J. Saher, 2020-01-01 The basis of this book is a manuscript in Sanskrit which he obtained from India and its value lies in the depth and detail with which this new material has been studied and presented The author is to be congratulated not for his skilful translation from Sanskrit but also for the clarity with which he has applied this to western needs and western minds Much has been written in the past regarding the psychosomatic effects of Pranayama and Asanas but in his text Dr Saher explains clearly the mechanism by which brain and mind operate in conjunction with bodily functions emotions and psychic experience and also how these may be controlled and applied for our betterment He also shows how specific areas of the brain control similar areas of mind how these can be applied to Selfanalysis and using exercises also given in the text so control both mind and body that Self Realisation is possible in the highest sense and that even before this stage is reached

Health Harmony and Serenity will be attained surely to be prized for themselves alone This fascinating and profound book of ancient Eastern esoteric wisdom backed by the latest discoveries and experiments of modern science treats the health of the soul by showing the relationship between soul and brain Here is a practical guide to Zen Yoga which can help to master suffering and harness latent powers At a time when science is exploring outer space Zen Yoga helps us to explore the inner space of the human psyche to recognize within ourselves new freedom freedom to work out our destiny with integral consciousness or the divine supra Self as the light within This book is a cybernetic exploration of the mind s inner space leading to expanded cosmo electronic consciousness Having shown the differences between Eastern and Western thought processes Saher explains how the sages of the East have acquired that source of wisdom and bliss which our misguided youth seeks vainly in hallucinogenic drugs

**Falling in Love With Darkness** Osho, 2019-06-15 We have polluted our planet Earth with light Light pollution excessive and obtrusive artificial light with bright neon and LED lights in our cities and in our personal space continuously illuminated and artificial has removed something incredibly valuable from our lives and at the same time affected our ability to sleep rest and relax Falling in Love with Darkness is Osho s attempt to bring us again in contact with darkness but here in a spiritual and psychological context Why do we desire light he asks Why do we hanker so much for light Perhaps we never realize that the desire for light is a symbol of the fear rooted within us it is a symbol of fear We want light so that we can become free of that fear The mind is afraid in the dark The fear of darkness is based on the fear of being alone the fear of being alone comes together with the fear of darkness Darkness has its own bliss without falling in love with darkness you will be deprived of the capacity to love the great truths of life Next time you find yourself in darkness take a direct look into it and you will discover that it is not so frightening after all When darkness surrounds you become absorbed in it become one with it And you will find that darkness offers you something that light can never give you All the important mysteries of life are hidden in darkness These are talks by Osho given at a meditation camp where he introduces people in a direct and practical way to an understanding of meditation as a way to get acquainted with darkness to re discover that darkness is peace relaxation and stillness all through the simple method of witnessing Meditation means discovering the one who is beyond all happening and has never been a part of anything

**Buddhism and Society** Melford E. Spiro, 1982-05-27 The current Western interest in Buddhism and other Eastern religions is among other reasons both the result of and the stimulation for an entire library of books purporting to bring the Wisdom of the East to an audience for whom the wisdom of the West has failed This book is not an example of that genre It is an attempt to interpret Buddhism in the light of some current theories about religion As a work of scholarship rather than a homiletic tract or an apologetic treatise its aim is to understand Buddhism as one historical variant of the generic human attempt to find meaning and hope in a sacred order that transcends the mundane order of existence its aim is not to encourage or discourage either a devotional or a soteriological interest in Buddhism      Operation New Arrivals ,1975
