**In Search of La Grande Illusion** Nicholas Macdonald,2013-11-22 This is an extended analysis of the film from different perspectives The first half is largely a discussion of the cinematic technique with key sequences analyzed shot by shot The second half approaches the film from many other angles including its history the critical reception Renoir's life and career and film theory e g film in relation to music A case is made that Renoir's career was inconsistent especially after La Règle du jeu but also during the 1930s And rather than emphasizing the humanist anti war thrust of La Grande Illusion the film is approached as a work of art that is deeply expressive cinematically **A Theory of the Tache in Nineteenth-Century Painting** ?stein Sj?ad,2017-07-05 Without question the tache blot patch stain is a central and recurring motif in nineteenth century modernist painting Manet's and the Impressionists rejection of academic

finish produced a surface where the strokes of paint were presented directly as patches or blots then indirectly as legible signs C nne Seurat and Signac painted exclusively with patches or dots Through a series of close readings this book looks at the tache as one of the most important features in nineteenth century modernism The tache is a potential meeting point between text and image and a pure trace of the artist s body Even though each manifestation of tacheism generates its own specific cultural effects this book represents the first time a scholar has looked at tacheism as a hidden continuum within modern art With a methodological framework drawn from the semiotics of text and image the author introduces a much needed fine tuning to the classic terms index symbol and icon The concept of the tache as a crossing of sign types enables finer distinctions and observations than have been available thus far within the Peircean tradition The sign crossing theory opens onto the whole terrain of interaction between visual art art criticism literature philosophy and psychology The Living and the Dead Toby Austin Locke,2016-10-18 The Living and the Dead examines the boundaries between the worlds of life and death The text draws upon philosophy ethnography literature and natural science to suggest that life and death are best understood not in opposition but as continuous tendencies acting upon one another Austin Locke argues that the failure to give nuanced consideration to the connections between the living and nonliving devalues both life and death In doing so he suggests that our ability to respond to the challenges of environmental degradation technological advancement and the dominance of economic logic depend in part on more fluid understandings of the relationship between life and death **R.**

**Mary Shelley** Barbara Johnson,2014-07-16 In 1980 deconstructive and psychoanalytic literary theorist Barbara Johnson wrote an essay on Mary Shelley for a colloquium on the writings of Jacques Derrida The essay marked the beginning of Johnson s lifelong interest in Shelley as well as her first foray into the field of women s studies one of whose commitments was the rediscovery and analysis of works by women writers previously excluded from the academic canon Indeed the last book Johnson completed before her death was Mary Shelley and Her Circle published here for the first time Shelley was thus the subject for Johnson s beginning in feminist criticism and also for her end It is surprising to recall that when Johnson

wrote her essay only two of Shelley's novels were in print critics and scholars having mostly dismissed her writing as inferior and her career as a side effect of her famous husband's. Inspired by groundbreaking feminist scholarship of the seventies Johnson came to pen yet more essays on Shelley over the course of a brilliant but tragically foreshortened career. So much of what we know and think about Mary Shelley today is due to her and a handful of scholars working just decades ago. In this volume Judith Butler and Shoshana Felman have united all of Johnson's published and unpublished work on Shelley alongside their own new insightful pieces of criticism and those of two other peers and fellow pioneers in feminist theory Mary Wilson Carpenter and Cathy Caruth. The book thus evolves as a conversation amongst key scholars of shared intellectual inclinations while closing the circle on Johnson's life and her own fascination with the life and circle of another woman writer who of course also happened to be the daughter of a founder of modern feminism.

**Love** Simon May, 2019-03-28 What is love's real intent? Why can love be so ruthlessly selective? How is it related to sex, beauty and goodness? And is the child now the supreme object of love? In addressing these questions Simon May develops a radically new understanding of love as the emotion we feel towards whomever or whatever we experience as grounding our life, as offering us a possibility of home in a world that we supremely value. He sees love as motivated by a promise of ontological rootedness rather than as two thousand years of tradition variously asserts by beauty or goodness by a search for wholeness by virtue by sexual or reproductive desire by compassion or altruism or empathy or in one of today's dominant views by no qualities at all of the loved one. After arguing that such founding Western myths as the Odyssey and Abraham's call by God to Canaan in the Bible powerfully exemplify his new conception of love May goes on to re-examine the relation of love to beauty, sex and goodness in the light of this conception offering among other things a novel theory of beauty and suggesting against Plato that we can love others for their ugliness while also seeing them as beautiful. Finally he proposes that in the Western world romantic love is gradually giving way to parental love as the most valued form of love namely the love without which one's life is not deemed complete or truly flourishing. May explains why childhood has become sacred and excellence in parenting a paramount ideal as well as a litmus test of society's moral health. In doing so he argues that the child is the first genuinely modern supreme object of love the first to fully reflect what Nietzsche called the death of God. Readers will find *Love* excitingly new yet immediately recognizable that's the paradox at the very heart of love and it is what Simon May has achieved. Los Angeles Review of Books

**Music and the Crises of the Modern Subject** Michael L. Klein, 2015-07-06 Departing from the traditional German school of music theorists Michael Klein injects a unique French critical theory perspective into the framework of music and meaning Using primarily Lacanian notions of the symptom that unnamable jouissance located in the unconscious and the registers of subjectivity the Imaginary the Symbolic Order and the Real Klein explores how we understand music as both an artistic form created by the subject and an artistic expression of a culture that imposes its history on this modern subject By creatively navigating from critical theory to music film fiction and back to music Klein distills the kinds of meaning that we have been missing when we perform listen to think about and write about music without the insights of Lacan and others into formulations of modern subjectivity
