Literature And Madness:

Madness and Literature Lasse R. Gammelgaard, 2022-10-04 Mental illness has been a favourite topic for authors throughout the history of literature while psychologists and psychiatrists such as Sigmund Freud and Karl Jaspers have in turn been interested in and influenced by literature. Pioneers within philosophy, psychiatry and literature share the endeavour to explore and explain the human mind and behaviour including what a society deems as being outside perceived normality. Using a theoretical approach that is eclectic and transdisciplinary, this volume engages with literature's multifarious ways of probing minds and bodies in a state of mental ill health. The cases and the theory are in dialogue with a clinical approach addressing issues and diagnoses such as trauma, psychosis, bipolar disorder, eating disorders, self-harm, hoarding disorder, PTSD and Digital Sexual Assault. The chapters in Part I address literary representations of madness with a historical awareness outlining the socio-political potentials of madness literature. Part II investigates how representations of mental illness in literature can offer unique insights into the subjective experience of alternative states of mind. Part III reflects on how literary cases can be applied to help inform mental health education, how they can be used therapeutically, and how they are giving credence to new diagnoses. Throughout the book, the contributors consider how the language and discourses of literature both stylistically and theoretically can teach us something new about what it means to be mentally unwell.

Madness in Literature Lillian Feder, 2020-10-06 To probe the literary representation of the alienated mind, Lillian Feder examines mad protagonists of literature and the work of writers for whom madness is a vehicle of self-revelation. Ranging from ancient Greek myth and tragedy to contemporary poetry, fiction and drama, Professor Feder shows how literary interpretations of madness as well as madness itself reflect the very cultural assumptions, values and prohibitions they challenge. *Madness, Language, Literature* Michel Foucault, 2023-04-18 Collection of thirteen essays for the most part unpublished.

Revels in Madness Allen Thiher, 1999 The scope of this book is daunting, ranging from madness in the ancient Greco-Roman world to Christianized concepts of medieval folly through the writings of early modern authors such as Shakespeare, Cervantes and Descartes, and on to German Romantic philosophy, fin de siècle French poetry and Freud, Artaud, Duras and Plath. This provocative and closely argued work will reward many readers. *Choice* In *Revels in Madness*, Allen Thiher surveys a remarkable range of writers as he shows how conceptions of madness in literature have reflected the cultural assumptions of their era and emphasizes the transition from classical to modern theories of madness, a transition that began at the end of the Enlightenment and culminates in recent women's writing that challenges the postmodern understanding of madness as a fall from language or as a dysfunction of culture. *Madness and Creativity in Literature and Culture* Corinne Saunders, Jane Macnaughton, 2005-03-02 This collection of essays explores the relation between literature and madness from the Medieval to the Modern period. The essays examine how literature represents the experience of madness and cultural responses to it and how madness may inspire creativity. The volume also illuminates the history of

medicine demonstrating the shifts and continuities in clinical understandings of and social attitudes to mental illness from the Middle Ages through to the enlightened notions of the Eighteenth Century to the development of psychoanalysis

Madness in Post-1945 British and American Fiction C. Baker, P. Crawford, Brian Brown, Maurice Lipsedge, R. Carter, 2010-10-14 A comprehensive and thematic exploration of representations of madness in postwar British and American Fiction this book is relevant to those with interests in literary studies and is a vital read for psychiatric clinicians and professionals who are interested in how literature can inform and enhance clinical practices

Maternity, Mortality, and the Literature of Madness Marilyn Yalom, 1985 This book explores the interrelationship between the option and experience of motherhood and the experience of mental breakdown as vividly communicated by 20th century women writers The focus is on three writers Sylvia Plath Marie Cardinal and Margaret Atwood but others are included such as Maxine Hong Kingston Anne Sexton Virginia Woolf and Emma Santos Maternity Mortality and the Literature of Madness calls attention to the ways in which maternity and motherhood represent common forms of apprehension for all women reactivating the fear of death that has been discovered and repressed in childhood and in some instances contributing directly to mental breakdown It offers evidence of the particular stresses encountered by highly gifted women who try to negotiate their way between creation and procreation and write their way out of madness

Writing and Madness Shoshana Felman, Martha Noel Evans, 2003 This is the author's most influential work of literary theory and criticism in which she explores the relations between literature philosophy and psychoanalysis

Cultural Constructions of Madness in Eighteenth-Century Writing A. Ingram, M. Faubert, 2004-11-30 Cultural Constructions of Madness in the Eighteenth Century deals with the misrepresentation of insanity through a substantial range of literary forms and figures from across the eighteenth century and beyond Chapters cover the representation distortion sentimentalization and elevation of insanity and such associated issues as gender personal identity and performance in some of the best as well as some of the least known writers of the period A selection of visual material including works by Hogarth Rowlandson and Gillray is also discussed While primarily adopting a literary focus the work is informed throughout by an alertness to significant issues of medical and psychiatric history

Latin American Women and the Literature of Madness Elvira Sánchez-Blake, Laura Kanost, 2015-05-14 At the turn of the millennium narrative works by Latin American women writers have represented madness within contexts of sociopolitical strife and gender inequality This book explores contemporary Latin American realities through madness narratives by prominent women authors including Cristina Peri Rossi Uruguay Lya Luft Brazil Diamela Eltit Chile Cristina Rivera Garza Mexico Laura Restrepo Colombia and Irene Vilar Puerto Rico Close reading of these works reveals a pattern of literary techniques a poetics of madness employed by the writers to represent conditions that defy language make sociopolitical crises tangible and register cultural perceptions of mental illness through literature

