**The Emergence of Subjectivity in the Ancient and Medieval World** Jon Stewart, 2020-03-24 *The Emergence of Subjectivity in the Ancient and Medieval World* An Interpretation of Western Civilization represents a combination of different genres cultural history philosophical anthropology and textbook It follows a handful of different but interrelated themes through more than a dozen texts that were written over a period of several millennia and by means of an analysis of these texts presents a theory of the development of Western civilization from antiquity to the Middle Ages The main line of argument traces the various self conceptions of different cultures as they developed historically reflecting different views of what it is to be human The thesis of the volume is that through examination of these changes we can discern the gradual emergence of what we today call inwardness subjectivity and individual freedom As human civilization took its first tenuous steps it had a very limited

conception of the individual. Instead the dominant principle was that of the wider group the family clan or people. Only in the course of history did the idea of what we now know as individuality begin to emerge and it took millennia for this idea to be fully recognized and developed. The conception of human beings as having a sphere of inwardness and subjectivity subsequently had a sweeping impact on all aspects of culture including philosophy, religion, law, and art; indeed this notion largely constitutes what is today referred to as modernity. It is easy to lose sight of the fact that this modern conception of human subjectivity was not simply something given but rather the result of a long process of historical and cultural development.

Each module has two parts: there are systematic chapters that discuss and explain each module's topic, and the final chapter of each module examines 4 to 6 primary sources that are important for each topic. This textbook includes an extensive range of pedagogical features: sample tests in which each objective question has been quality tested by classroom use with a discrimination index; a discussion guide for each chapter; learning objectives linked to each chapter. **Claiming Abraham** Michael Lodahl, 2010-04-01. Many of the Bible's characters and stories are also found in the Qur'an, but there are often differing details or new twists in the Qur'an's retelling of biblical narrative. In this compelling book, seasoned theologian Michael Lodahl explores these fascinating divergences to discover the theological difference they make. Writing from a Christian perspective that is respectful of the Islamic tradition, Lodahl offers an accessible introduction to Muslim theology and to the Qur'an's leading themes to help readers better understand Islam. Lodahl compares and contrasts how the Bible and the Qur'an depict and treat certain characters in common to both religions, including Noah, Abraham, Moses, and Jesus. He offers theological reflection on doctrines held in common by Christians and Muslims, such as creation, revelation, and the resurrection of the body. Lodahl also explores the Jewish tradition as an important source for understanding the Qur'an.

*Animal Sacrifice and the Death Penalty* Giosuè Ghisalberty,2021-12-03 The slaughter of animals as a religious ritual and the execution of human beings as a judicial one was an interrelated phenomenon in the ancient world Writings from different traditions had to be interpreted in relation to each other for the connection between two sacred rituals to be made The history of the death penalty within the textual traditions of Judaism and ancient Greece could be traced to specific commandments beginning in Genesis and in laws specified as early as in Hesiod's Theogony in each case however with far from unambiguous conclusions despite their divine origins in YHWH or Zeus An ever present uncertainty in the nature of the death penalty pervades the writings of the Bible from Genesis to the Gospels of Jesus as well as in the mytho poetic world of Hesiod the tragedy of Aeschylus and Socratic philosophy as represented in Plato's dialogues Scholarship has not considered the importance of these two interrelated traditions insofar as both expose the specific characteristics of violence and killing within the institutions of religion and the law The creation of religious rituals and the acts of the law are inseparable and essential to the authority of the politico religious state Animal sacrifice and the death penalty serve as the pillars of social legitimacy in the ancient world

