

In Search *of* God

Some thinker has said, 'A smattering of knowledge turns people away from God. Grater knowledge brings them back to Him'. The author concludes in this book by examining various theories that the choice humanity have is not between the universe with God and the universe without God. The real option is between the universe with God and no universe at all. Therefore humanity is compelled to opt for the proposition the universe with God. Hence it is logical to say I exist, therefore, God exists.

In Search Of God:

In Search of God Sherry Hill, 2017-03-17 All my life I have been a seeker seeking knowledge seeking truth and seeking a better way to live Because of my biological parents and their own struggles with life I believed that there had to be a better way to live than with constant trails addiction and anger I did not want to live that way or turn out that way I believed that if I sought God and sought his way that my life could be better happier and more successful Every day of my life I sought God in church services in Christian books in reading the Bible and in leaders that spoke plainly about their own struggles and how with Gods help they could overcome

In Search of God David A. Eisenbart, 2012-03 Truth is stranger than fiction Do you find the Bible to be a bit dull and boring Or is it just confusing Are you always asking questions but never finding answers Why is God invisible Is He hiding from us Or is He just playing a cosmic hoax while humanity is left to grapple in the dark Were Adam and Eve really embarrassed because they were naked Or was there something else they were trying to cover up Why would an omnipotent God go searching for mere mortals Could the answer be found in modern physics At one time in history it was dangerous to be a Christian but now it seems to be en vogue Has the modern church widened the narrow road that leads to life While nobody can take issue with Jesus magnificent sermons on love or His compassionate works of healing what about those volatile moments when He cursed a fig tree or flipped tables over in a temple Pearly gates Streets of gold A mansion in the sky Is that a description of heaven or of the Vegas Strip If reality is a two sided coin with both physical and spiritual dimensions then shouldn t we recalibrate our way of looking at things How can we understand what is happening in the visible universe until we first understand what is going on in a parallel invisible universe By unlocking deep spiritual mysteries embedded in the Bible In Search of God decoding reality will shatter the old paradigm which is nothing more than an illusion constructed by our five senses

In Search of God Mohamed Gad, 2004-12 The author shares his personal journey while investigating religious scriptures for evidence to support the presence of Divine Revelation The first section of the book begins with discussions supporting the existence of God and refuting Darwin yet also arguing for the co existence of evolution and creation Subsequently in the second section of the book the author examines the Koranic claim that the advent of the prophet Muhammad is foretold in the Torah and the Gospel Koran 7 157 The author traces this claim beginning with Ishmael the father of the Arabs whose Hebrew name means God Hears The Bible foretells that Ishmael s descendents would have a Great Nation Genesis 17 20 KJV In fulfillment of this promise Ishmael s sons Kedar and Tema Genesis 25 13 15 are part of Isaiah s prophetic vision Isaiah 21 11 17 and 42 1 11 as mentioned in the Old Testament s Book of Isaiah In the third section of this book the difficult yet challenging controversy surrounding the identity of Jesus a major point of contention between Judaism Christianity and Islam is examined The fourth part of this book deals mainly with Koranic scientific facts that only became common knowledge with recent discoveries Finally this book closes by examining the spiritual essence and commonalities of the world s three major religions
