In The Realm Of Appearances The Art Of Andy Warhol:

In the Realm of Appearances John Yau, 1993 By the time he died in 1987 Andy Warhol's notoriety extended far beyond the rarified confines of the New York art world beyond the fifteen minutes of fame he predicted for everyone's future and into the vast realm of pop culture Warhol's public image was no less fascinating or controversial than his portraits of Campbell's soup cans Brillo boxes and movie stars And the powerful mythology that surrounds both the man and his art continues to excite curiosity and demand attention Some critics have called Warhol an authentic visionary while others have branded him a charlatan In this unique series of prose meditations poet and art critic John Yau examines the artist's identity in the inseparable context of his work bringing fresh insight both to the surface and what may in fact be behind it Yau balances the polarized opinions about Warhol by considering the general state of affairs in twentieth century visual art and placing him in the context of such artistic influences and compatriots as Marcel Duchamp Jasper Johns Jeff Koons and composer John Cage He also explores Warhol's creative energy in terms of cultural stereotypes and psychological factors such as voyeurism vindictiveness fear of intimacy and need for acceptance What emerges from these meditations is a clear-eyed portrait of the myriad forces both internal and external that shaped the most highly acclaimed postwar artist in America Yau pinpoints and dissects the central irony of Andy Warhol's life and work that The artist who helped demystify art has it seems become an impenetrable mystery

Andy Warhol Wayne Koestenbaum, 2015-02-17 An intimate depiction of the visionary who revolutionized the art world A man who created portraits of the rich and powerful Andy Warhol was one of the most incendiary figures in American culture a celebrity whose star shone as brightly as those of the Marilyns and Jackies whose likenesses brought him renown Images of his silvery wig and glasses are as famous as his renderings of soup cans and Brillo boxes controversial works that elevated commerce to high art Warhol was an enigma a partygoer who lived with his mother an inarticulate man who was a great aphorist an artist whose body of work sizzles with sexuality but who considered his own body to be a source of shame In critic and poet Wayne Koestenbaum's dazzling look at Warhol's life the author inspects the roots of Warhol's aesthetic vision including the pain that informs his greatness and reveals the hidden sublimity of Warhol's provocative films By looking at many facets of the artist's oeuvre films paintings books Happenings Koestenbaum delivers a thought provoking picture of pop art's greatest icon

Thinking Its Presence Dorothy J. Wang, 2013-12-04 When will American poetry and poetics stop viewing poetry by racialized persons as a secondary subject within the field Dorothy J Wang makes an impassioned case that now is the time Thinking Its Presence calls for a radical rethinking of how American poetry is being read today offering its own reading as a roadmap While focusing on the work of five contemporary Asian American poets Li Young Lee Marilyn Chin John Yau Mei mei Berssenbrugge and Pamela Lu the book contends that aesthetic forms are inseparable from social political and historical contexts in the writing and reception of all poetry Wang questions the

tendency of critics and academics alike to occlude the role of race in their discussions of the American poetic tradition and casts a harsh light on the double standard they apply in reading poems by poets who are racial minorities This is the first sustained study of the formal properties in Asian American poetry across a range of aesthetic styles from traditional lyric to avant garde Wang argues with conviction that critics should read minority poetry with the same attention to language and form that they bring to their analyses of writing by white poets

Feast of Excess George Cotkin, 2015-11-13 In 1952 John Cage shocked audiences with 4 33 his compositional ode to the ironic power of silence From Cage's minimalism to Chris Burden's radical performance art two decades later in one piece he had himself shot the post war American avant garde shattered the divide between low and high art between artist and audience They changed the cultural landscape Feast of Excess is an engaging and accessible portrait of The New Sensibility as it was named by Susan Sontag in 1965 The New Sensibility sought to push culture in extreme directions either towards stark minimalism or gaudy maximalism Through vignette profiles of prominent figures John Cage Patricia Highsmith Allen Ginsberg Andy Warhol Anne Sexton John Coltrane Bob Dylan Erica Jong and Thomas Pynchon to name a few George Cotkin presents their bold headline grabbing performances and places them within the historical moment This inventive and jaunty narrative captures the excitement of liberation in American culture The roots of this release as Cotkin demonstrates began in the 1950s boomed in the 1960s and became the cultural norm by the 1970s More than a detailed immersion in the history of cultural extremism Feast of Excess raises provocative questions for our present day culture

Art and Money Peter Stupples, Jane Venis, 2015-10-05 Art and money have much in common Both are spheres of social activity that carry symbolic values A coin is simply a piece of metal stamped with signs to give it symbolic meaning to give it a value a value that changes with the vicissitudes of its economic life or when no longer legal tender with its life as a collectable A painting is a piece of canvas stretched on a frame to make it taut which is then covered with pigment brushed with an image a sign that gives it value a value that changes with the vicissitudes of its aesthetic and symbolic life with its commodity value Art and money come together whenever the values of both are exchanged within a market in trade between artist and client patron between dealer and customer between competitors for social authority These relationships of art and money are examined by a number of writers from a variety of perspectives from different periods in history within different cultures and engaging with different media of art from Renaissance Italy to Pop Art and the recent flourishing of the art of Australian Aborigines from critiques of the market and contemporary art to the funding of art education from an examination of the values that are being bought and sold to ways for artists to avoid an over engagement with the money economy and finally the relationship between art national identity and coinage

hEar The Visual in Music Simon Shaw-Miller,2017-07-05 Eye hEar The Visual in Music employs the concept of the visual in proximate relation to music producing a tension is it not the case that there is a gulf between painting and music between the visible and the audible One is full of colour and light yet silent one is invisible and marvellously noisy Such a belief this book argues betrays an ideological constraint on music desiccating it to sound and art to vision The starting point of this study is more hybrid and hydrating that music is never employed without numerous and complex intersections with the visual By involving the concept of synaesthesia the book evokes music s multi sensory nature stops it from sounding alone and offers music as a subject for art historians Music bleeds into art and visuality in its graphic depiction in notation in the theatre of performance its sights and sites This book looks at music in its absolute guise as a model for art at notation and the conductor as the silent visual fulcrum around which music circulates at the music and image of Erik Satie at the concert hall as white cube at the symphonic film 2001 A Space Odyssey and at the liminality of John Cage and Andy Warhol **Local**
