In The Name Of Language

Kevin Howard Goldberg

In The Name Of Language:

Gift of Language Alexander García Düttmann, 2000-01-01 This text focuses on the relevance of the proper name in the conceptions of language and history that inform the thought of Adorno Benjamin Heidegger and Rosenzweig Their interest in the proper name is because it does not simply operate as a conventional linguistic sign A specific experience of the Jewish religious tradition Adorno Benjamin Rosenzweig and a vision of poetry resulting from the reading of Hölderlin Heidegger lead to the idea of an absolute singularity it is a singularity that resists all conceptual identification and the proper name expresses this singularity in language In this analysis history is conceived as a movement that both betrays and tends towards the absolute singularity that manifests itself in the unsayable i.e. in the name of God or in poetical language questions of gesture translation and melancholia and the moment of apparition in the work of art are comprehensible within Dr Düttmann's discussion which should be of interest to students of language philosophy and theology

Power in the Name Joseph L. Kimmel, 2025-05-19 How do divine names channel power This project analyzes first of all the invocation of particular divine names e.g. Jesus Aphrodite to access power for activities like healing protecting and harming In so doing it focuses on texts and artifacts e.g. amulets from ancient Mediterranean communities including both early Christian documents and Greek magical papyri Additionally it compares these materials with empowered names from a very different context 10th century Tibet where names were similarly invoked to access otherworldly power based upon Indic understandings of language In both contexts therefore a primary feature of this project is the analysis of religious experience mediated via invocation of particular names The project then builds upon this primary level onomastic analysis to consider how and why names were believed to work in this manner Towards this end the work comparatively considers major onomastic theories from the ancient Mediterranean world including those of Plato Origen Tertullian and Iamblichus While the main focus of the project is the ancient Mediterranean world the book will also address the Indo-Tibetan linguistic theories undergirding artifacts from that context

The Name of God in Jewish Thought Michael T. Miller, 2015-10-16 One of the most powerful traditions of the Jewish fascination with language is that of the Name Indeed the Jewish mystical tradition would seem a two millennia long meditation on the nature of name in relation to object and how name mediates between subject and object Even within the tide of the 20th century's linguistic turn the aspect most notable in the almost entirely secular Jewish philosophers is that of the personal name here given pivotal importance in the articulation of human relationships and dialogue *The Name of God in Jewish Thought* examines the texts of Judaism pertaining to the Name of God offering a philosophical analysis of these as a means of understanding the metaphysical role of the name generally in terms of its relationship with identity The book begins with the formation of rabbinic Judaism in Late Antiquity travelling through the development of the motif into the Medieval Kabbalah where the Name reaches its grandest and most systematic statement and the one which has most helped to form the ideas of Jewish philosophers in the 20th and 21st Century This investigation

will highlight certain metaphysical ideas which have developed within Judaism from the Biblical sources and which present a direct challenge to the paradigms of western philosophy Thus a grander subtext is a criticism of the Greek metaphysics of being which the west has inherited and which Jewish philosophers often subject to challenges of varying subtlety it is these philosophers who often place a peculiar emphasis on the personal name and this emphasis depends on the historical influence of the Jewish metaphysical tradition of the Name of God Providing a comprehensive description of historical aspects of Jewish Name Theology this book also offers new ways of thinking about subjectivity and ontology through its original approach to the nature of the name combining philosophy with text critical analysis As such it is an essential

Kerr-Koch, 2013-04-11 *Romancing Fascism* argues that intellectual responsibility can only be safeguarded if criticism is mobilised both as a poetic and as a critically enlightened endeavour In this analysis of allegory as a function of modernity what is made clear is the difficulty if not impossibility of definitively determining the genealogical antecedents of intellectual trends particularly those considered pernicious to clear thinking Thus Kerr Koch takes a wide ranging approach to the analysis of allegory as it is treated by three controversial writers whose works flank the 19th and 20th centuries the middle and late periods of what we call modernity Walter Benjamin Paul de Man and Percy Bysshe Shelley These three writers have been chosen because they have been at some point recuperated for a theory of postmodernism a term that for some theorists represents liberal free play and for others represents a lack of rigour and a pernicious corruption of thought **A Grammar of Rhetoric and Polite Literature Comprehending the Principles of Language and Style, the Elements of Taste and Criticism with Rules for the Study of Composition and Eloquence ...
