In The Center Of The Nation:

Popularizing the Nation Kirsten Belgium, 1998-01-01 In countless articles on culture politics landscape industry history and other topics the Gartenlaube played an influential role in nineteenth century Germany's larger effort to forge a national identity for itself In fact Belgium argues that the search for and development of national identity in Germany was inextricably linked to the writings of the Gartenlaube and other popular magazines Such publications served both as a public repository of mythic memory for the nation and as a source of new national images for a self consciously modern Germany The Mystifications of a Nation Vladimír Macura, 2010-11-18 A keen observer of culture Czech writer Vladimír Macura 1945-99 devoted a lifetime to illuminating the myths that defined his nation *The Mystifications of a Nation* the first book length translation of Macura's work in English offers essays deftly analyzing a variety of cultural phenomena that originate Macura argues in the big bang of the nineteenth century Czech National Revival with its celebration of a uniquely Czech identity In reflections on two centuries of Czech history he ponders the symbolism in daily life Bridges for example once a force of civilization connecting diverse peoples became a sign of destruction in World War I Turning to the Soviet and post Soviet eras Macura probes a range of richly symbolic practices from the naming of the Prague metro system to the mass gymnastic displays of the Communist period to post Velvet Revolution preoccupations with the national anthem In *The Potato Bug* he muses on one of the stranger moments in the Cold War the claim that the United States was deliberately dropping insects from airplanes to wreak havoc on the crops of Czechoslovakia While attending to the distinctively Czech elements of such phenomena Macura reveals the larger patterns of Soviet brand socialism We were its cocreators he declares and its analysis touches us as a scalpel turned on its own body Writing with erudition irony and wit Macura turns the scalpel on the authoritarian state around him demythologizing its mythology **The Nation's Schools** Michael Vincent O'Shea, 1929

The Nation's Rural Elderly United States. Congress. Senate. Special Committee on Aging, 1977 **The Nation, Europe, and the World** Hanna Schissler, Yasemin Nuhoğlu Soysal, 2005 Textbooks in history geography the social sciences provide important insights to the ways in which societies function Based on case studies from Europe Japan the United States this volume shows how concepts of space time have changed people's view of their countries of the world as a whole **The Nation**, 1908 Report on Cooperative Research to Improve the Nation's Schools United States. Office of Education. Bureau of Research, 1966 *After the Nation* Pedro García-Caro, 2014-07-07 *After the Nation* proposes a series of groundbreaking new approaches to novels essays and short stories by Carlos Fuentes and Thomas Pynchon within the framework of a hemispheric American studies García Caro offers a pioneering comparativist approach to the contemporary American and Mexican literary canons and their underlying nationalist encodement through the study of a wide range of texts by Pynchon and Fuentes which question and historicize in different ways the processes of national definition and myth making deployed in the drawing of literary borders *After the Nation* looks at these literary narratives as postnational satires

that aim to unravel and denounce the combined hegemonic processes of modernity and nationalism while they start to contemplate the ensuing postnational constellations These are texts that playfully challenge the temporal and spatial designs of national themes while they point to and debase holy borders international borders as well as the internal lines where narratives of nation are embodied and consecrated StartFragment

Creating a Latino Identity in the Nation's Capital Olivia Cadaval,2021-11-01 First published in 1999 in this study the author uses the annual Latino Festival as a framework for focusing the action and integrating many important informal and formal aspects of the Washington D C Latino Community She demonstrates how the festival became a stage where relationships were defined networks established and identity enacted and provided my window into the history and development of the community For this study she was interested in an interpretative framework appropriate to festival which would reflect the multiple voices and points of view found within the community Seeking the voices of leaders and community members in interviews and in Spanish and English language newspapers

Saving the Nation Margherita Zanasi,2010-02-15 Economic modernity is so closely associated with nationhood that it is impossible to imagine a modern state without an equally modern economy Even so most people would have difficulty defining a modern economy and its connection to nationhood In *Saving the Nation* Margherita Zanasi explores this connection by examining the first nation building attempt in China after the fall of the empire in 1911 Challenging the assumption that nations are products of technological and socioeconomic forces Zanasi argues that it was notions of what constituted a modern nation that led the Nationalist nation builders to shape China s institutions and economy In their reform effort they confronted several questions What characterized a modern economy What role would a modern economy play in the overall nation building effort And how could China pursue economic modernization while maintaining its distinctive identity Zanasi expertly shows how these questions were negotiated and contested within the Nationalist Party Silenced in the Mao years these dilemmas are reemerging today as a new leadership once again redefines the economic foundation of the nation

Framing the Nation Alison J. Murray Levine,2011-11-03 *Framing the Nation* Documentary Film in Interwar France argues that between World Wars I and II documentary film made a substantial contribution to the rewriting of the French national narrative to include rural France and the colonies The book mines a significant body of virtually unknown films and manuscripts for their insight into revisions of French national identity in the aftermath of the Great War From 1918 onwards government institutions sought to advance social programs they

believed were crucial to national regeneration They turned to documentary film a new form of mass communication to do so Many scholars of French film state that the French made no significant contribution to documentary film prior to the Vichy period Using until now overlooked films *Framing the Nation* refutes this misconception and shows that the French were early and active believers in the uses of documentary film for social change and these films reached audiences far beyond the confines of commercial cinema circuits in urban areas **Nursing the Nation** Jean C. Whelan, 2021-02-12 *Nursing the Nation* explores how nurses became employees of hospital and care agencies rather than independent individual contractors It also demonstrates how nurses missed opportunities to control their own destinies in practice but gained the ability to establish themselves as the most critical part of health care today **Status and Trends of the Nation's Biological Resources** ,1998 *Greater St. Louis* ,1926 **Report to the Nation on Crime and Justice** ,1988 *NAEP 1998 Reading Report Card for the Nation and the States* ,1999 Presents the results of the 1998 NAEP reading assessment for the nation and for participating states or jurisdictions Results in 1998 are compared to those in 1994 and 1992
