de Soto West of the Mississippi, 1541-1543: Symposia (p)* Gloria A. Historical Evidence and Argument David Henige, 2006-01-20 Historians know about the past because they examine the evidence But what exactly is evidence how do historians know what it means and how can we trust them to get it right Historian David Henige tackles such questions of historical reliability head on in his skeptical unsparing and acerbically witty Historical Evidence and Argument Systematic doubt is his watchword and he practices what he preaches through a variety of insightful assessments of historical controversies for example over the dating of artifacts and the textual analysis of translated documents Skepticism Henige contends forces us to recognize the limits of our knowledge but is also a positive force that stimulates new scholarship to counter it
