In The Killing Fields Of Mozambique:

In the Killing Fields of Mozambique Peter Hammond, 1998 *The Good American* Robert D. Kaplan, 2021-01-26 From the New York Times bestselling author of *The Revenge of Geography* comes a sweeping yet intimate story of the most influential humanitarian you've never heard of Bob Gersony who spent four decades in crisis zones around the world One of the best accounts examining American humanitarian pursuits over the past fifty years With still greater challenges on the horizon we will need to find and empower more people like Bob Gersony both idealistic and pragmatic who can help make the world a more secure place The Washington Post In his long career as an acclaimed journalist covering the hot moments of the Cold War and its aftermath bestselling author Robert D Kaplan often found himself crossing paths with Bob Gersony a consultant for the U S State Department whose quiet dedication and consequential work made a deep impression on Kaplan Gersony a high school dropout later awarded a Bronze Star for his service in Vietnam conducted on the ground research for the U S government in virtually every war and natural disaster zone in the world In Thailand Central and South America Sudan Chad Mozambique Rwanda Gaza Bosnia North Korea Iraq and beyond Gersony never flinched from entering dangerous areas that diplomats could not reach sometimes risking his own life Gersony's behind the scenes fact finding which included interviews with hundreds of refugees and displaced persons from each war zone and natural disaster area often challenged the assumptions and received wisdom of the powers that be on both the left and the right In nearly every case his advice and recommendations made American policy at once smarter and more humane often dramatically so In Gersony Kaplan saw a powerful example of how American diplomacy should be conducted In a work that exhibits Kaplan's signature talent for combining travel and geography with sharp political analysis *The Good American* tells Gersony's powerful life story Set during the State Department's golden age this is a story about the loneliness sweat and tears and the genuine courage that characterized Gersony's work in far flung places It is also a celebration of ground level reporting a page turning demonstration by one of our finest geopolitical thinkers of how getting an up close worm's eye view of crises and applying sound reason can elicit world changing results Nationalism and Territoriality in Barue and Mozambique André Van Dokkum, 2020-05-06 Nationalism as an ideology coupling self conscious peoples to fixed territories is often seen as emerging from European historical developments also in postcolonial countries outside Europe Andr van Dokkum's *Nationalism and Territoriality in Barue and Mozambique* shows that this view is not universally true The precolonial Kingdom of Barue in what is now Mozambique showed characteristics generally associated with nationalism giving the country great resilience against colonial encroachment Postcolonial Mozambique on the other hand has so far not succeeded in creating national coherence The former anti colonial organization and now party in power Frelimo has always stressed national unity but only under its own guidance paradoxically producing disunity **A Far-Away War** Ian Liebenberg, 2016-01-31 South Africa's armed forces invaded Angola in 1975 setting off a war that had consequences for the whole region that are still felt

today A Far Away War contributes to a wider understanding of this war in Angola and Namibia The book does not only look at the war from an e olde South African Defence Force perspective but also gives a voice to participants e on the other sidee emphasising the role of the Cubans and Russians This focus is supplemented by the inclusion of many never before published photographs from Cuban and Russian archives and a comprehensive bibliography

Deadly Developments Stephen and Downs Reyna,2005-08-04 Ten anthropologists trace the machinations of war and the effects of violence in capitalist states from their formation to the present This collection the newest volume in the War and Society series questions the foundations of classical social theory while investigating local and international conflict through the critical and cross cultural lens of social theory history and anthropology The essays combine to challenge the notion developed by social theorists such as Comte Spencer Durkheim and Engels that war will diminish with the formation and the perpetuation of a capitalist economy and industry The development of capitalist states and the nefarious and violent processes which must occur to reproduce capitalism are rarely realized and then infrequently analyzed Many western and ethnocentric scholarly representations of war succeed in hiding the deadly developments that occur as a result of capitalist state formation and relations

Beyond the Killing Fields Sydney Hillel Schanberg,2010 Warfare defence *Bridges To The Future* Hans-Joachim Spanger,2019-03-11 With the ending of white minority rule in South Africa the democratic elections in Mozambique and the renewed efforts at a negotiated settlement of civil war in Angola Southern Africa has entered a new era Much more is required however to ensure lasting peace and security The states on the subcontinent are confronted with the twofold task of

The Killing Fields of Third World Women Elnora Worder,2006 **A Different Kind of War Story** Carolyn Nordstrom,1997-10-14 A deeply researched study into the nature of political violence

