*Comics and Conquest* Rhiannon Koehler, 2023-11-21 The untold story of Navajo and Hopi resistance and solidarity in the face of forced removal by the US government as documented by tribal editorial cartoons For generations US politicians and energy companies attempted to gain access to the coal and uranium in the Four Corners region where Arizona New Mexico Colorado and Utah meet The land on which they found billions of tons of high grade coal in 1909 however was reserved for the Navajo Din and Hopi peoples and not accessible to extractive enterprise Despite Din and Hopi protests US officials gained access to the coal rich land on Black Mesa in Arizona by purposely fabricating and fueling conflict between the Din and the Hopi In *Comics and Conquest* historian Rhiannon Koehler documents the story of this conflict through an engaging analysis of historical Navajo and Hopi editorial cartoons Despite the false narrative that the conflict was driven by inter tribal animosity and that the subsequent forced removals of

thousands of Indigenous peoples were part of a plan to keep the peace the cartoons that Koehler shares reveal a rich history of artistic activism and Hopi Din solidarity against this land grab The content and claims featured in political cartoons published in the tribal newspapers Qua Toqti and the Navajo Times in the late 1960s and early 1970s were some of the most critical tools for both coping with the threats of industry and exposing the history of exploitation as it carries on into the present The conflict popularly known as the Navajo Hopi Land Dispute was presented in mainstream media as an egregious threat to US interests Acutely aware of their land's value and the minerals and other resources on it Din and Hopi political cartoonists used their medium to assert their protest and agency identify the true instigators of the dispute and expose and counter the myth that the conflict had intertribal origins Koehler shows how tribal activism and media ultimately resulted in international recognition of the harms perpetrated by the federal government on Din and Hopi soil

**Indian Alliances and the Spanish in the Southwest, 750-1750** William B. Carter, 2012-12-04 When considering the history of the Southwest scholars have typically viewed Apaches Navajos and other Athabaskans as marauders who preyed on Pueblo towns and Spanish settlements William B Carter now offers a multilayered reassessment of historical events and environmental and social change to show how mutually supportive networks among Native peoples created alliances in the centuries before and after Spanish settlement Combining recent scholarship on southwestern prehistory and the history of northern New Spain Carter describes how environmental changes shaped American Indian settlement in the Southwest and how Athapaskan and Puebloan peoples formed alliances that endured until the Pueblo Revolt of 1680 and even afterward Established initially for trade Pueblo Athapaskan ties deepened with intermarriage and developments in the political realities of the region Carter also shows how Athapaskans influenced Pueblo economies far more than previously supposed and helped to erode Spanish influence In clearly explaining Native prehistory Carter integrates clan origins with archeological data and historical accounts He then shows how the Spanish conquest of New Mexico affected Native populations and the relations between them His analysis of the Pueblo Revolt reveals that Athapaskan and Puebloan peoples were in close contact underscoring the instrumental role that Athapaskan allies played in Native anticolonial resistance in New Mexico throughout the seventeenth century Written to appeal to both students and general readers this fresh interpretation of borderlands ethnohistory provides a broad view as well as important insights for assessing subsequent social change in the region
