the polemics and controversies which have marked the field over the last quarter of a century since the Journal's foundation in 1992. Emerging at a moment of crisis of revolutionary narratives and at the onset of neoliberal economics and emergent narcopolitics, the cultural studies impetus in Latin America was part of an attempted intellectual reconstruction of the centre left in terms of civil society and the articulation of social movements and agencies thinking beyond the verticalist constructions from previous decades. This collection maps these developments from the now classical discussions of the cultural turn to more recent responses to the challenges of biopolitics, affect theory, posthegemony and ecocriticism. It also addresses novel political constellations including resurgent national popular or eco-nativist and indigenous agencies. Framed by a critical introduction from the editors, this volume is both a celebration of influential essays published over twenty-five years of the Journal and a representative overview of the field in its multiple ramifications, entrenchments and exchanges.

Key of Cortes L. Sparklingwater, 2018-11-02. *Key of Cortes* By L. Sparklingwater. With this her second novel *Key of Cortes*, L. Sparklingwater has once again created a riveting and totally engrossing narrative. This time the locale is Mexico on the eve of the date according to the Mayan Calendar when the world would come to an end. The world does not come to an end of course, but the drama leading up to this moment is quickly replaced by a more compelling one when Laura, the story's protagonist, finds herself in the possession of an ancient key that will unlock a vast treasure over five hundred years old. The problem for Laura is staying alive long enough to locate the treasure. A lot of other people want that key, and some of them will stop at nothing to get it. But the novel is more than just a thrilling chase. The narrative totally envelops the reader in the colorful local culture and customs and the rich spiritual inheritance of Mesoamerica. Tom Hyman, author of *Seven Days to Petrograd*. The world was supposed to end on December 21, 2012. The Mayan Calendar, an ancient system for tracking the paths of the stars, inexplicably ran out on that precise date. The world might not have ended, but not all was well in Mexico on December 22nd. Long before her adventures in *You May Have the Universe*, Laura Alexander was on the scene, and as she would soon discover, trouble had a way of finding her. A twist of fate puts Laura at the center of a hotly contested treasure hunt, and the target of government agents, organized crime, and agents from the Vatican. Danger and betrayal become commonplace for the plucky, attractive cub reporter. Could the key she is protecting really be the fabled Key of Cortes, the secret to unlocking a mystery door to a hidden trove of unimaginable wealth?

Joseño Ignacio Bizarro Ujpán, 2001. His vivid and plain-spoken account of life among the Maya during the war between guerrillas and the army in the 1980s and 1990s offers detailed descriptions of the atrocities committed by both sides and brings the reader into a Mayan world richly textured with indigenous beliefs and practices.
