Lithuania in Crisis Leonas Sabaliūnas,1972 **Lithuania in Crisis** Leonas Sabaliunas,1972 Lithuania in Crisis Leonas Sabaliūnas, **Nationalism and Communism in Eastern Europe and the Soviet Union** W. Kemp,1999-02-08

Nationalism and Communism in Eastern Europe and the Soviet Union looks at communism s attempts to come to terms with nationalism between Marx and Yeltsin how the inability of communist theorists and practitioners to achieve an effective synthesis between nationalism and communism contributed to communism s collapse and what lessons that holds for contemporary Europe **Antanas Smetona and His Lithuania** Alfonsas Eidintas,2015-08-25 This biographical overview of the life of Antanas Smetona 1874 1944 his importance in the Lithuanian national movement his central role in the emergence of modern Lithuania 1918 1920 and the development of the various groups of nationalists in Lithuania offers a picture of the creation of a national state in XXth century Europe Twice the president of Lithuania 1919 20 and 1926 40 the authoritarian ruler of the state from 1926 1940 Smetona established his role as a capable and needed politician in Lithuania s political life a middle person between the political left and right The study characterizes Smetona s closest and most important associates who helped him to formulate legislation for his model of presidential regime the nationalistic ideology and the development of national economy Despite its authoritarian tendencies Smetona s rule surprisingly continued to be for many Lithuanians a symbol of Lithuanian independence and national freedom through the years of Soviet occupation **Lithuania 1940** Alfred Erich Senn,2007-01-01 In June 1940 as Nazi troops marched into Paris the Soviet Red Army marched into Lithuania Latvia and Estonia seven weeks later the USSR Supreme Soviet ratified the Soviet takeover of these states For half a century Soviet historians insisted that the three republics had voluntarily requested incorporation into the Soviet Union Now it has become possible to examine the events of that tumultuous time more carefully Alfred Erich Senn the author of books on the formation of the Lithuanian state in 1918 1920 and on the reestablishment of that independence in 1988 1991 has produced a fascinating account of the Soviet takeover juxtaposing a picture of the disintegration and collapse of the old regime with the Soviets imposition of a new order Discussing the historiography and the living memory of the events he uses the image of a shell game that focused attention on the work of a supposedly non communist government while in the hothouse conditions of military occupation Moscow undermined the state s independent institutions and introduced a revolution from above

Historical Dictionary of Lithuania Saulius A. Suziedelis,2011-02-07 The Lithuanian people have undergone historic changes quite different from those of other European nations In earlier centuries geography provided strategic advantage and opportunities for expansion but in recent times the country has more often experienced location as a geopolitical curse After constantly losing territory and shrinking in size the country disappeared in 1795 However after World War I a popular national movement led to the restoration of Lithuania as an independent state World War II and its bloody aftermath brought foreign occupation as well as genocide mass murder and destruction unparalleled in the country s modern history The

restoration of independence in 1990 has fundamentally altered Lithuania's geopolitical reality. Integration into the European Union and the North Atlantic Treaty Organization promise a new level of security for the Lithuanian state in the 21st century even as the social and economic transformations present both promising opportunities and difficult challenges. The second edition of the Historical Dictionary of Lithuania will serve as a useful introduction to virtually all aspects of Lithuania's historical experience including the country's relations with its neighbors. This is done through a chronology, an introductory essay, an extensive bibliography, and over 300 cross-referenced dictionary entries on significant persons, places, and events, institutions, and organizations, and political, economic, social, cultural, and religious facets. *Lithuanian Social Democracy in Perspective, 1893-1914* Leonas Sabaliūnas, 1990. *Lithuanian Social Democracy in Perspective* is the first book in any Western language on Lithuanian Social Democracy. In this work, Leonas Sabaliūnas studies the conflict between and convergence of socialism and nationalism in pre-1914 Lithuania. He analyzes the interplay of ideological priorities by observing the operations of Marxist political parties, emphasizing the origins, development, and achievements of the Social Democratic Party of Lithuania. But Sabaliūnas also considers such partners and rivals as the Jewish Bund, the Polish Socialist Party, the Social Democracy of the Kingdom of Poland and Lithuania, and the Russian Social Democratic Labor Party. He focuses on the appearance of socialist parties at the local level, the politics of assertive behavior during the Russian Revolution of 1905, 1906, the nature of interparty relations, and efforts to promote party unity. In particular, he investigates the projected relationship between Russia and its subject nationalities, a cardinal concern today as the Baltic peoples attempt to distance themselves from their Russian neighbors. Sabaliūnas clarifies current massive Lithuanian opposition to Moscow and to its version of socialism. He stresses that in Lithuania, the socialist movement from the beginning not only sought solutions to social and economic problems but also addressed issues of ethnic and national interest, especially the question of national sovereignty.

