Jamieson,1882 The Holy Bible: Book of Joshua-Book of Job Adam Clarke,1821 *An Explanation of the ceremonial
Lawes of Moses, as they are annexed to the tenne commandements, etc* John WEEMES,1632 **Recognizing Miracles in
Antiquity and Beyond** Maria Gerolemou,2018-04-23 In recent years scholars have extensively explored the function of the
miraculous and wondrous in ancient narratives mostly pondering on how ancient authors view wondrous accounts i e the
treatment of the descriptions of wondrous occurrences as true events or their use More precisely these narratives investigate
whether the wondrous pursues a display of erudition or merely provides stylistic variety sometimes such narratives even
represent the wish of the author to grant a rational explanation to extraordinary actions At present however two aspects of
the topic have not been fully examined a the ability of the wondrous miraculous to set cognitive mechanisms in motion and b
the power of the wondrous miraculous to contribute to the construction of an authorial identity that of kings gods or
narrators To this extent the volume approaches miracles and wonders as counter intuitive phenomena beyond cognitive
grasp which challenge the authenticity of human experience and knowledge and push forward the frontiers of intellectual
and aesthetic experience Some of the articles of the volume examine miracles on the basis of bewilderment that could lead to
new factual knowledge the supernatural is here registered as something natural although strange the rest of the articles
treat miracles as an endpoint where human knowledge stops and the unknown divine begins here the supernatural is
confirmed Thence questions like whether the experience of a miracle or wonder as a counter intuitive phenomenon could be
part of long term memory i e if miracles could be transformed into solid knowledge and what mental functions are
encompassed in this process are central in the discussion The scripture doctrine of miracles displayed George Hay,1873