Language, Madness, and Desire Michel Foucault, 2015-05-26 As a transformative thinker of the twentieth century whose work spanned all branches of the

humanities Michel Foucault had a complex and profound relationship with literature And yet this critical aspect of his thought because it was largely expressed in speeches and interviews remains virtually unknown to even his most loyal readers This book brings together previously unpublished transcripts of oral presentations in which Foucault speaks at length about literature and its links to some of his principal themes madness language and criticism and truth and desire The associations between madness and language and madness and silence preoccupy Foucault in two 1963 radio broadcasts presented here in which he ranges among literary examples from Cervantes and Shakespeare to Diderot before taking up questions about Artaud's literary correspondence lettres de cachet and the materiality of language In his lectures on the relations among language the literary work and literature he discusses Joyce Proust Chateaubriand Racine and Corneille as well as the linguist Roman Jakobson What we know as literature Foucault contends begins with the Marquis de Sade to whose writing particularly *La Nouvelle Justine* and *Juliette* he devotes a full two part lecture series focusing on notions of literary self consciousness Following his meditations on history in the recently published *Speech Begins after Death* this current volume makes clear the importance of literature to Foucault's thought and intellectual development *Readings of Trauma, Madness, and the Body* S. Anderson, 2012-09-14 In *Readings of Trauma Madness and the Body* Anderson explores how Modernist fiction narratives by Hemingway the Fitzgeralds and H D represent trauma specifically addressing the conflict between speaking about and repressing traumatic memories while also considering how authors' understandings of gender influence their depictions *Quand la folie parle* Gillian Ni Cheallaigh, Laura Jackson, Siobhan McIlvanney, 2014-06-26 *Quand la folie parle* presents a timely reinvigoration of the complex subject of madness and its literary manifestations This stimulating study authored by a range of young and talented international scholars is of key importance in defining and refining our ongoing endeavours to theorise and analyse the literary representations of the problematics of mental health By including discussions of texts that speak of madness as well as those that speak from madness this volume demonstrates that in fact the non sense of madness achieves a force of expression often more powerful than the usual order of logic Embracing the scientific the religious the medical the psychoanalytic the historical the erotic and of course the properly literary this wide ranging historically informed collection is particularly significant in its exploration of both the madwoman and the madman and exhibits an inclusiveness which extends to the genres and modes of the texts examined The authors discussed from Nerval and Houellebecq to NDiaye and L provide a refreshingly balanced picture of mental illness presenting madness or depression as a contestatory creative stance against often mind numbing social racial or consumerist conventions while refusing to play down the inevitable difficulties accompanying this isolating condition The dialectic effect referenced in the title of the collection extends not only to the dynamics at work within the volume itself as the different contributions implicitly dialogue with one another but equally to the reader of these essays who is engaged throughout in the debates put forward *The Sense and Sensibility of Madness* Doreen Bauschke, Anna

Klambauer,2018-11-05 This volume explores the intriguing ontological ambiguities of madness in literature and the arts Despite its association with a diseased abnormal mind there can be much sense and sensibility in madness Daring to break free from the dictates of normalcy madwomen and madmen disrupt the status quo Yet as they venture into uncharted or prohibited terrain they may also unleash the liberatory and transformative potential of unrestrained madness Contributors are Doreen Bauschke Teresa Bell Isil Ezgi Celik Terri Jane Dow Peter Gunn Anna Klambauer Rachel A Sims and Ruxanda Topor **Madness and Irrationality in Spanish and Latin American Literature and Culture** Lloyd Hughes

Davies,2020-06-01 The subject matter is topical madness has universal and enduring appeal The positive aspects of the irrational particularly its potential for cultural renewal are given more prominence than has been the case in the past The coverage is wide ranging new critical angles enrich our understanding of major writers while the appeal of lesser known figures is highlighted often by means of a comparative perspective Symptoms of Disorder: Reading Madness in British Literature, 1744-1845 Natali, Ilaria ,Volpone, Annalisa ,2016-03-30 The stylistic and cultural discourse concerning the narratives of mental disorder is the main focus of Symptoms of Disorder Reading Madness in British Literature 1744 1845 This collection offers new insights into the representation of madness in British literature between two landmark dates for the social philosophical and medical history of mental deviance 1744 and 1845 In 1744 the Vagrancy Act first mentions lunatics as a specific category which is itself a social symptom of an emerging need for isolation and confinement of the insane A more sophisticated and attentive care of the fool is testified only by the 1845 Lunatic Asylums Act which established specific processes safeguarding against the wrongful detention of patients in public and private facilities In stressing for the first time the momentous change the notion of madness underwent between these years this book provides a fresh and absolutely unique perspective on some of the major works connected with mental disorder The chronological boundaries also provide the collection with a definite and unifying frame which comprises social cultural legal and medical aspects of madness as an historical phenomenon It is within this frame that the eight essays composing the body of the book discuss how madness is recounted or even experienced by authors such as Christopher Smart and William Cowper William Blake Samuel Taylor Coleridge John Thomas Perceval Samuel Richardson Charlotte Lennox Eliza Haywood and Alfred Tennyson Symptoms of Disorder draws a wide ranging map of different representations of madness and their historic functioning between the 18th and 19th centuries The organizational principle of this collection is a double perspective which allows to suitably articulate the characterizations of insanity into themes and genres Reflecting the two main ways in which literary madness can be employed as a critical device in literature the chapters are grouped into theme oriented and writer oriented analyses Other collections dealing with literature and madness have already coped to a certain degree with works that represent insane characters and authors who adopt deviant voices as a fictional or rhetoric expedient Fewer studies of the same kind instead have offered a more comprehensive picture by also looking at the alleged insanity of the writer and at
