Lithuania Stepping Westward:

Lithuania, 2001 **Lithuania** Thomas Lane, 2014-04-08 This book offers a concise survey of Lithuania's peaceful transition to independence in the postcommunist era and shows how the country has moved to return to Europe whilst also resisting the dilution of her rich culture and traditions **Lithuania** Thomas Lane, 2001-01 Lithuania restored her independence after half a century of Soviet occupation in the immediate aftermath of the failed Moscow coup in August 1991. As the multi-national Soviet state disintegrated, Lithuania evolved without war or violence from a communist state, a command economy to a liberal democracy, a free market, a society guaranteeing human minority rights. Equally remarkable has been Lithuania's evident determination to return to Europe after half a century of separation, even at the price of submerging its recently restored sovereign rights in the supranational European Union.

Intermarium Marek Jan Chodakiewicz, 2012 History and collective memories influence a nation's culture and institutions; hence its domestic politics and foreign policy. That is the case in the Intermarium, the land between the Baltic and Black Seas in Eastern Europe. The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures. Marek Jan Chodakiewicz focuses on the Intermarium for several reasons. Most importantly, because as the inheritor of the freedom and rights stemming from the legacy of the Polish-Lithuanian-Ruthenian Commonwealth, it is culturally and ideologically compatible with American national interests. It is also a gateway to both East and West. Since the Intermarium is the most stable part of the post-Soviet area, Chodakiewicz argues that the United States should focus on solidifying its influence there. The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world. As such, the area can act as a springboard to addressing the rest of the successor states, including those in the Caucasus, Central Asia, and the Russian Federation. Intermarium has operated successfully for several centuries. It is the most inclusive political concept within the framework of the Commonwealth. By reintroducing the concept of the Intermarium into intellectual discourse, the author highlights the autonomous and independent nature of the area. This is a brilliant and innovative addition to European Studies and World Culture.

Culture and Customs of the Baltic States Kevin C. O'Connor, 2006-03-30 The Baltic States of Estonia, Latvia, and Lithuania are thriving after hundreds of years of German colonization, numerous wars of conquest, and demographic Russification. Their cultures have survived, perhaps through a conscious effort to sustain many of their most ancient customs and traditions. Though the Baltic States are responding to modern and postmodern international trends, contemporary developments in the region's cultural life are part of an ongoing conversation about the way in which the Balts understand their histories, destinies, and national identities. This timely overview of the reemerging states portrays the Estonians, Latvians, and Lithuanians as they see themselves through a historical lens. Mobilizing for Democracy Donatella della Porta,2014-03-06 Strangely enough while the pictures used to illustrate the most recent wave of protests for democracy in North Africa represent mass protest research on social movements and democratization have rarely interacted This volume aims to fill this gap by looking at episodes of democratization through the lens of social movement studies Without assuming that democratization is always produced from below the author singles out different paths of democratization by looking at the ways in which the masses interact with the elites and protest with bargaining eventful democratization participated pacts and troubled democratization The main focus is on the first of the paths eventful democratization that is cases in which authoritarian regimes break down following often short but intense waves of protest Recognizing the particular power of some transformative events the analysis locates them within the broader mobilization processes including the multitude of less visible but still important protests that surround them Cognitive affective and relational mechanisms are singled out as transforming the contexts in which dissidents act In all three paths mobilization of resources framing processes and appropriation of opportunities will develop in action in different combinations The comparison of different cases within two waves of protests for democracy in Central Eastern Europe in 1989 and in the Middle East and North Africa in 2011 allows the author to theorize about causal mechanisms and conditions as they emerge in mobilizations for democracy
