Walker, 1979-03-01 **Presidencies Derailed** Stephen Joel Trachtenberg, Gerald B. Kauvar, E. Grady Bogue, 2016-06-01

How do some university presidents lose their way and why are their consequential dismissals given so much media attention? *Presidencies Derailed* is the first book to explore in depth why university presidencies fail and how university and college leadership can forestall if not prevent future leadership failures. Former university president Stephen Joel Trachtenberg along with professor Gerald B. Kauvar and former chancellor E. Grady Bogue organize, classify, and explain patterns of leadership failures drawing on firsthand testimonies from derailed university presidents, sixteen case studies in four sectors of higher education, and reviews of the scholarly literature on leadership failures in the public and private sectors. Corri Zoli, Shobha Bhatia, Valerie Davidson, Kelly Rusch, 2022-06-01 In this book we explore a sea change occurring in leadership for academic women in the sciences and engineering. Our approach is a two-pronged one. On the one hand we outline the nature of the changes and their sources both in various literatures and from program research results. On the other hand we specify and provide detail about the persistent problems and obstacles that remain as barriers to women's full participation in academic science and engineering, their career advancement and success, and most important, their role as leaders in making change. At the heart of this book is our goal to give some shape to the research practice and programs developed by women academic leaders making institutional change in the sciences and engineering.
