**Alexius Meinong, The Shepherd of Non-Being** Dale Jacquette, 2015-07-13 This book explores the thought of Alexius Meinong a philosopher known for his unconventional theory of reference and predication The chapters cover a natural progression of topics beginning with the origins of Gegenstandstheorie Meinong s theory of objects and his discovery of assumptions as a fourth category of mental states to supplement his teacher Franz Brentano s references to presentations feelings and judgments The chapters explore further the meaning and metaphysics of fictional and other nonexistent intended objects fine points in Meinongian object theory are considered and new and previously unanticipated problems are addressed The author traces being and non being and aspects of beingless objects including objects in fiction ideal objects in scientific theory objects ostensibly referred to in false science and false history and intentional imaginative projection of future states of affairs The chapters focus on an essential choice of conceptual logical semantic ontic and more generally metaphysical problems and an argument is progressively developed from the first to the final chapter as key ideas are introduced and refined Meinong studies have come a long way from Bertrand Russell s off target criticisms and recent times have seen a rise of interest in a Meinongian approach to logic and the theory of meaning New thinkers see Meinong as a bridge figure between analytic and continental thought thanks to the need for an adequate semantics of meaning in philosophy of language and philosophy of mind making this book a particularly timely publication

**E-Volution Is a Fraud, It's Nothing More Than a Religion** Elder JimmyJay Biggs Junior, 2009-06-11 This book is about evolution as opposed to what it really says and what it really means There is no proof facts or evidence to support evolution and for the most part the scientists that support this ideology have no real foundation from on which to stand This book instructs and gives proof facts and evidence that shows evolution is nothing more than someone s belief In the face of reality one chooses the perception of reality this is fine within their vernacular However in the real world one needs tangible PFE in order to excavate one s ideas other wise they are only engaging in religious enthusiasm even though that s fine one can believe in what one wants to however reality is unlike the perception of reality this book chooses not the latter