Twentieth Century Africa Ruth Nora Cyr,2001 Twentieth Century Africa resembles a moving picture travelogue in conveying pertinent information to the reader about the 53 countries of Africa a continent that is getting much attention these days The writer offers a thorough description of each country including the languages spoken religious beliefs resources political ideologies average incomes relationships with the United States and specific attributes and problems Readers will learn that many of the countries contain valuable resources such as gold copper uranium and various minerals and they will become more familiar with countries that have been prominent in the news Egypt Tunisia Algeria the Sudan and Rwanda Furthermore the author discusses the wildlife habitat of each country This is a very readable book that includes material that is fascinating and sometimes disheartening but always appealing The book also contains maps associated with each country and a reference map of all of Africa including the six off shore countries

Casualties of the New World Order M. Wesley,1997-07-14 Casualties of the New World Order contends that the high rate of failure among post Cold War UN missions are attributable to common weaknesses which are vulnerable to civil war dynamics These mission weaknesses derive from the high level of control over the missions mandates and operations wielded by combinations of self interested and distracted UN member

states The effects of these weaknesses are examined in the failed missions in Bosnia Somalia and Angola while their absence is observed in the successful missions to El Salvador Mozambique and Cambodia **Violence** Catherine Besteman,2002-06 This multi disciplinary anthology explores the topic of violence from a wide variety of perspectives It looks at state violence anti state violence and criminal violence such as armed robbery **The Culture-Wise Family** Theodore Baehr,Pat Boone,2007-02-05 Sex Graphic killings Profanity Adultery Flip on the television head for the movie theater or open a newspaper and you can t get away from it How do you raise a family in a world supersaturated with media extolling toxic values that are not your own Media critic Dr Ted Baehr and legendary entertainer Pat Boone draw from their own extensive experiences and interviews with experts to help readers understand the power of the media and its influence on families They also examine the ongoing threats to family values by those in the media who promote a humanistic worldview Media consumers are challenged to understand their own worldviews make wise choices and are given the information they need to do so Baehr and Boone also look at the progress that has been made in family values programming in Hollywood and offer hope for the future **Civil Wars of the World** Karl DeRouen Jr.,Uk Heo,2007-05-10 This unique two volume reference is the most authoritative up to date resource available for information and data on the most volatile civil wars around the globe since World War II At a time when historians are devoting more and more research to conflicts within nations Civil Wars of the World Major Conflicts since World War II is an invaluable addition to the available resources In two volumes it ranges around the globe to cover the most volatile and deadly civil wars of the past 60 years including the bloody impasses in the Middle East devastating tribal warfare in Africa Cold War fueled conflicts in Eastern Europe and Asia the seemingly unbreakable cycle of rebellion and repression in some regions of Latin America and more Civil Wars of the World moves country by country to describe the causes course and consequences of internal conflicts within each nation Coverage includes the historical background of each country geographic and economic factors descriptions of rebel groups and governments e g regime type size of military capacity terrorism foreign and or intergovernmental organization IGO intervention UN foreign support for rebels foreign aid and prospects for peace No More Killing Fields David A. Hamburg,2002 Drawing on work conducted by the Carnegie Commission on Preventing Deadly Conflict a study of the prevention of war and genocide examines such concepts as preventive diplomacy the role of civil society socioeconomic development and international cooperation **AF Press Clips** ,1988 How Cambodia Survived the Killing Fields Michael Haas,2025-07-26 *Unspeakable Truths 2e* Priscilla B. insecurity in Africa Extremist organisations represent the fluid and variable nature of conflict systems today and are at the heart of some of Africa's most enduring conflicts Moreover the inability of African states to contain the threat of extremism or of heavy handed security responses has led to the loss of thousands of lives displaced millions and deeply impacted the continent's democratisation and development goals This is the second anthology published by Good Governance Africa GGA on the topic of extremism and political violence in Africa Extremisms in Africa one of the first anthologies of its kind on this topic to be authored and published on the African continent provided an account of how extremist groups arose in Africa and the various ways in which they have harnessed their global agendas to local conflict dynamics and structural challenges enabling them to exploit the grievances of individuals and communities for their cause This anthology Extremisms in Africa Volume 2 looks forward giving special attention to the ways in which emergent trends global geopolitics and conflict dynamics merge to impact upon the African continent To this end we have sought to engage diverse topics ranging from ecological concerns surrounding climate change and migration the implications of such human movement for modern day trafficking and slavery and the roles of women and youth State responses to extremism on the African continent are not uniform the capacity of individual states to detect identify police investigate and prosecute is highly variable At the most fundamental level extremism is ripe to arise in contexts where governments are failing especially when democracy is on the wane This anthology identifies some of the most pressing challenges in addressing extremism today and provides chapters that could offer actionable policy insights to governments and civil society Given the nature of Africa's geopolitical landscape state and security services alone cannot prevent extremism It will take a whole of society approach where government civil society academia communities families and individuals collaborate to better understand the local dynamics of recruitment and radicalisation and develop context specific strategies in response This anthology will hopefully provide practitioners with improved insight into some of the key challenges and potential solutions in preventing extremism while also being of interest to the general reader
