Hartman's work presents a surprisingly consistent and original position in current debates in literary and cultural studies. Vermeulen identifies a persistent belief in the potency of aesthetic mediation at the heart of Hartman's project and shows how his work repeatedly reasserts that belief in the face of institutional cultural and intellectual factors that seem to deny the singular importance of literature. The book allows Hartman to emerge as a major literary thinker whose relevance extends far beyond the domains of Romanticism of literary theory and of trauma studies.

The Limit of the Useful Georges Bataille, 2023-02-07 The first English language translation of an essential early work key to understanding the French philosopher's later thought. In the decade prior to the publication of *Inner Experience*, L'expérience intérieure, the twentieth-century French philosopher Georges Bataille produced a nascent masterwork containing some of his most original and extensive reflections on a range of subjects. With thoughts on ritual sacrifice and military conquest, the nature of laughter and the mechanisms of capitalism, *The Limit of the Useful* as Bataille had planned to title the work illuminates the philosopher's later corpus yet it remained unfinished and unpublished in his lifetime and untranslated until now. This is the first English language translation of what Cory Austin Knudson and Tomas Elliott argue is one of Bataille's most structurally consistent works. Paired with draft essays and plans for *The Accursed Share* along with over a hundred pages of appendixes and notes, the volume distinctively elaborates Bataille's thought. *The Limit of the Useful* spans a decade of rich intellectual ferment in Bataille's life as he first formulated his challenge to capitalism engaging with concepts and ideas in ways not seen in his other published works. The volume bridges the gap between Bataille's surrealist literary writings and later scientific pretensions, drawing attention to and filling in an overlooked lacuna in his oeuvre.

Hubris and Progress Carlo Bordini, 2019-03-14 This book explores the ancient question of why man seeks to go beyond his limits. A presumptuous tendency known by the ancient Greeks as hubris and believed to be punished by the gods, it developed from a need for our survival to a habit as humanity has subdued animals, dominated nature, increased knowledge and sought even to overcome death. It also lies behind the crisis of our time as the values of democracy, freedom, equality and progress have been weakened, sacrificed to excess as we live in an eternal present dominated by greed and indifference regarding the future. Addressing this crisis of our interregnum period in which faith has been lost in the former certainties of modernity such as science, progress and the idea of a better world, the author considers whether redemption for humanity might lie in our hubristic tendencies as these give us scope to deviate from the existing path and find new ways forward.

The Music of Theology Andrew Hass, Mattias Martinson, Laurens ten Kate, 2024-02-01 This book reconceives theology as a musical endeavour in critical tension with language space and silence An Overture first moves us from music to religion and then from theology back to music a circularity that drawing upon history sociology phenomenology and philosophy disclaims any theology of music and instead pursues the music in theology The chapters that follow explore the three central themes by way of theory music and myth Adorno Benjamin and Deleuze language Derrida Rosa and Nancy space Schelling Hegel Homer and Cage silence In overdubbing each other these chapters work towards theology as a sonorous rhythm between loss and freedom A Coda provides three brief musical examples Thomas Tallis Gy rgy Ligeti and Evan Parker as manifestations of this rhythm to show in summary how music becomes the very pulse of theology and theology the very intuition of music The authors offer an interdisciplinary engagement addressing fundamental questions of the self and the other of humanity and the divine in a deconstruction of modern culture and of its bias towards the eye over the ear The book harmonizes three scholarly voices who attempt to find where the resonance of our Western conceptions and practice musically and theologically might resound anew as a more expansive music of theology **Blake and the Methodists** M.
