The Flight of the Angels Alistair Charles Rolls, 2023-11-27 It is a close study of four novels by Boris Vian It aims to show how *L'automne*, *Le kin*, *L'herbe rouge* and *L'arrache-cœur* form a unified and coherent tetralogy By establishing close links between these four texts it becomes possible to achieve a more comprehensive understanding not only of the significance of the tetralogy in exposing a complex and multi layered novelistic strategy at the heart of the vianesque but of the individual novels as autonomous creations An examination of the novels reveals that they are not merely joined to one another via a superficial network of textual similarities that which I refer to as intratextuality but that this intertwining is emblematic of a common method of narrative construction Each Vian novel is dependent for a thorough understanding of the text to be possible upon the multiple lines of external influence running through it The sources of this influence which I refer to as intertextuality are located in various major texts of twentieth century literature anglophone as well as francophone Thus in each instance the narrative is driven by a complicated interaction of intratextuality and intertextuality

On the Water Nathaniel Stone, 2003-07-08 I take a stroke and lean back gazing up into the jet skies bejeweled by the moon and the galaxies of stars The hull glides in silence and with such perfect balance as to report no motion I sit up for another stroke now looking down as the blades ignite swirling pairs of white constellations of phosphorescent plankton Two opposing heavens Remember this I think to myself Few people have ever considered the eastern United States to be an island but when Nat Stone began tracing waterways in his new atlas at the age of ten he discovered that if one had a boat it was possible to use a combination of waterways to travel up the Hudson River west across the barge canals and the Great Lakes down the Mississippi River to the Gulf of Mexico and back up the eastern seaboard Years later still fascinated by the idea of the island Stone read a biography of Howard Blackburn a nineteenth century Gloucester fisherman who had attempted to sail the same route a century before Stone decided he would row rather than sail and in April 1999 he launched a scull beneath the Brooklyn Bridge to see how far he could get After ten months and some six thousand miles he arrived back at the Brooklyn Bridge and continued rowing on to Eastport Maine Retracing Stone s extraordinary voyage On the Water is a marvelous portrait of the vibrant cultures inhabiting American shores and the magic of a traveler s chance encounters From Pittsburgh Pennsylvania where a rower at the local boathouse bequeaths him a pair of fabled oars to Vanceburg Kentucky where he spends a day fishing with Ed Taylor a man whose efficient simplicity recalls The Old Man and the Sea Stone makes his way stroke by stroke chatting with tugboat operators and sleeping in his boat under the stars He listens to the live strains of Dwight Yoakum on the banks of the Ohio while the world s largest Superman statue guards the nearby town square and winds his way through the Louisiana bayous where he befriends Scoober an old man who reminds him that the happiest people are those who ve got nothin He briefly adopts a rowing companion a kitten along the west coast of Florida and finds himself stuck in the tidal mudflats of Georgia Along the way he flavors his narrative with local history and lore and records the evolution of what started out as an adventure but became a lifestyle An extraordinary literary debut in the lyrical timeless style of William Least Heat Moon and Henry David Thoreau On the Water is a mariner s tribute to childhood dreams solitary journeys and the transformative powers of America s rivers lakes and coastlines Memories and Dreams. Poems. Volume 1. By Na Yama Na Yama, 2025-03-11 A Lyrical Exploration of Love Dreams and the Whispers of the Soul Love is more than a feeling it is a language a memory a dream that lingers beyond time In Memories and Dreams Poems Volume 1 Na Yama crafts an exquisite collection of poetry that captures the essence of romance nostalgia and the quiet beauty of the world With each verse the reader is invited into a realm where love is both a longing and a presence where emotions unfold like petals in the wind and where the echoes of the heart shape the fabric of dreams From the tender devotion of The Eternal Embrace to the dreamlike reverie of Journeys into the Dreamland this book explores the depths of

passion solitude and the ineffable connections between people and places Whether it s the haunting beauty of The Scent of You in the Rain or the reflective stillness of The River s Slow Secrets every poem is an invitation to feel remember and dream For readers who find solace in the poetic works of Pablo Neruda Khalil Gibran and Rainer Maria Rilke this collection is a journey into the heart s most intimate landscapes Download today and immerse yourself in a world where love and dreams intertwine in lyrical harmony

The Education of Mrs. Brimley Donna MacMeans,2007-10-02 Emma Brimley made one small fib in her application to teach at the Pettibone School for Young Ladies She claimed to be a widow But when she arrives in Yorkshire she is dismayed to learn that she s expected to prepare her students for the intimacies of marriage of which she knows nothing Her only hope of maintaining her place lies with the alluring Lord Nicholas Chambers a neighboring artist whose behavior is scarcely consistent with that of a gentleman True to his reputation Lord Bedchambers offers Emma a scandalous bargain He will answer her questions about anatomy and bedroom etiquette if she will pose for him in the Grecian fashion Though keenly aware of the dangers of such a scenario Emma determines to best the noble rou never thinking she may be risking her heart as well

Light a Candle in My Soul: Poems and Poetic Sketches Kerry Wade,2024-10-11 What is it that touches your soul warms your heart or enlightens your mind Do you dream and do you wonder What do you seek and what comes of your thoughts The Greeks sought according to Aeschylus to tame the savageness of man and make quiet the life of the world The Earth itself is a Being radiating outwards a consciousness that no matter the vineyard in which you toil each of us can reconnect with refresh and renew ourselves and perhaps even remake the world around us In an Age of Absurdity the soul s longing has an uncommon degree of strength in the beauty of expression Your thoughts and words change the world

To Soar Joan Moos,2011-11-18 How many of us have looked up to see the birds soaring effortlessly in the sky and wished that we could feel their freedom Those of us still earthbound can in a way soar if we open our hearts and minds to the limitless things around us A slight attitude adjustment is sometimes all that is needed to give us the feeling of calm so often sought and set our spirits free In *To Soar* Life is an Attitude Joan Moos shows us through her poetry that we

should make conscious choices to deal in a positive way with new situations in our lives Just a walk in the park can find a treasure trove of new wonders Leafing through a photo album can release memories of happy times and learning something new can be most rewarding In Part Six of To Soar Moos introduces us to the joy of actual soaring flight a pathway that she herself has taken There are always new horizons to see new wonders yet to behold and new goals still to pursue Each of us must continue to make the most of every moment that we have been granted and be ready to soar Vertebrate Flight Ulla M. Norberg, 2012-12-06 It has been great fun to write this book even though it has taken longer than planned and occasionally been exasperating The most difficult problem was deciding what to exclude among so many interesting things because the available material usually exceeded the space Because a book like this covers so many aspects each component must be limited This book is intended for graduate and undergraduate students as well as professional scientists who want to work with animal flight or to gain some insight into flight mechanics aerodynamics energetics physiology morphology ecology and evolution My aim has not been to give the whole mathematical explanation of flight but to provide an outline and summary of the main theories for the understanding of how aerofoils respond to an airflow I also hope to give the reader some insight into how flight morphology and the various wing shapes have evolved and are adapted to different ecological niches and habitats