Origin Stories in Political Thought Joanne Harriet Wright,2004-01-01 Origin stories are a recurring motif in the history of political thought Presented as narratives that describe the beginnings of politics and power these stories are among the most provocative and politically contentious means by which Western society organizes and represents its experience Indeed as scripts of citizenship origin stories seek to manufacture consent to a preconceived and hierarchical political vision Joanne H Wright's *Origin Stories in Political Thought* examines Plato's Timaeus Hobbes's story of the state of nature and the social contract and early Second Wave feminist stories about the beginnings of patriarchal social relations Using a historically sensitive feminist methodology Wright documents and deconstructs the tradition of telling origin stories in the larger history of political thought Although individual tales have been assessed in current scholarship the motif of the origin story itself has until now escaped systematic analysis With meticulous research and convincing conclusions *Origin Stories in Political Thought* makes a groundbreaking and valuable contribution to both feminist and

political studies      **Abysmal** Gunnar Olsson,2010-03-15 People rely on reason to think about and navigate the abstract world of human relations in much the same way they rely on maps to study and traverse the physical world Starting from that simple observation renowned geographer Gunnar Olsson offers in *Abysmal* an astonishingly erudite critique of the way human thought and action have become deeply immersed in the rhetoric of cartography and how this cartographic reasoning allows the powerful to map out other people's lives A spectacular reading of Western philosophy religion and mythology that draws on early maps and atlases Plato Kant and Wittgenstein Thomas Pynchon Gilgamesh and Marcel Duchamp *Abysmal* is itself a minimalist guide to the terrain of Western culture Olsson roams widely but always returns to the problems inherent in reason to question the outdated assumptions and fixed ideas that thinking cartographically entails A work of ambition scope and sharp wit *Abysmal* will appeal to an eclectic audience to geographers and cartographers but also to anyone interested in the history of ideas culture and art      *The Oxford Handbook of Biblical Narrative* Danna Fewell,2016-06-01 Comprised of contributions from scholars across the globe *The Oxford Handbook of Biblical Narrative* is a state of the art anthology offering critical treatments of both the Bible's narratives and topics related to the Bible's narrative constructions The Handbook covers the Bible's narrative literature from Genesis to Revelation providing concise overviews of literary critical scholarship as well as innovative readings of individual narratives informed by a variety of methodological approaches and theoretical frameworks The volume as a whole combines literary sensitivities with the traditional historical and sociological questions of biblical criticism and puts biblical studies into intentional conversation with other disciplines in the humanities It reframes biblical literature in a way that highlights its aesthetic characteristics its ethical and religious appeal its organic qualities as communal literature its witness to various forms of social and political negotiation and its uncanny power to affect readers and hearers across disparate time frames and global communities      **The Mystery of Eve and Adam** Ron Moe-Lobeda,2012-03-02 What if the story of Eve and Adam was not meant to be a story about creation and the origin of life What if Eve and Adam were not personifications of all women and men What if the curse on the woman had nothing to do with the physical pain of giving birth What if working by the sweat of the brow was a description of the slavery that existed under the monarchy What if being cast out of the garden of Eden was a metaphor for the deportation of people from Judah to Babylon The author of this book takes readers on a journey of inquiry leading to the conclusion that the story of Eve and Adam was authored by the theological school of Jeremiah in order to dissuade the Judean people never to reinstate the monarchy after their return from Babylon a monarchy that previously was responsible for so much infant mortality subjugation of women and enslavement of its own people At the heart of this journey is the discovery that Eve and Adam actually are metaphors for Israel and Judah two nations that chose to have a king like other nations and suffered the consequences      **A misunderstood miracle: an essay in favour of a new interpretation of 'the sun standing still' in Joshua x.12-14** Abram Smythe Palmer,1887      *The New Cambridge History of the Bible: Volume 1, From the Beginnings to*

German, 2016-05-27 The sin narratives of Genesis 3 and 4 have been scrutinized by biblical interpreters throughout the centuries Some exegetical traditions have separated the story of Cain Abel from the preceding Edenic narrative thus undermining the unity of the Primeval History The book synthesizes the sin narratives of Adam Eve and Cain Abel and examines a wide range of premodern biblical interpretations attesting to their literary and theological unity This study makes a case for reading these primordial narratives as one familial saga that conveys to the reader the origins of human defiance against God Bonhoeffer's New Beginning Andrew D. Dietrich Bonhoeffer's life affirming answer to how we begin again after devastation Combining scholarly rigor and existential honesty DeCort argues that Bonhoeffer offers an ethical and moral vision of radical hope vis vis the perceived absence of God in the face of devastation
