Little Kingdoms Three Novellas:

Little Kingdoms Steven Millhauser, 2010-09-01 The Pulitzer Prize winning author of *Martin Dressler* delivers an inventive collection of three novellas that are a magical companion to his acclaimed longer fictions. Millhauser makes our world turn amazing. The New York Times Book Review Cartoons that draw their creator into another world, demonic paintings that exert a sinister influence on our own Fairy tales that express the secret losses and anxieties of their tellers. These are the elements that Steven Millhauser employs to such marvelous and often disquieting effect in *Little Kingdoms*. In *The Little Kingdom* of J. Franklin Payne, a gentle eccentric constructs an elaborate alternate universe that is all the more appealing for being transparently unreal. *The Princess the Dwarf and the Dungeon* is at once a gothic tale of nightmarish jealousy and a meditation on the human need for exaltation and horror. And *Catalogue of the Exhibition* introduces us to the oeuvre of Edmund Moorash, a Romantic painter who might have been imagined by Nabokov or Poe. Exuberantly inventive as mysterious as dreams, these novellas will delight, mesmerize and transport anyone who reads them. *Understanding Steven Millhauser*

Earl G. Ingersoll, 2014-02-19 An exploration of the thematic interests and narrative strategies of a contemporary American master of fiction, Earl Ingersoll introduces the fiction of Steven Millhauser whose distinguished career of more than four decades includes eight books of short fiction and four novels, the latest being the Pulitzer Prize winning *Martin Dressler* (1996). In *Understanding Steven Millhauser*, Ingersoll explores Millhauser's twelve books chronologically, revealing the development of a major contemporary American writer and a master of fiction who cares as deeply about his craft as the modernists did earlier in the past century. While most examinations of an author's work begin with at least a biographical sketch, Ingersoll has faced distinct challenges because Millhauser has resisted efforts to read his fiction through the lens of his biography. Responding to an interviewer's request for a brief biography, Millhauser provided the succinct: "1943. Part of such resistance," Ingersoll argues, arises from Millhauser's belief that if readers have too many questions about an author's work, the author has failed and no amount of response can redress that failure. Millhauser's central characters, such as August Eschenburg and J. Franklin Payne, are often themselves artists or technicians who are overreachers, and Ingersoll shows that Millhauser's early expressions of literary realism have given way to interest in departures from the real. For Millhauser, stories like conjuring tricks are invented because history is inadequate to our dreams. Millhauser's strength is the ability to sustain obsessions because works of fiction succeed insofar as they are able to supplant reality. As a master fabulist, Ingersoll argues, Millhauser is preoccupied with extravagance both in the subject matter of his fiction and in his style. Whether it involves *Martin Dressler* doing himself in by designing and constructing increasingly complex hotels or the miniaturists in the short story *Cathay* pushing their impulse to extremes past the eye's ability to see their art objects, Millhauser's fiction is full of such an impulse which can produce prolific artists as well as compulsive lunatics. The triumph of Millhauser's craft, Ingersoll shows, is that it merges a fascination with the relationship between imagination and experience with a precise and allusive prose to produce

works seamlessly joining the everyday with the radical and fantastic in forms ranging from travelogues of the imagination to works merging the waking world with the world of dreams Bound to Please Michael Dirda,2005 A showcase of one hundred of the world's most significant books offers the author's introductory essays on such writers as James Boswell Colette and Joseph Roth and includes explorations of a range of genres and specific works Monstrous media/spectral subjects Fred Botting,Catherine Spooner,2015-05-01 Monstrous media spectral subjects explores the intersection of monsters ghosts representation and technology in Gothic texts from the nineteenth century to the present It argues that emerging media technologies from the phantasmagoria and magic lantern to the hand held video camera and the personal computer both shape Gothic subjects and in turn become Gothicised In a collection of essays that ranges from the Victorian fiction of Wilkie Collins Bram Stoker and Richard Marsh to the music of Tom Waits world horror cinema and the TV series Doctor Who this book finds fresh and innovative contexts for the study of Gothic Combining essays by well established and emerging scholars it should appeal to academics and students researching both Gothic literature and culture and the cultural impact of new technologies **Companion to Literature** Abby H.
