Coelho, 2013-04-17 Uprooting has to do with one of the fundamental properties of human life the need to change and with the personal and societal mechanisms for dealing with that need As with the more general problems of change uprooting can be a time of human disaster and desolation or a time of adaptation and growth into new capacities The special quality of uprooting is that the need to change is faced at a time of separation from accustomed social cultural and environmental support systems It is this separation from familiar supports that either renders the uprooted vulnerable to the destructive consequences of change or creates freedoms for their evolution into new and constructive patterns of life Whether the outcomes will be destructive or constructive will be determined by the forces at work the nature and power of the uprooting forces versus the personal and societal capacities for coping with them Uprooting events are so widespread as to be compared with the major rites of life but with the difference that dislocation is involved Uprooting reaches from self imposed movements such as rural to urban migration running away and traveling abroad for schooling to natural and man made disasters such as earthquakes political oppression and war The impacts vary from the need to adapt to a new culture for an interim period of study to the desolating consequences of the total loss of family friends home and country      **Moving Abroad For Nerds Guide Book: Moving Abroad Guidebook, Expatriate Life Planner, Digital Nomad Handbook, Relocation Guide for Nerds** Matt Kingsley, Tired of the same old 9 to 5 Dream of trading your cubicle for a co working space in Bali a cafe in Prague or a hammock in Costa Rica Moving Abroad for Nerds is your unconventional no B S guide to making that dream a reality Packed with practical advice hilarious anecdotes