Nationalism And Policy Toward The Nationalities In The Soviet Union Gerhard Simon, 2019-04-11. This book examines Soviet nationalities policy from the 1920s to the present. Tracing nationalities policy to its roots in Bolshevik efforts to arrest the decay of the Russian Empire, Dr. Simon looks at the evolution of Soviet policy, analyzes the reactions of non-Russian peoples to the policies, and discusses the forms of expression and the goals of. **The Rise and Fall of Belarusian Nationalism, 1906-1931** Per Anders Rudling, 2015-02-27. Modern Belarusian nationalism emerged in the early twentieth century during a dramatic period that included a mass exodus, multiple occupations, seven years of warfare, and the partition of the Belarusian lands. In this original history, Per Anders Rudling traces the evolution of modern Belarusian nationalism from its origins in late imperial Russia to the early 1930s. The revolution of 1905 opened a window of opportunity, and debates swirled around definitions of ethnic, racial, or cultural belonging. By March of 1918, a small group of nationalists had declared the formation of a Belarusian People's Republic (BNR) with territories based on ethnographic claims. Less than a year later, the Soviets claimed roughly the same area for a Belarusian Soviet Socialist Republic (BSSR). Belarusian statehood was declared no

less than six times between 1918 and 1920 In 1921 the treaty of Riga officially divided the Belarusian lands between Poland and the Soviet Union Polish authorities subjected Western Belarus to policies of assimilation alienating much of the population At the same time the Soviet establishment of Belarusian language cultural and educational institutions in Eastern Belarus stimulated national activism in Western Belarus Sporadic partisan warfare against Polish authorities occurred until the mid 1920s with Lithuanian and Soviet support On both sides of the border Belarusian activists engaged in a process of mythmaking and national mobilization By 1926 Belarusian political activism had peaked but then waned when coups d etats brought authoritarian rule to Poland and Lithuania The year 1927 saw a crackdown on the Western Belarusian national movement and in Eastern Belarus Stalin s consolidation of power led to a brutal transformation of society and the uprooting of Belarusian national communists As a small group of elites Belarusian nationalists had been dependent on German Lithuanian Polish and Soviet sponsors since 1915 The geopolitical rivalry provided opportunities but also liabilities After 1926 maneuvering this complex and progressively hostile landscape became difficult Support from Kaunas and Moscow for the Western Belarusian nationalists attracted the interest of the Polish authorities and the increasingly autonomous republican institutions in Minsk became a concern for the central government in the Kremlin As Rudling shows Belarus was a historic battleground that served as a political tool borderland and buffer zone between greater powers Nationalism arrived late was limited to a relatively small elite and was suppressed in its early stages The tumultuous process however established the idea of Belarusian statehood left behind a modern foundation myth and bequeathed the institutional framework of a proto state all of which resurfaced as building blocks for national consolidation when Belarus gained independence in 1991

Where Nation-States Come From Philip G. Roeder, 2012-01-09 To date the world can lay claim to little more than 190 sovereign independent entities recognized as nation states while by some estimates there may be up to eight hundred more nation state projects underway and seven to eight thousand potential projects Why do a few such endeavors come to fruition while most fail Standard explanations have pointed to national awakenings nationalist mobilizations economic efficiency military prowess or intervention by the great powers Where Nation States Come From provides a compelling alternative account one that incorporates an in depth examination of the Russian Empire the Soviet Union and their successor states Philip Roeder argues that almost all successful nation state projects have been associated with a particular political institution prior to independence the segment state a jurisdiction defined by both human and territorial boundaries Independence represents an administrative upgrade of a segment state Before independence segmental institutions shape politics on the periphery of an existing sovereign state Leaders of segment states are thus better positioned than other proponents of nation state endeavors to forge locally hegemonic national identities Before independence segmental institutions also shape the politics between the periphery and center of existing states Leaders of segment states are hence also more able to challenge the status quo and to induce the leaders of the existing state to concede independence Roeder

clarifies the mechanisms that link such institutions to outcomes and demonstrates that these relationships have prevailed around the world through most of the age of nationalism

