Sample Book Insights 1 The most helpful ideas were coming from the strangest places In 1962 the business historian Alfred

Chandler wrote *Strategy and Structure* in which he expressed the very powerful notion that structure follows strategy. The conventional wisdom was that Chandler's dictum had the makings of universal truth.² The problem of management effectiveness is that the dearth of practical additions to old ways of thought is painfully apparent. The stream of thought that today's researchers are tapping is an old one started in the 1930s by Elton Mayo and Chester Barnard who challenged ideas put forward by Max Weber who defined the bureaucratic form of organization.³ The role of a leader is to harness the social forces in the organization to shape and guide values. Good managers are value shapers concerned with the informal social properties of organization.⁴ The intangibles that top performing managers describe are much more in line with Weick and March than with Taylor or Chandler. They talk about family feeling, small is beautiful and simplicity rather than complexity.

Defense Management Journal, 1986 Confessions of a Civil Servant Bob Stone, 2004-07-26 *Confessions of a Civil Servant* is filled with lessons on leading change in government and the military. Bob Stone based the book on thirty years as a revolutionary in government. It comes at a time when the events of 9/11 are sharpening America's demands for government that works at all levels. The book tackles fourteen overarching themes in government developed through entertaining stories of Stone's own experiences as a civil servant. Among the topics Stone covers are tackling a job when you haven't a clue, organizing for the mission, dealing with difficult bosses and getting past the barriers to change. This book is a must read for anyone in or considering taking a leadership position in government, the military or any large organization, public or private.