Democratic Consolidation in Eastern Europe: Volume 1: Institutional Engineering Jan Zielonka, 2001-06-14 This is the first volume in a series of books on democratic consolidation in Eastern Europe The series focuses on three major aspects of democratic consolidation in Eastern Europe institutional engineering transnational pressures and civil society This first volume analyses constraints on and opportunities of institutional engineering in Eastern Europe to what extent and how elites in Eastern Europe have been able to shape if not manipulate the politics of democratic consolidation through institutional means The aim is to contrast a set of democracy theories with empirical evidence accumulated in Eastern Europe over the last ten years The volume tries to avoid complex debates about definitions methods and the uses and misuses of comparative research Instead it tries to establish what has really happened in the region and which of the existing theories have proved helpful in explaining these developments The volume starts with a presentation of conceptual and comparative frameworks followed by in depth empirical analyses of the thirteen individual countries undergoing democratic consolidation The first conceptual and comparative part contains three chapters The first chapter explains what institutional engineering is about and describes our experiences with institutional engineering in former transitions to democracy It also focuses on the import and export of institutional designs The second chapter analyses the utility of constitutions in the process of democratic consolidation The third chapter compares constitutional designs and problems of implementation in Southern and Eastern Europe The empirical case studies deal with the following countries Estonia Latvia Lithuania Bulgaria Romania Ukraine Russia Belarus the Czech Republic Slovakia Slovenia Hungary and Poland And the conclusions evaluate the enormous impact of institutions on politics in Eastern Europe and show how central constitutional designs are to the institutional engineering in the societies undergoing transitions to democracy

British Intelligence and Hitler's Empire in the Soviet Union, 1941-1945 Ben Wheatley, 2017-01-26 This is the first detailed study of Britain's open source intelligence OSINT operations during the Second World War showing how accurate and influential OSINT could be and ultimately how those who analysed this intelligence would shape British post war policy towards the Soviet Union Following the Nazi invasion of the Soviet Union in June 1941 the enemy and neutral press covering the German occupation of the Baltic states offered the British government a vital stream of OSINT covering the entire German East OSINT was the only form of intelligence available to the British from the Nazi occupied Soviet Union due to the Foreign Office suspension of all covert intelligence gathering inside the Soviet Union The risk of jeopardising the fragile Anglo Soviet alliance was considered too great to continue covert intelligence operations In this book Wheatley primarily examines OSINT acquired by the Stockholm Press Reading Bureau SPRB in Sweden and analysed and despatched to the British government by the Foreign Research and

A Reader's Guide to the Baltic States ,1991 *The Kings and the Pawns* Leonid Rein,2011-03-01 For many years the history of Byelorussia under Nazi occupation was written primarily from the perspective of the resistance movement This movement a reaction to the brutal occupation policies was very strong indeed Still as the author shows there existed in Byelorussia a whole web of local institutions and organizations which some willingly others with reservations participated in the implementation of various aspects of occupation policies The very sensitivity of the topic of collaboration has prevented researchers from approaching it for many years not least because in the former Soviet territories ideological considerations have played an important role in preserving the topic s untouchable status Focusing on the attitude of German authorities toward the Byelorussians marked by their anti Slavic and particularly anti Byelorussian prejudices on the one hand and the motives of Byelorussian collaborators on the other the author clearly shows that notwithstanding the postwar trend to marginalize the phenomenon of collaboration or to silence it altogether the local collaboration in Byelorussia was clearly visible and pervaded all spheres of life under the occupation [The Baltic Nations and Europe](#) John Hiden,Patrick Salmon,2014-01-14 Of all the Soviet Union s subject nationalities the three Baltic republics Estonia Latvia and Lithuania were the most determined and best organised in seizing the opportunities created by glasnost and perestroika to win freedom from Moscow s grip At the time of first publication in 1991 the final section of the book was speculative Now for this revised edition the authors have provided a new final chapter which brings the story up to date and the three republics to political independence again [Hitler's Foreign Policy 1933-1939](#) Gerhard L. Weinberg,2010-03-01 Hitler s path to war consisted of two different stages that paralleled the internal development of Germany From 1933 to the end of 1936 he created a diplomatic revolution in Europe From a barely accepted equal Germany became the dominant power on the continent With the remilitarization of the Rhineland the stalemate in the Spanish Civil War the forming of the Axis and the signing of the Anti Comintern Pact the first phase was completed In the second phase the diplomatic initiative in the world belonged to Germany and its partners Germany s march toward war therefore became the central issue in world diplomacy
